#### 4.17 STRUCTURE PLANS:

4.17.1 The local government or the Western Australian Planning Commission may require the preparation of a structure plan prior to considering a subdivision or development proposal for any area or zone in the scheme.

4.17.2 Subdivision and development should generally be in accordance with an approved structure plan.

4.17.3 A departure from, or alteration to, a structure plan may be permitted if the local government and Western Australian Planning Commission considers the proposed departure or alteration to be minor in nature and it will not prejudice the future subdivision and development of the area.

##### 4.17.4 **Structure plan form and content**

4.17.4.1 A Structure Plan is to contain such detail as, in the opinion of the local government and Western Australian Planning Commission, is required to satisfy the planning requirements for the structure plan area, and should include the following details—

- (b) maps are to be of a legible scale for the structure plan area;

- (h) proposed major land uses, in particular, residential areas, public open space, school sites, civic and community uses, commercial uses (including the location and hierarchy of commercial centres), mixed use, industrial and mixed business uses;

- (n) such other information as may be required by the local government as a result of the site's characteristics.

#### 4.17.5 Advertising and adoption of structure plans

- 4.17.5.1 Upon receiving a structure plan, the local government is to either—
- (a) determine that the structure plan is satisfactory for advertising;
  - (b) determine that the structure plan is not to be advertised until further details have been provided or modifications undertaken; or
  - (c) determine that the structure plan is not satisfactory for advertising and give reasons for this to the proponent.

- 4.17.5.3 The local government shall advise affected landowners and relevant agencies in writing that the structure plan is available for public advertising.

- 4.17.5.7 The Western Australian Planning Commission shall then either approve the structure plan, approve the structure plan with modifications or refuse the structure plan.

#### 4.17.6 Operation of Structure Plan

- 4.17.6.1 A structure plan commences operation when it is adopted by the local government and approved by the Western Australian Planning Commission.

- 4.17.6.2 If a structure plan imposes a classification on the land included in it by reference to reserves, zones, or Residential Design Codes then—
- (a) the provisions of the structure plan apply to the land as if its provisions were incorporated into the Scheme and it is binding and enforceable in the same way as corresponding provisions incorporated in the Scheme; and
  - (b) provisions in the Scheme applicable to land in those classifications under the Scheme apply to the structure plan;
  - (c) where there is conflict between the provisions of a zone, reserve or provision in a structure plan or a scheme, the scheme shall prevail.
- 4.17.6.3 If the zones and reserves in a structure plan are inconsistent with the scheme, they must be incorporated into the scheme via an amendment or a scheme review.
- 4.17.7 Right of Review
- 4.17.7.1 The proponent of a structure plan required by this Scheme may make application for review under Part 14 of the *Planning and Development Act 2005* on the following grounds—
- (a) The failure of the local government to make a determination on the content and requirement of a structure plan (or an amendment to a structure plan) within 120 days of the structure plan being lodged;
  - (b) A decision by the local government not to endorse a structure plan (or an amendment to a structure plan); and
  - (c) Conditions of approval of the structure plan (or an amendment to a structure plan).
- 4.17.8 In considering other procedural matters involved with structure plans, the local government and proponent will be guided by policies of the Western Australian Planning Commission.
