- Chalet Park
- Bed & Breakfast Accommodation
- Marina shall be classified as a discretionary 'AA' use subject to all required environmental approvals being granted

1.4 The proponent shall prepare a Detailed Area Plan (DAP) for lots with an area less than 350 square metres and for any additional lots as identified in the Development Principles notes on the ODP. The DAPs shall be generally processed in accordance with the procedures outlined in Clause 6.14.2.15 of the Scheme.

1.5 Council may waive the requirement to advertise a Detailed Area Plan pursuant to Clause 6.14.2.15.3 where the land subject of the Detailed Area Plan is in single ownership and the adjoining land is in the same ownership.

1.6 An ODP may to the extent that it does not conflict with a scheme impose a classification on the land included in it by reference to reserves, zones or the Residential Design Codes and the Local Government is to have due regard to such reserves, zones or Residential Design Codes when recommending subdivision or approving development of land within the ODP area.

Subdivision plans approved by the Commission which identify residential codings consistent with the principles outlined on the ODP shall be deemed to be an approved modification to the ODP.

1.7 The Shire of Murray shall maintain an up to date plan identifying R - Codings within the ODP area.

1.8 The ODP shall incorporate the density targets of—

15 dwelling units per site hectare; and

Relevant information is to be provided with subdivision applications to demonstrate that the density targets have been addressed.

1.9 Landowners within the Point Grey ODP area are required to have made arrangements to the satisfaction of the Shire of Murray that provides for identification and equitable sharing of infrastructure costs between landowners for the provision of the necessary urban services to the site.

1.10 Prior to final subdivision approval (issue of clearances) for the first stage of any marina precinct as shown on the ODP, a legal agreement shall be prepared to the satisfaction of the Shire of Murray to address the long term funding arrangements by the proponent for the ongoing maintenance and asset replacement within any marina precinct, including the maintenance of any marina entrance channel or navigation channel should environmental approval for any marina be granted.

The implementation of the recommendations of the approved Strategy and subsequent revisions shall be to the satisfaction of the Shire of Murray.

1.14 Prior to the commencement of subdivision works the proponent is to confirm with Main Roads WA the extent of any funding contributions, upgrading requirements and timing of works if applicable for the Greenlands Road and Forrest Highway Interchange.

1.15 The implementation of the approved ODP will be facilitated though the development and subdivision approvals process which under the provisions of TPS 4 will be required to generally conform with the ODP. Future applications will be required to demonstrate compliance with the key principles and performance criteria as listed on the ODP.

1.15.1 Community Design Principles

- The ODP is intended as a guide for future urban development with the objective of generally identifying appropriate locations for housing types and densities whilst permitting flexibility to ensure the delivery of a diverse range of lot sizes throughout all transects;
- The urban framework should facilitate sustainable urban and environmental outcomes to ensure social sustainability and improved diversity, equity and choice of housing;
- The neighbourhood structure should be sufficiently robust to facilitate diversity of land use (mix use development) which is flexible and adaptable to change.

1.15.2 Movement Network Principles

- The street network should be highly interconnected, legible and provide a structure that facilitates the requirements of all users;
- The street network should also facilitate view corridors to maximize vistas from the project area;
- The street network to be designed to reflect the principles of Liveable Neighbourhoods.

1.15.3 Activity Centre Principles

The Marina Village precinct is the identified activity centre and is envisaged to be a highly functional mixed use precinct comprising transit facilities, local retailing, tourist support facilities and mixed use development (including residential), in a high quality public domain;

The Marina Village precinct will be subject to the preparation of an Activity Centre Plan to determine design content including allocation of uses, final design layout, retail floor space and general development standards;

The final configuration and size of any marina is subject to the environmental assessment outcome under Section 38 of the Environmental Protection Act. In the event that a marina is not granted environmental approval, the Marina Village Precinct shall be subject to a redesign to facilitate alternative 'water focused' development.

1.15.4 Housing Diversity (Lot Layout) Principles

1.15.5 Parkland Principles

Public Open Space to be provided as 10% of the residential development area and to be configured as a series of linear vegetation corridors.

A key principle for the location of public open space is to ensure the retention of significant areas of vegetation providing parkland linear corridors to facilitate pedestrian and cyclist movement.
