3. Tow in surfing activities must not impede the safe passage or navigation of any other craft and must give right of way to all other aquatic activities.

The Guideline Rates—

- Are based on standard, tray-top vehicles.
- Are based on fuel consumption data released by Australian Trucking Association, June 2010.
- Do not set a minimum or maximum rate.
- Provide general guidance and a starting point for rates negotiations.
- Metropolitan rates might also be applicable for some operations in regional areas.
- Table A rates are based on new vehicles; Table B rates are based on vehicles 5 years or older.
- Owner-drivers and hirers need to consider their individual circumstances in deciding a rate that is appropriate for a particular freight task. The *Owner-Drivers Cost Calculator* (available, free, from Dept of Transport) can assist with cost and rate calculations.
- “Prime mover + 1, 2 or 3 trailers” refers to trailers owned or leased by the owner-driver.
- 2 axles => single steer, single drive; 3 axles => single steer, bogie drive.
