MINING ACT 1978
CRITERIA FOR ASSESSING ROYALTY RELIEF UNDER THE MINING ACT
DEPARTMENT OF MINERAL AND PETROLEUM RESOURCES

General

1. Relief is to be provided on a project by project and not an industry basis. Each application will be examined on its merits.
2. The applicant will need to demonstrate long term viability and cash flow problems through full financial disclosure.
3. Relief will only be recommended if the project is able to demonstrate cash flow problems, which are beyond the control of management. Cash flows will be negative and of such importance that they could lead to closure of the project. The cash flow analysis will include operating cost cash flows and maintenance but capital expenditures for additions, expansion and new development will be excluded.
4. A project that has a negative cash flow may receive royalty relief but will be required to pay back to Government the net assistance received when the project moves back into a positive and sustainable operating cash flow position.
5. Relief will be granted on the basis of a portion only, as specified by the Minister in his determination, of the royalty base. Royalty exemptions will not be given unless there are exceptional circumstances.
6. Relief recommended would be short term in nature with regular reviews of the project's position. Such reviews would generally be performed every six months.

Gold Projects—From 1 July 1998 Until 30 June 2005

7. A gold royalty project will not need to demonstrate long term viability under Criterion 2, in order to be eligible for temporary royalty relief. Furthermore, the assessment of cash flow difficulties for gold projects will, in addition to the matters set out in Criterion 3, take into account replacement capital expenditures essential to the project.
8. Notwithstanding any of the above, if a gold royalty project can demonstrate to the satisfaction of the Minister that continued payment of a gold royalty alone would force the project to close, temporary royalty relief shall be granted.
9. Where a gold royalty project that has received temporary royalty relief closes permanently without fully repaying that royalty relief, the Government will not claim the remaining royalty liability following the closure.
