Lot 252 Peppermint
Grove Road,
Peppermint Grove
Beach.
Precinct No. 4

Subdivision and Development Guide Plan

1. Subdivision and development shall be generally in accordance with the endorsed Subdivision and Development Guide Plan 04290P-11 Dated August 2006 attached to the Scheme Amendment report (Amendment No. 26).
2. Modification/s to the endorsed Subdivision and Development Guide Plan may be considered and approved by Council where it can be demonstrated that regard has been given to the intent of the Subdivision Design and Planning Criteria requirements.

Subdivision Design and Planning Criteria

3. Subdivision design is to give regard to the following requirements to the satisfaction of Council—
 - (a) The access point location for any internal subdivision road shall be restricted to the northeastern corner of the lot at Hayfield Drive as shown on the endorsed Subdivision and Development Guide Plan due to limited opportunities for safe access points on other section of road frontage.
 - (b) Vehicle access onto Peppermint Grove Road and Hayfield Drive from individual lots shall be avoided other than in accordance with the endorsed Subdivision and Development Guide Plan due to limited opportunities for safe access points.
 - (c) Lots shall generally avoid encroaching onto the vegetated slopes of Lot 252 as defined on the endorsed Subdivision and Development Guide Plan, due to concerns relating to dune stabilization and bush fire risk.
 - (d) The natural vegetated slope areas of Lot 252 as shown on the endorsed Subdivision and Development Guide Plan shall be incorporated into a reserve for recreation and flora protection with the intent of passive recreation use and providing for coastal area dune and vegetation protection. The land has limited development potential because of the fragile nature of the site; it possesses a fire management risk if developed and forms part of a significant landscape in the locality.
 - (e) The proposed recreation reserve shall have frontage to Peppermint Grove Road as shown on the endorsed Subdivision and Development Guide Plan, at which point reasonable contour gradient/slop shall be provided for pedestrian entry, reserve management and fire fighting access. The access alignment shall give regard to preservation of vegetation, reduced impact on the neighbouring lots 37 and 22 and provide a safe vehicle entry point onto and from Peppermint Grove Road.
 - (f) Fire fighting and reserve management vehicle access shall be provided to the perimeter of and within the proposed reserve for recreation as shown on the Subdivision and Development Guide Plan.
 - (g) Existing vegetation in the Peppermint Grove Road reserve shall be preserved where possible.
 - (h) Drainage outfalls should be directed to the existing Hayfield Drive drainage basin where onsite containment is not totally achievable.
 - (i) At the time of subdivision, consideration is to be given to the use of an onsite package treatment system for the disposal of effluent, for the lots contained within the Subdivision and Development Guide Plan, in preference to individual lot based on site effluent disposal systems.

Building and Lot Development Design Criteria

4. Owners of lots adjoining Peppermint Grove Road and Hayfield Drive are required to comply with the following requirements to the satisfaction of Council—
