In accordance with Section 33 of the *Bush Fires Act 1954*, you are required to carry out fire prevention work on land owned or occupied by you as set out in this Order by the date specified.

Hay Stack means a collection of hay including fodder rolls placed or stacked together.

Managed Land means land over 4 hectares that is being *actively* used for agriculture, viticulture, horticulture etc and that such use is clearly evident, but excludes plantations.

There must be active fuel reduction done on the property throughout the period of this notice, by means such as grazing by an appropriate number of livestock, slashing and baling etc.

All buildings must have an access track not less than 4 metres in width and vertical clearance of 3 metres to allow access by fire appliances.

Around all buildings, haystacks and fuel storage areas, slash and remove all flammable materials likely to create a fire hazard, except living trees and shrubbery for at least 20 metres around the building, haystack and fuel storage area. Height of grass not to exceed 100mm.
