#### APPLICATION DETAILS

Permit applications shall specify a work program (e.g. minimum number of wells to be drilled, kilometres of seismic, geophysical, geochemical surveys etc.) to be carried out and estimated expenditures for each of six years. Wells referred to in the work program should not include development wells.

Applicants should also make themselves aware of the existence of any areas, which have the potential to restrict exploration activities eg, National Parks, Nature Reserves, Marine Parks, World Heritage Areas and Conservation Reserves.

Insofar as Reserved Land is concerned, entry for exploration purposes is subject to approval by the Minister. In this regard, it should be noted that Government policy provides that no petroleum exploration or extraction may take place in national parks and nature reserves in respect of new petroleum titles granted after February 2001.

Any applications over the above onshore areas will be subject to the provisions of the Commonwealth Native Title Act 1993 (NTA) and applicants should be prepared to negotiate with Native Title parties pursuant to the right to negotiate provisions of the NTA.

Applicants should also be aware that all the areas available for application are subject (at least in part) to Native Title claims. Plans showing these claim boundaries are available from the Department of Industry and Resources.

An information package on the release areas detailing the criteria for assessment of applications and the conditions to apply following the award of a permit, and including a plan of the release areas and an application proforma, is available on CD-ROM. Copies of the CD-ROM can be obtained from the Petroleum and Royalties Division, Department of Industry and Resources by contacting the Senior Titles Officer (Releases) on (08) 9222 3140. Applicants are urged to avail themselves of this information.

Applications are to be made in accordance with Section 31 of the Petroleum Act 1967 as appropriate. Consideration of an application for the grant of a Permit shall take into account work programs relative to the whole of the area applied for, the adequacy of the work program and the applicant's technical and financial ability to undertake the work. Permits are awarded on the understanding that the first two years work commitment will be fulfilled without variation.

Where there is more than one applicant to the application, the percentage participating interests of each party to the application is to be supplied including evidence that a satisfactory settlement has been, or can be, reached on a Joint Operating Agreement (a copy of a Heads of Agreement dealing will generally suffice).

#### **LODGEMENT OF APPLICATIONS**

Applications must be lodged by 4.00pm on Thursday, 16 March 2006. Applications, together with supporting data, should be submitted to—

Director Petroleum and Royalties Division  
Department of Industry and Resources  
Level 11, Mineral House
