BUSH FIRES ACT 1954

Shire of Chittering

FIRE BREAK NOTICE

Notice to all Land Owners and Occupiers of Land

The Shire of Chittering hereby gives notice pursuant to section 33 of the *Bush Fires Act 1954* to all land owners and occupiers of land in its Shire, to, on or before 16 October, annually establish firebreaks on all land and properties, not less than three (3) metres wide and four (4) metres vertical height around the inside of property, clear of all flammable materials and thereafter maintain such firebreaks clear of all flammable materials until 31 May of the following year, unless specified otherwise in this Notice.

Rural Residential and Shire Town sites with land equal to or less than 2.2 hectares—Do not require fire breaks but are required to follow General Fire Hazard Reduction.

All properties, including Rural Residential and Shire Town sites with land greater than 2.2 hectares—Must clear a firebreak of all flammable materials three (3) metres wide, with a four (4) metre vertical clearance along the inside of the boundary to the property.

Land greater than 120 hectares—Land with an area of 120 hectares or more must have a firebreak in such a position which divides the land into areas not exceeding 120 hectares.

Fire Management Plans—Where Fire Management Plans have been implemented as part of a subdivision, property owners must ensure their property meets the requirements as outlined in the Fire Management Plan. Property owners should seek clarification from the Shire of Chittering if they are unsure in regards to their responsibilities and the requirements contained within their Fire Management Plan and this Firebreak Notice.

Buildings, haystacks and fuel storage—Clear a firebreak, not less than three (3) metres wide with a four (4) metre vertical clearance completely surrounding and not more than twenty (20) metres from the perimeter of all buildings, haystacks and fuel storage areas within the property.

General Fire Hazard Reduction—All property owners are required to reduce fire hazards on their property prior to the summer season by maintaining grassed areas as far as reasonably practicable, to 50mm in height over the entire area, by slashing or the application of stock. It is recommended that property owners program their hazard reduction in conjunction with the clearing and maintenance of firebreaks. Hazard Reduction Orders will be issued where landowners have failed to reduce fire hazards.

Alternative Firebreaks—If it is impractical for you to clear a firebreak along your boundary you can request permission from the Shire to install a firebreak in an alternative location or of a different nature. All requests must be in writing to the Shire and received by 1 October.

Harvesting operations (including stubble processing)—Council will permit harvesting operations including stubble processing during the Restricted and Prohibited period on the following conditions—

- (a) That a fully operational fire fighting unit (inclusive of associated pump, hose system and a minimum of 600 litres of water) is present at all times.
- (b) Harvesting operations and stubble processing are not permitted when Council has declared a Harvest and Vehicle Movement Ban including Hot Works Activities.

Harvesting operations (including stubble processing) on Sunday and Public Holidays, excepting Christmas, Boxing Day and New Year's Day, will be permitted on the following conditions, in addition to the conditions above, with the proviso that—

- (a) The Local Fire Control Officer is notified.
- (b) Two (2) able-bodied adult persons are present during the harvesting operations, only one (1) of whom may be harvesting.

Restricted and Prohibited Burning Periods—Burning is prohibited from 1 December to 31 March. Permits are required from 19 October to 30 November and 1 April to 31 May.

Control of operations likely to cause a fire—Property owners should take care to prevent bush fires. The operation of welding equipment and angle grinders are activities likely to create a fire danger when used in the open air. A person shall provide at least one fire extinguisher at the place where welding or cutting operations are carried out and surround this place with a firebreak which is at least five (5) metres wide.

THE FOLLOWING RESTRICTIONS APPLY THROUGHOUT RESTRICTED AND PROHIBITED PERIODS

- No burning on Sundays and Public Holidays
- No burning of garden refuse
- No lighting of camp fires or solid fuel BBQs in the open air in the Shire of Chittering
- Burning of road side verges is prohibited without written approval from the Shire of Chittering or other authorities.

FIREBREAKS MUST BE CLEARED BY—16 October and remain cleared until 31 May

BURNING IS PROHIBITED between—1 December to 31 March

BURNING PERMITS ARE REQUIRED BETWEEN—19 October to 30 November and 1 April to 31 May

Trees must be trimmed back to provide a vertical clearance of a minimum three and a half metres (3.5m) to allow fire appliances to drive along the firebreak.

Construct a three metre (3m) firebreak immediately surrounding all buildings and fuel storage areas.

Areas cleared for burning require a twenty metre (20m) firebreak.

ALL OTHER NON URBAN LAND

On heavily vegetated or grassed blocks, implement supplementary fuel reduction for a further five metres (5m) inside the firebreak.

For your own protection, landowners are encouraged to install additional firebreaks around all buildings where practical.

ALTERNATIVE ALIGNMENTS

If it is impractical to have a firebreak immediately inside a boundary, for environmental or any other reason(s), you are required to notify the Shire of Gingin in writing, before 1 October, to obtain permission for firebreaks to be installed in an alternative position. Once approval is granted, there is no need to re-apply each year, unless circumstances change.

PLANTATIONSTree Plantations of more than three hectares (3ha), but less than ten hectares (10ha)

Construct a ten metre (10m) wide firebreak, clear of all flammable material, immediately surrounding the plantation (Adjacent areas of the same property subject to provisions as for Rural Areas).
