“**transferee**” means a person who applies for the transfer of a licence to her or him under clause 4.14.

Where an application for a licence is made in respect of premises on which an approved kennel establishment is either a—

- (a) permitted use; or

- (e) whether the approved kennel establishment will create a nuisance for the owners and occupiers of adjoining premises; and
- (f) whether or not the imposition of and compliance with appropriate conditions of a licence will mitigate any adverse effects of the approved kennel establishment identified in the preceding paragraphs.

#### 4.7 Where application cannot be approved

The local government cannot approve an application for a licence where—

- (a) an approved kennel establishment cannot be permitted by the local government on the premises under a town planning scheme; or
- (b) an applicant for a licence or another person who will have the charge of the dogs will not reside on the premises, or, in the opinion of the local government, sufficiently close to the premises so as to control the dogs and so as to ensure their health and welfare.

#### 4.8 Conditions of approval

(1) The local government may approve an application for a licence subject to the conditions contained in Schedule 2 and to such other conditions as the local government considers appropriate.

(2) In respect of a particular application for a licence, the local government may vary any of the conditions contained in Schedule 2.

A licensee who does not comply with the conditions of a licence commits an offence.

- (2) The local government is not to determine an application for the transfer of a valid licence until the transferee has complied with subclause (1).
- (3) The local government may approve, whether or not subject to such conditions as it considers appropriate, or refuse to approve an application for the transfer of a valid licence.
- (4) Where the local government approves an application for the transfer of a valid licence, then on the date of approval, unless otherwise specified in the notice issued under clause 4.15(b), the transferee becomes the licensee of the licence for the purposes of this local law.

#### BUSH FIRES ACT 1954

*Shire of Wyndham East Kimberley*

#### FIREBREAK ORDER AND BUSHFIRE INFORMATION 2008/2009

(This is a summary of the Order adopted by the Shire of Wyndham East Kimberley under Section 33 of the Bush Fires Act 1954).

In accordance with the provisions of this Order, landowners are required to carry out fire prevention work on land they own or occupy.

Details of work required to be completed are contained in this Order. Work must be completed by 1 June each year.

PERSONS WHO FAIL TO COMPLY WITH THE REQUIREMENTS OF THE ORDER MAY BE ISSUED WITH AN INFRINGEMENT NOTICE (PENALTY \$250) OR PROSECUTED WITH AN INCREASED PENALTY UP TO (\$1000). IN ADDITION, THE SHIRE MAY CARRY OUT THE REQUIRED WORK AT COST TO THE OWNER OR OCCUPIER OF THE LAND.

There may be instances where it is considered to be impractical to clear firebreaks or remove flammable materials as required by this Order, due to—

- The aggravation of soil erosion;
- The identification of a more effective system of fire prevention; or
- Firebreaks being rendered unnecessary by natural features existing on the land.

In this instance, application may be made to Council not later than 1 April for permission to provide firebreaks in alternative positions or to take alternative action to reduce fire hazards on the land.

***If Council permission is not forthcoming, then you will be required to comply with the provisions of this Order.***

Firebreaks are used primarily to gain access to and provide an area to work from when controlling a fire. They will not stop all fires, and removal of unnecessary flammable material prior to the fire season is your best safeguard against fire threat.

If the requirements of this Order are fulfilled by burning off, then the burning must be carried out in accordance with the relevant provisions of the Bush Fires Act 1954.

#### 1. Ord River Irrigation Project Area

Firebreaks for all land within the Ord Irrigation Area must be—

- Not less than three (3) metres wide inside and along and as close as possible to external boundaries; and
- Not less than six (6) metres wide and within three (3) metres of the perimeter of all buildings and/or haystacks and groups of buildings.

NOTE: This requirement need not be met if the property is being worked, and provided the irrigation channels are in use.

## 2. Pastoral Lands

Firebreaks are required to be a distance of not less than six (6) metres wide and within three (3) metres of buildings and/or haystacks or groups of buildings.

## 3. Townsite Land

Where the area is 2 000m<sup>2</sup> or less, all inflammable material (with the exception of standing live trees) shall be removed from the whole of the land by clearing or slashing.

Where the area of the land is greater than 2 000m<sup>2</sup>, a firebreak of not less than six (6) metres in width immediately surrounding any buildings, or not less than three (3) metres in width inside and along the whole of the external boundaries of the land is required.

## 4. Rural Lands

Land outside townsites which is not under a pastoral lease requires firebreaks of—

- Not less than four (4) metres wide inside, along and within ten (10) metres of external boundaries; or
- Not less than six (6) metres wide and within three (3) metres of the perimeter of all buildings and/or haystacks or groups of buildings.

## 5. Rubbish Sites

All rubbish sites for pastoral stations and communities require firebreaks not less than three (3) metres wide and within three (3) metres of the perimeter of the rubbish site.

## 6. Fuel Dumps and Depots

Flammable material must be removed from all land where fuel drum ramps or dumps are located and where fuel drums (whether containing fuel or not) are stored, to a distance of at least fifteen (15) metres outside the perimeter of any drum, ramp or stack of drums.

The acts referred to in paragraphs 1 to 6 herein must be performed to the satisfaction of the duly authorised person appointed by the Shire of Wyndham East Kimberley.

If it is impractical for any reason to clear firebreaks or to remove flammable material from the land as required by this Order, you may apply to Council or its duly authorised officer by not later than 1 April for permission to provide firebreaks in alternative positions, or to take alternative positions or to take alternative action to abate fire hazards on the land.

### RESTRICTED BURNING PERIOD

#### 1 April to 1 January Each Year

The Restricted Burning Period now includes Kununurra and Wyndham Townsites, the Ord Irrigation Area and pastoral areas.

#### Permits to Burn

1. Permits to burn are required for the whole of the Restricted Period, and must be obtained from one of the Fire Control Officers identified for your area (see overleaf).
2. Any special conditions imposed by the Fire Control Officer when issuing permits must be strictly adhered to.
3. The permit holder shall give notice of his intention to burn to—
  - a. The Shire's Kununurra Administration Centre by no later than 24 hours prior to the day when the burning is to take place. Weekend burning must be notified by 4.00pm, Friday.
  - b. The owner or occupier of adjoining land.
  - c. The nearest Department of Environment and Conservation (DEC) office if the land is situated within three (3) kilometres of State Forest land, National Park, Nature Reserve or other DEC lands.
4. The period of notice to neighbours prior to burning cannot be more than twenty eight (28) days or less than four (4) days, although lesser notice may be determined by mutual agreement of all neighbours.
5. Your attention is drawn to Items 5, 6 and 7 as listed on the back of the permit.
6. Burning under permit is permitted during the Restricted Burning Period on Sundays and Public Holidays.
7. All landowners and occupiers who suffer a bush fire have an obligation to assist each Area Fire Control Officer to compile a Fire Report Form.
8. Garden refuse (excluding GREEN clippings) burnt on the ground may be lit only between 6.00pm and 11.00pm, and must be completely extinguished with water or earth by midnight. All flammable matter is to be cleared within five (5) metres of all points of the site of the fire, and a person must be in attendance during the whole time the fire is lit.
9. Any incinerator used to burn rubbish must be properly constructed—an open drum (with or without a lid) is not an appropriate incinerator.
10. With reference to Item 8 and 9 of this summary, burning may not take place if the Fire Weather Warning for the day is "Very High", or "Extreme".

PETER STUBBS, Chief Executive Officer.

## CLAIMS FOR MISSING SUBSCRIPTION ITEMS

## **WANTED!!!**

### **Old copies of the *Government Gazette***

State Law Publisher is in the process of scanning all *Government Gazettes* (back to the first one ever published in the 1840's) with the intention of adding the archived copies to our existing on-line service.

We are looking for **donations** of any copies (**pre 1970**) that are no longer required by clients and would be appreciative of any assistance you can offer in this undertaking.

The scanning process requires single pages, therefore we need to trim the spine off each gazette, which unfortunately ruins the gazettes for future use.

Our preference is for unwanted copies, however, if a client requires their gazettes returned, State Law Publisher will reprint and replace individual editions. If a bound copy is supplied and is to be returned we will reprint all gazettes and arrange to have them rebound for the client.

The benefits of having all the gazettes and indices on-line and searchable will be enormous. This service should remove the need for clients to retain hard copies and will free up valuable storage space.

Barring any unforeseen delays, it should take around a month to scan each year and then release on our website.

---

Please contact John Thompson on 9426 0010 if you can assist by supplying editions of the *Government Gazette*. For large quantities we will arrange for them to be collected.
