14. An infringement notice in respect of an offence prescribed in this Local Law may be given under Section 9.16 of the Act and shall be in or to the effect of Form 1 of the Schedule provided that no error or misdescription will invalidate the notice if its meaning is otherwise clear.

- (1) Name of owner or occupier.
- (2) Address of owner or occupier.

(3) Date when offence committed. If the offence relates to a failure to take remedial action within the time specified, a notice will be sufficient if the final time for compliance is specified.

NOTE

The Commonwealth/State/Territory jurisdictional boundary in coastal waters is determined by the Australian Maritime Boundaries Information System Dataset of 2000, released in January 2001 by the Australian Surveying and Land Information Group (now Geoscience Australia National Mapping Division).

However this is modified by section 5AAA of the Petroleum (Submerged Lands) Act 1967, which provides that, where a change to the baseline of Australia's territorial sea would impact on the boundary of an existing petroleum title (in Commonwealth or State or Territory waters), there is in fact no such impact. The Commonwealth, State or Territory Act (as the case may be) under which the title has been granted, continues to apply to the title and the whole title area for as long as the title remains in force. Therefore, this Instrument does not apply to any such area that is already under title.

APPLICATION DETAILS

Permit applications shall specify a work program (e.g. minimum number of wells to be drilled, kilometres of seismic, geophysical, geochemical surveys etc.) to be carried out and estimated expenditures for each of six years. Wells referred to in the work program should not include development wells.

Applicants should also make themselves aware of the existence of any areas, which have the potential to restrict exploration activities eg, National Parks, Nature Reserves, Marine Parks, World Heritage Areas and Conservation Reserves.

Insofar as Reserved Land is concerned, entry for exploration purposes is subject to approval by the Minister. In this regard, it should be noted that Government policy, at least, is such that petroleum extraction from within National Parks and Nature Reserves should not be presumed.

Any applications over the above onshore areas may be subject to the provisions of the Commonwealth Native Title Act 1993 and applicants should be prepared to negotiate with Native Title parties pursuant to the right to negotiate provisions of the NTA. It should, however, be noted that the right to negotiate does not apply offshore.

Applicants should also be aware that all the areas available for application are subject (at least in part) to Native Title claims. Plans showing these claim boundaries are available from the Department of Mineral and Petroleum Resources.

An information package on the release areas detailing the criteria for assessment of applications and the conditions to apply following the award of a permit, and including a plan of the release areas and an application proforma, is available on CD-ROM. Copies of the CD-ROM can be obtained from the Petroleum Division, Department of Mineral and Petroleum Resources by contacting Kerrie Heier on (08) 9222 3186.

Applications are to be made in accordance with Section 31 of the Petroleum Act 1967 and Section 21 of the Petroleum (Submerged Lands) Act 1982 as appropriate. Consideration of an application for the grant of a Permit shall take into account work programs relative to the whole of the area applied for, the adequacy of the work program and the applicant's technical and financial ability to undertake the work. Permits are awarded on the understanding that the first two years work commitment will be fulfilled without variation.

Where there is more than one applicant to the application, the percentage participating interests of each party to the application is to be supplied including evidence that a satisfactory settlement has been, or can be, reached on a Joint Operating Agreement (a copy of a Heads of Agreement dealing will generally suffice).

LODGEMENT OF APPLICATIONS

Applications must be lodged by 4:00 PM Thursday 24 April 2003. Applications, together with supporting data, should be submitted to—
