PLANNING AND DEVELOPMENT ACT 2005
AMENDMENT 032/57 TO THE PEEL REGION SCHEME
(MINOR AMENDMENT)

Lot 137 Pinjarra Road, Furnissdale
Call for Public Submissions

The Western Australian Planning Commission proposes to amend the Peel Region Scheme and is seeking public comment.

The purpose of the amendment is to transfer about 3 hectares of land from the Rural zone to the Urban zone in the Peel Region Scheme, about 1 hectare of the site is already zoned Urban.

The Western Australian Planning Commission (WAPC) hereby certifies that, in its opinion, the amendment does not constitute a substantial alteration to the Peel Region Scheme.

The plan showing the proposed amendment and the WAPC amendment report (which explains the proposal) will be available for public inspection from 10 July 2012 to 14 September 2012 at the following locations—

- the offices of the Western Australian Planning Commission (140 William Street, Perth);
- the Department of Planning's Peel region office (11-13 Pinjarra Road, Mandurah);
- the Shire of Murray's municipal offices (1915 Pinjarra Road, Pinjarra); and
- the J. S. Battye Library (Level 3 Alexander Library Building, Perth Cultural Centre).

Documents are also available from the PlanningWA website: www.planning.wa.gov.au.

Any person who wishes to make a submission either supporting, objecting or providing comment on any provision of the proposed amendment should do so on a submission form (Form 57). These submission forms are available from the display locations, the *amendment report* and the internet.

Submissions must be lodged with The Secretary, Western Australian Planning Commission, Unit 2B, 11-13 Pinjarra Road, Mandurah WA 6210 on, or before 5.00pm **14 September 2012**.

Late submissions will not be considered.

2. The Structure Plan shall identify Local Scheme Reserves for the purpose of Conservation as delineated in Figure 1.
3. The Local Scheme Reserves for Conservation shown in the Structure Plan may be increased but not decreased from that shown in Figure 1.
4. Prior to the first subdivision approval, the developer shall prepare a Rehabilitation Plan for the Conservation Reserves shown in the approved Structure Plan to the satisfaction of the Shire of Harvey, with advice from the Department of Environment and Conservation.
5. The subdivider shall implement the Rehabilitation Plan, to achieve a minimum rehabilitation criteria defined in the Rehabilitation Plan.
6. The Structure Plan shall identify a minimum of 24.3 hectares as 'Residential—Bushland Conservation' area.
7. The Structure Plan will provide for a form of subdivision and development that balances the retention of the site's key topographical features with the principles of Liveable Neighbourhoods.
8. The Structure Plan will identify areas for which an Area Specific Plan is required to be prepared as a condition of approval of the relevant stage of subdivision, in order to facilitate the development of environmentally sustainable built form that has regard to the character of the area, incorporates solar passive design principles and that promotes the retention of key topographical features.
9. The Structure Plan design will designate a minimum of 20% of the total site area for inclusion in Regional Open Space (ROS) and Public Open Space (POS) respectively. The ROS will comprise the ROS zone depicted in the Greater Bunbury Region Scheme which adjoins the existing foreshore reserve. The POS will comprise a corridor generally aligned north-south for the purposes of establishing an ecological linkage. Implementation of this commitment will be assessed by the Shire of Harvey and the WAPC at subdivision.
10. Prior to final approval of the Structure Plan, the developer shall prepare a Sustainability Report that addresses ecosystem health, waste, energy, water and community issues to the satisfaction of the Shire of Harvey. The report may be in the form of an accredited rating system/tool for land development (such as

EnviroDevelopment or equivalent) and will detail agreed targets and method of delivery for each of the above indicators. Specific elements to be considered will include—

- Preservation and management of natural flora, fauna, habitats, landforms and ecological linkages;
 - Reducing greenhouse gas production from energy generation, consumption and transport;
 - Solar orientation of lots and solar access to buildings;
 - Minimising potable water demand (through rainwater storage, re-use of stormwater and wastewater and water efficiency within buildings and in landscapes);
 - Effective reuse/minimisation of waste streams through management of pre-, during- and post- construction surplus materials;
 - Designing for community, including designing out crime, housing diversity and provision of community facilities and amenities; and
 - Empowerment of the local community through active involvement and engagement in the planning and design process.
11. Prior to final approval of the Structure Plan, an Environmental Management Plan (EMP) shall be prepared for the subject site. The EMP will be prepared to the satisfaction of the responsible authority. The EMP will include—
- Delineation of management plan boundaries, detailing all management plans for the site and their respective management areas;
 - Description of existing environment and the environmental values of the Conservation Reserve;
 - Description of proposed land ownership and long term management arrangements;
 - Description of the management actions proposed for construction phase, preconstruction, during construction and post construction to ensure environmental values are protected;
 - Description of management recommendations for the Conservation Reserves such as: fencing, access, signage, fauna management, fire management, and weed control;
 - Description of revegetation program to rehabilitate areas within the Conservation Reserves, including revegetation species, planting regime, monitoring requirements, success criteria and reporting requirements;
 - Description of the mosquito characteristics of the site and identification of how project design will minimise creation of mosquito breeding areas and how the site will be integrated into the Shire of Harvey mosquito management program; and
 - Description of an implementation schedule detailing, timing, responsibilities, funding arrangements, for recommended management actions.
12. Prior to final approval of the Structure Plan, the developer is to prepare a Local Water Management Strategy (LWMS) for the subject site to the specifications and satisfaction of the Department of Water with advice from the Shire of Harvey. The LWMS shall include but not be limited to the following—
- Description of existing site characteristics such as geology, hydrogeology, groundwater characteristics, groundwater quality and water dependant ecosystems;
 - Identification of the principles and objectives for water cycle management, water sensitive urban design, water conservation and groundwater management;
 - A derivation of agreed water quality targets for urban stormwater and drainage treatment system(s) and onsite groundwater;
 - Identification of a target proportion of domestic water supply that can be practically supplied through rainwater harvesting and rainwater tanks. Description of the rainwater tanks size requirements needed to integrate them into the dwelling water supply system;
 - Identification of the range of water efficient fixtures which could be incorporated into the future dwellings and the potential water savings associated with each;
 - Identification of potential grey water re-use treatment and infrastructure requirements and reuse water supply options. Identification of the approvals that would be required if these systems were to prove viable;
 - Detailed pre and post development total water balance;
 - Description of the proposed stormwater management infrastructure including incorporation of Water Sensitive Urban Design principles;
 - Identification of issues to be addressed through subdivision and development; and;
 - Identification of responsibilities and timeframes for implementing the approved Local Water Management Strategy.

13. Prior to final approval of the Structure Plan, the developer is to prepare a Strategy in regard to the construction standard and timing of the proposed second access road to Old Coast Road to the satisfaction of Council and the Department of Fire and Emergency Services.
14. Prior to final approval of the Structure Plan, the developer is to prepare a Fire Management Plan for the whole of the estate to the specification and satisfaction of the Shire of Harvey, to sustainably manage the risk from bushfires to residents, property and the environment. The Fire Management Plan will include but not be limited to—
 - Hazard assessment;
 - Fire suppression response;
 - Subdivision and lot design;
 - Landscape and Vegetation management;
 - House design and construction;
 - Second Access to Old Coast Road;
 - Water Supply;
 - Siting of buildings; and
 - Annual maintenance.

The Fire Management Plan will be updated as required to address the subdivision stages and maintenance.

15. Prior to the first subdivision approval, the developer is to prepare a Community Infrastructure Needs Plan for the subject site, addressing both hard infrastructure (such as built facilities and pro rata contributions) and soft infrastructure (the social fabric of the community), to the satisfaction of the Shire of Harvey, with advice from relevant agencies including the Department of Education and Training.
16. Prior to approval of the first subdivision plan for stages adjacent to the ROS, the developer is to prepare a Foreshore and ROS Management Plan for the foreshore reserve and interface between the Residential Development in that stage and the foreshore, to be approved to the specification and satisfaction of the Shire of Harvey, in accordance with advice from the Department of Environment and Conservation. The Foreshore and ROS Management Plan will include but not be limited to—
 - Identification of landform and vegetation management measures required for protection of the foreshore reserve environmental values; and
 - Identification of coastal node locations, coastal access locations and public amenity requirements plus associated upgrading/maintenance needs.
17. Prior to subdivision approval for a stage of subdivision, the developer is to prepare an Urban Water Management Plan (UWMP) for the relevant subdivision stage to the specification and satisfaction of the Department of Water with advice from the Shire of Harvey. The UWMP will address implementation of the strategies agreed through the LWMS and include specific descriptions of the following—
 - Housing design guideline requirements needed to ensure the agreed water conservation and treatment systems are included within building designs;
 - Detailed stormwater management design including Best Management Practices and treatment trains;
 - Nutrient application and management requirements;
 - Detailed monitoring schedule;
 - Contingency measures to be implemented in the event that pollution and nutrient removal are not achieving agreed performance targets; and
 - Implementation plan including roles, responsibilities, funding and maintenance arrangements.
18. Prior to the reconfiguration of the existing nine (9) holes of the Lakewood Shores golf course, the developer is to prepare a Golf Course Management Plan to the specification and satisfaction of the Shire of Harvey in accordance with advice from the Department of Water. The Golf Course Management Plan will include but not be limited to—
 - Landform protection;
 - Vegetation management;
 - Weed control;
 - Water supply requirements and water source options; and
 - Nutrient and irrigation management.
19. Should any Actual or Potential Acid Sulfate Soil be identified within the subject site that have the potential to be disturbed through site works, the developer is to prepare an Acid Sulfate Soil Management Plan, prior to ground disturbing activities, to the specification and satisfaction of the Shire of Harvey with advice from the Department of Environment and Conservation.
