It is hereby notified for public information, in accordance with Section 7 of the Town Planning and Development Act, 1928 (as amended) that the Acting Hon Minister for Planning approved the Shire of Wanneroo Town Planning Scheme Amendment on 14 April, 1999 for the purpose of:

- (b) including the following Special Provisions applicable to this proposed Special Rural Zone in Part 2 of Schedule 4 of the Scheme Text.

Special Rural Zone No 28

Description of Locality:

Lots 24, 25, 26, 27 and 28 Badgerup Road, Gnangara

Special Provisions:

- (i) The minimum lot size should be not less than one hectare and subdivision should generally be in accordance with the "Development Guide Plan".
- (ii) The land the subject of this zone may be used for residential and equestrian purposes only. Ancillary land uses may be permitted on the condition that they do not generate further significant nutrient application, or involve the clearing of land (other than for building envelopes, fences, fire breaks, access and servicing).
- (iii) The keeping of livestock for commercial purposes is prohibited.
- (iv) No more than one horse shall be permitted on any lot.
- (v) A cleared building envelope measuring no greater than 1,200 m will be permitted on each lot as shown on the Development Guide Plan. The clearing of trees and native vegetation outside of the building envelope is prohibited other than for fences, fire breaks, access and servicing. The position of the building envelope shown on each lot may be varied subject to Council approval.
- (vi) Should a horse be kept on any lot the landholder shall confine the horse to the building envelope area shown on the Development Guide Plan by fencing, and should damage be caused to tree and shrub vegetation by the horse, the Council may require that the horse be removed from the lot until such time as improvements to the satisfaction of the Council have been made to fencing which is intended to protect the trees and shrubs.
- (vii) The land is to be managed in such a manner as to avoid the land being laid bare of vegetation resulting in loose, wind erodible conditions. In particular, lots shall not be cleared of trees except as provided for by Special Provision (v) or where trees are dead or pose a hazard to safety.
- (viii) On-site effluent disposal system requirements:
 - (a) the underside of effluent disposal chambers of conventional effluent disposal systems servicing dwellings shall be a minimum of two (2) metres above the estimated maximum water table level as determined from time to time by the Water and Rivers Commission or equivalent State Government agency;
 - (b) the underside of effluent disposal chambers or effluent disposal pads of modified nutrient attenuating on-site sewage disposal systems servicing dwellings shall be a minimum of five hundred (500) millimetres above the estimated maximum water table level as determined from time to time by the Water and Rivers Commission or equivalent State Government agency;

- (c) the effluent disposal chambers of conventional on-site sewage disposal systems servicing dwellings shall be a minimum horizontal distance of one hundred (100) metres from areas determined from time to time by the City of Wanneroo to be subject to periodic inundation;
- (d) the effluent disposal chambers or effluent disposal pads of modified, nutrient attenuating on-site sewage disposal systems servicing dwellings shall be a minimum horizontal distance of fifty (50) metres from areas determined from time to time by the City of Wanneroo to be subject to periodic inundation.
- (ix) Where re-vegetation is indicated on the Development Guide Plan, the subdivider of the estate shall re-vegetate the area in accordance with the recommendations contained in Appendix D1 of the 'Special Rural Rezoning Proposal Report for Lots 24, 25, 26, 27 and 28 Badgerup Road, Gnanagara' prepared by Greg Rowe and Associates and dated November 1996 and such re-vegetation shall be undertaken by the subdivider prior to any lots being created.
- (x) The subdivider shall provide a reticulated water supply to all proposed lots within this zone.
- (xi) The 2.5 metre widening of Badgerup Road shown on the Development Guide Plan shall be ceded free of cost to the Crown at the time of subdivision of the land within this zone.
- (xii) Prior to the final approval of a plan or diagram of survey, the subdivider shall undertake to the satisfaction of the Department of Environmental Protection a site investigation of building envelopes shown on the Development Guide Plan which have previously been used for market gardening purposes to determine the presence or otherwise of contamination through past use of fertiliser, pesticides, or herbicides. Should such contamination be determined as present, the subdivider shall undertake such actions as deemed necessary by the Department of Environmental Protection to achieve an acceptable building envelope.
- (xiii) Proposed Lot Nos 19 and 20 shown on the Development Guide Plan are to be the subject of Service Agreements between the owners of those lots and the Water Corporation, ensuring that the owners of those lots are aware that these lots will not receive a normal standard of water supply from the Water Corporation's reticulated supply due to the height of these lots, and the difficulty this presents for normal gravity supply."
