## ENVIRONMENTAL PROTECTION

---

---

**EP401****ENVIRONMENTAL PROTECTION ACT 1986****WASTE MANAGEMENT AND RECYCLING FUND—COMMENCEMENT OF OPERATIONS**

The Environmental Protection (Landfill) Levy Act 1998 assented to on 30th April 1998 enables the Government to raise a levy on waste to landfill generated or disposed of in the Metropolitan Area. The money raised by the levy will be used to fund waste minimisation and recycling initiatives outlined in the (draft) Western Australian Waste Reduction and Recycling Policy. The levy funds will be credited to the Waste Management and Recycling Fund (the Fund). The expenditure of the funds will be governed by provisions in the Environmental Protection Amendment Act 1998 which was assented to in late May. These provisions require the publication in the *Government Gazette* of the Objectives and Principles of the Fund at the commencement of operation of the Fund, and on other occasions from time to time.

In accordance with section 110H(7)(b) of the Environmental Protection Act 1986, the Hon Minister for the Environment hereby publishes a statement of the Principles and Objectives of the Waste Management and Recycling Fund established under section 110H(1) of the Act.

**PRINCIPLES OF THE FUND**

The principles that guide the operation of the Waste Management and Recycling Fund are—

1. The environmental and economic impact of waste should be kept to a minimum.
2. Society should be responsible for managing its own waste today, rather than leaving it for future generations to deal with.
3. Wastes should not be knowingly created where there is no environmentally acceptable and appropriate management option.
4. Those responsible for generating waste should pay for its treatment or disposal.
5. Waste management should be based on a waste management hierarchy involving—
  - waste reduction (avoiding the creation of waste);
  - re-use;
  - recycling and reprocessing (including treatment);
  - energy recovery; and
  - disposal (as a last resort).

6. Western Australians should have access to appropriate advice and means for waste prevention, recycling treatment and disposal.
7. All aspects of the Fund should be open and accountable.
8. Programs supported by the Fund are outcome based and in accordance with the principles and objectives of the Fund.

#### OBJECTIVES OF THE FUND

The objectives of the Waste Management and Recycling Fund are to—

1. Encourage the conservation of resources and energy through waste reduction and recycling.
2. Promote, support and encourage viable alternatives to landfill disposal of waste.
3. Encourage the development of appropriate waste management, waste reduction and recycling infrastructure and markets.
4. Support and encourage applied research and development into waste management, waste reduction and recycling that assists in meeting the State's objectives.
5. Ensure that Western Australians have access to appropriate waste management, waste reduction and recycling services.
6. To provide for an educated and aware community to assist in achieving these ends.
7. Promote State and regional co-ordination of recycling and waste reduction.

**BUSH FIRES ACT 1954**

*SHIRE OF CHITTERING*

NOTICE TO ALL OWNERS AND OCCUPIERS OF LAND

P.O BOX 70 BINDOON 6502

PH: 08 9576 1044 FAX: 08 9576 1250

Pursuant to the powers contained in Section 33 of the above Act you are hereby required, on or before 31st October, 1998 to establish firebreaks clear of all flammable material and thereafter maintain such firebreaks clear of all flammable materials up to and including 12th April, 1999 as follows:

**Hazard Reduction:**

Landowners are advised that inspections of properties shall be carried out prior to 15 October each year and Orders for Hazard Reduction will be served by 1 November each year requiring that the necessary work be undertaken prior to 15 November.

Failure to comply with Hazard Reduction Orders will result in the work being undertaken by Council or the local Bush Fire Brigade at the landowners expense.

Hazard reduction may be effected by stocking, clearing, slashing, burning or firebreaks to the Fire Control Officers satisfaction.

**Rural:**

- (a) Zone 4—Wannamal not less than a three (3) metre wide firebreak and Zone 6—South not less than a three (3) metre firebreak around all buildings, haystacks and fuel storage areas situated on the land not more than 20 metres from the perimeter of these areas and around the entire property boundary or strategically positioned on the property according to a plan agreed to by the Fire Control Officer for the area and recorded by the Shire of Chittering.

If the local Fire Control Officer does not approve the proposed alternative firebreak plan the landowner may appeal to the Chief Fire Control Officer. If agreement is not reached the firebreak must be installed around the perimeter as above.

- (b) Where the construction of firebreaks may cause hardship or be impractical the landowner may appeal to a Fire Control Officer for the area for a variation subject to any approved variation being recorded by the Shire of Chittering.
- (c) Unless approval is granted for alternative locations as items (a) or (b) three (3) metre firebreaks shall be positioned so as to divide the land into areas not in excess of 120 hectares each completely surrounded by a firebreak.

### **Special Rural/Rural Living Subdivisions**

#### **Landowners or Occupiers Shall:**

- (a) Clear firebreaks not less than three (3) metres wide completely surrounding and not more than twenty (20) metres from the perimeter of all buildings, haystacks and fuel storage areas situated on the land.
- (b) Install access (three (3) metre wide gate) on fences meeting the perimeter fence of the subdivision (where there is not a bridle trail on the perimeter) to allow access for firebreak maintenance machinery on each such lot joining the subdivision perimeter.
- (c) Landowners/Occupiers not wishing to conform to Section (b) will clear firebreaks not less than three (3) metres wide immediately inside all external boundaries of their land, as well as precautions detailed in Section (a).

#### **Bindoon, Wannamal & Muchea Townsites:**

- (a) For lots greater in area than 4 acres (1.6192 ha) the landowner or occupier shall clear firebreaks:
  - (i) not less than three (3) metres wide immediately inside and along those portions of the boundaries of all cleared or part cleared land having common boundaries with land of other owners or with public roads.
  - (ii) not less than three (3) metres wide immediately surrounding all buildings and haystacks and fuel storage areas situated on the land.
- (b) All other lots shall have firebreaks around the perimeter of all buildings cleared of all flammable material to a width not less than three (3) metres and in the case of vacant land the firebreak shall be on the perimeter of the property.

#### **Variations to Firebreaks:**

If it is considered impracticable for any reason to clear firebreaks as required by this notice, you may apply direct to the Bush Fire Control Officer for the area in which the land is situated not later than 15th October, 1998 for permission to provide firebreaks in alternative positions.

Such an application should be submitted in writing. A sketch indicating the proposed alternative positions of firebreaks should be attached to the application.

When considering the application, the Fire Control Officer will take into account:

- The safety of residents, neighbours and firefighters in the event of a fire on the property, including the extent to which the firebreak permits access to and around the property by firefighters and their vehicles.
- The safety of buildings and other property values.
- The likelihood of a fire entering or leaving the property.
- Natural or man-made obstacles/values on the property, eg. wetlands, rock outcrops, remnant natural vegetation, steep slopes, buildings, watertanks, etc.

Examples of variations which are likely to be approved:

- Maintained lawns and garden which are unlikely to carry a fire.
- Firebreaks which isolate wetlands or areas of remnant vegetation.
- Firebreaks designed to avoid steep slopes.

Examples of firebreaks which are not likely to be approved:

- Firebreaks which are not accessible and trafficable by firefighting vehicles.
- Firebreaks on verges or adjoining properties.
- Firebreaks which come to a dead-end.

When permission has been obtained from the Fire Control Officer to provide firebreaks in alternative positions it is your responsibility to advise the Council in writing that such approval was given.

If permission is not granted by the FCO to vary the requirements, you shall comply with this notice.

THE PENALTY FOR FAILING TO COMPLY WITH THIS NOTICE IS A FINE OF NOT LESS THAN \$80.00 NOR MORE THAN \$1,000.00 AND A PERSON IN DEFAULT IS ALSO LIABLE, WHETHER PROSECUTED OR NOT, TO PAY THE COST OF PERFORMING THE WORK DIRECTED IN THIS NOTICE.

If the requirements of this notice are carried out by burning, such burning must be in accordance with the relevant provisions of the Bush Fires Act.

**PROHIBITED PERIOD FOR ENSUING SEASON***Burning Permits Required***Whole Shire (Zone 4 and 6):**

Burning is prohibited in this area from 1st December, 1998 to 28th February 1999.

Burning is allowed with a permit between 19th October, 1998 and the commencement date of the Prohibited Burning Time (1st December) and after the end of the Prohibited Burning Time 1st March, 1999 to 1st May, 1999 subject to specified conditions obtainable at Shire Offices and issue of a burning permit obtainable from Fire Control Officers.

**Restricted Periods:**

19 October, 1998 to 30 November, 1998

1 March, 1999 to 1 May, 1999

**Prohibited Period:**

1 December, 1998 to 28 February, 1999

Burning is not permitted on Sundays during the prohibited and restricted burning period for all zones.

Burning on public holidays during the prohibited and restricted period, with the exception of Good Friday, Easter Saturday and Easter Sunday, may be allowed subject to a permit being granted.

**Harvesting on Sundays & Public Holidays:**

Council will permit grain harvesting from 1 November 1998 to 28 February 1999 on Sundays and Public Holidays, excepting Christmas Day, on the following conditions:

- (a) the local Fire Control Officer is advised that harvesting will be in progress.
- (b) two (2) adult, able-bodied persons are present during harvesting operations, only one of who may be harvesting.
- (c) fire fighting equipment must be on hand at all times.
- (d) harvesting will not be permitted on days where Council has declared and broadcast a harvest ban.

ADVERTISEMENT OF APPROVED TOWN PLANNING SCHEME AMENDMENT

*SHIRE OF DONNYBROOK/BALINGUP*

TOWN PLANNING SCHEME NO. 4—AMENDMENT NO. 26

Ref: 853/6/4/4, Pt. 26.

It is hereby notified for public information, in accordance with Section 7 of the Town Planning and Development Act, 1928 (as amended) that the Hon Minister for Planning approved the Shire of Donnybrook/Balingup Town Planning Scheme Amendment on June 24, 1998 for the purpose of—

1. Deleting existing Clause 6.7.1 (a) and substituting it with a new clause as follows—
  - 6.7.1 Aims and Objectives
    - (a) “Not more than one single dwelling house per lot shall be erected except where Council has supported an application to permit Holiday Accommodation that will not conflict or detrimentally impact upon the amenity of the surrounding area.”
2. Inserting a new clause 6.7.4 as follows—
  - 6.7.4 Holiday Accommodation
    - (a) When considering Holiday Accommodation in the ‘Rural Residential’ Zone, Council will require advertising in accordance with Clause 8.2 of the Scheme
    - (b) Proposals will be required to meet the criteria established in “Local Government By-law No. 18 (Holiday Accommodation) as adopted by Council, except the requirement to meet the specified minimum number of units, to constitute holiday accommodation development, shall not apply. The maximum number of holiday units that can be permitted shall be consistent with the Scheme as determined by Council.
    - (c) In considering applications for the development of Holiday Accommodation Council will also assess applications against the following criteria—
      - Selected sites should be in close proximity (within 5km) to a townsite or major tourist node;
      - selected sites should demonstrate a physical environment or surrounds that are conducive to tourist development;
      - selected sites should have reasonable access to all necessary public infrastructure and such infrastructure should be capable of supporting the scale of development proposed without requiring significant upgrading;
      - selected sites should be secluded to ensure the protection of rural vista’s and visual impacts on adjoining land uses;
      - Holiday Accommodation will not be supported in areas where it is considered that the development would dominate the natural or rural landscape;
      - selected sites should be well vegetated (minimum site coverage of 30%) or buffered by surrounding vegetation to ensure the development will be screened from roads and surrounding land uses. Discretion will be exercised where there is evidence that the landowners are committed to revegetation of the site as a part of the Development Application process;
      - the maximum density for development should be one unit for each lha of lot area, unless it can be demonstrated that significant topographical or physical features make the site conducive to denser development. Caretakers Dwellings would be additional;
      - sites within the ‘Road Protection Area’s described in Clause 6.15.1 of the Scheme will be required to meet the setback and development provisions of that clause being a 30 metre building line from the edge of the road reserve and control of advertising within 50 metres of the road reserve;
      - Holiday Accommodation should generally comprise a clustering of buildings which are single storey or split level construction and with a character similar to farm dwellings or cabins and designed to blend with the rural and natural surroundings; and

- Development Applications to meet the requirements of Clause 8.1.2 of TPS No. 4 and in particular should incorporate an indicative site plan which adequately depicts the scale of development, how it is to be located on the site, proposed uses, access and car parking proposals and buffering treatments to adjoining land uses. plan will also need to address effluent disposal, drainage and landscaping issues. These issues should be a direct response to the topography and the land capability of the site.
3. Introducing 'Holiday Accommodation' as an 'AA' use in the "Rural Residential" zone of the Zoning Table (Table No. 1).
  4. Introducing 'Caretakers Dwelling' as an 'IP' use in the "Rural Residential" zone of the Zoning Table (Table No. 1).

F. S. DRAKE-BROCKMAN, President.  
J. ATTWOOD, Chief Executive Officer.
