 2012/2013 FIREBREAK ORDER

It is hereby notified for public information that clause 5 of the Firebreak Order gazetted on 13 July 2012 in edition 124 on page 3227 is incorrect and is corrected as follows—

“5. PLANTATIONS

BY 1 NOVEMBER 2012 UNTIL 26 APRIL 2013

The first row of trees must be a minimum of 15 metres from all formed public roads.

A 10 metre firebreak to be constructed on the internal boundaries of the Plantation, along the boundaries of separate ownership, and all formed public roads.

A firebreak 6 metres wide shall be provided in such a position that no compartment of a plantation exceeds 30 hectares.

Where power lines pass through the plantation the clearing of vegetation must be in accordance with power supplier’s specifications.

Trees adjoining the firebreak progressively pruned to a minimum height of 4 metres to maintain an effective width of firebreak.”

Additionally council may carry out the required work at cost to the owner or occupier.

INTERPRETATIONS:

Firebreak: means a maintained strip of bare mineral earth with all flammable materials (living or dead) removed. Firebreaks **must** be constructed on your property, as firebreaks on road reserves do not constitute a legal firebreak.

Vacant Land: means any land that is non-grazed and without any buildings/dwellings or structures upon it.

Small Holdings: means lifestyle blocks normally under 6ha. Some of these properties carry out viticulture or horticultural pursuits in a small way.

General Farmland: means the land is either wholly or mainly maintained or used for carrying on a business or industry related to Primary Production, and is over 6ha in size.

Haystack: means any collection of hay including fodder rolls placed or stacked together that exceeds 100 cubic metres in size (e.g. 5m x 5m x 4m)

Restricted Burning Period: means when permits are required *before* burning commences and can only be obtained from the local Fire Control Officer.

Prohibited Burning Period: means *no* fires shall be lit during this period, in the open. A drum with or without a lid is not an appropriate incinerator.

Windbreaks: means a planted area a maximum 15m wide but with no defined length.

TOWNSITES AND INDUSTRIAL AREAS:

On or before the 30th November each year and maintained throughout the summer months until close of the Restricted Burning Period 2013, remove all flammable materials likely to create a fire hazard, other than live standing trees, must be removed from the whole of the land. All fuel **MUST** be slashed or grazed provided that the height of the fuel does not exceed 5cm.

Shire of Dardanup requires ALL persons living within townsites and/or industrial areas to notify any adjoining property owners/ residents of their intention to burn, 24 hours prior to commencement of burning to avoid discomfort and un-necessary emergency "000" calls to local volunteers.

SMALL HOLDINGS:

On or before the 30th November each year all small holdings must have a **2m wide** firebreak inside and along all external boundaries. Properties are required to ensure that fuel loads on properties are reduced by means of slashing the grass to a maximum height which does not exceed 5cm or alternatively ensuring that the property is grazed with livestock. The Firebreak Prevention Order is to be complied with and maintained until the close of the Restricted Burning Period 2013 to avoid legal action.

Firebreaks are to be constructed and maintained within a minimum of 20m of all buildings and haystacks or groups thereof. Width of firebreak to be minimum of 2m wide and 5m high. All fuel inside the 20m firebreak perimeter to be slashed or grazed provided that the height of the fuel does not exceed 5cm as a Shire requirement. (All flammable materials shall be removed from firebreaks).

GENERAL FARMING:

On or before the 30th November each year all properties zoned General Farming must have a **2m wide** firebreak inside and along the property boundary where it adjoins a road and/or rail reserve.

Where irrigation is being utilised, on those boundaries only, the 2m wide firebreak does not apply.

Firebreaks are to be constructed and maintained within a minimum of 20m of all buildings and haystacks or groups thereof.

Width of firebreak to be minimum of 2m and 5m high. All flammable material upon the property is to be slashed or grazed ensuring that the height of the fuel does not exceed 5cm.

PLANTATIONS:

There are specific and detailed requirements for areas of planted pines or eucalyptus species exceeding 3ha in area. Full details are included in the guidelines for Plantation Fire Protection and are available from the Shire Office or any Fire Control Officer. Firebreaks of 15m width must be maintained around the perimeter of plantations.

WHERE AND HOW TO OBTAIN PERMITS:

Fire permits are available from your local Bush Fire Control Officer at no cost. Request for Brigade Burning on private property and for Burning Permits, please refer to the list of Fire Control Officers provided in this leaflet for a contact telephone number.

Burning Permits are automatically invalidated on days of "severe", "extreme" or "catastrophic" fire danger.

The Chief Bush Fire Control Officer declares any variations in dates for the Restricted and Prohibited Burning Period and is the only authorised person who may permit a FESA approved Fire Brigade to conduct control burns or other fire duties during the Prohibited or Restricted Period.

The permit holder shall give notice of their intention to burn to—

1. The Shire Office (9724 0000) no less than 4 days (96 hours) prior to when the burning is to take place and no more than 28 days.
2. The owner or occupier of adjoining land or properties (neighbours).
3. Department of Environment and Conservation (Collie) if the land is located **within** 3km of State Forest (9735 1988).

FIREBREAK VARIATIONS:

If it is considered impractical for any reason to clear firebreaks or remove flammable materials from any land as required by this notice, you may make a written application and include a plan of your land detailing your fire prevention measures to Council or its duly Authorised Officer, no later than **September 1st each year**.

RESTRICTED BURNING PERIOD

Burning Permits Required: 2nd November 2012 to 14th December 2012.

PROHIBITED BURNING PERIOD

No fires permitted: 15th December 2012 to 14th March 2013.

Extensions to prohibited burning period may be in effect.

RESTRICTED BURNING PERIOD

Burning Permits Required: 5th March 2013 to 26th April 2013.

These dates are subject to variation relevant to weather and seasonal conditions, but any changes will be publicly advertised.

The prescribed Firebreak Variation Forms are available at both Shire Offices. Applications received after this date **may not** be considered for—

- i. Permission to provide firebreaks in alternative positions or take alternative action to abate fire hazards on the land; or
- ii. An exemption from the requirements to provide firebreaks, for either a twelve month or a five year period.

This application must be counter-signed by the Bush Fire Control Officer for the area in which the land is situated to signify his agreement to the variation. If permission is not granted by the Council or its duly Authorised Officer, you shall comply with the requirements of this Order.

It is recommended that when sprayed breaks are used, they should be sprayed by the end of August every year and again later if required, to obtain the desired results.

FIRE EMERGENCY

For all fire emergencies, please dial "000" in the first instance and give full details of the incident to the operator.

In addition, Shire of Dardanup Chief Bush Fire Control Officer Kingsley Palmer, please dial 0409 848 460.

Any enquiries regarding illegal fires should be reported to the Shire's Ranger Services during office hours on 9724 0000.

The Fire Control Officer for the area must be advised of any fire emergency. All property owners should acquaint themselves of the area in which they reside and record the phone numbers for fire emergency purposes. The contact numbers for Fire Control Officers are listed in this brochure.

People living in remote areas that do not receive mobile signals, are encouraged to install analogue phones which can be used during a power failure so that they can be alerted if there is a fire danger in the area.

GENERAL INFORMATION:

Firebreaks are to be maintained until the close of the Restricted Burning Period 2013.

Firebreaks **must not** be installed on the Road Reserve unless specific prior approval has been obtained from Council.

All Landholders must comply with their responsibilities specified with any Approved Fire Management Plans for the property or subdivision.

Once the Bushfire Brigade has extinguished a fire on private property, it is the property owner's responsibility to ensure that there is no reignition of the fire.

The burning of garden refuse is prohibited at all times during the ***Prohibited Burning Period***. This does not apply to garden refuse burnt in an approved incinerator, used in accordance with the Bush Fires Act 1954.

It is in the interest of all residents to be involved with the local Volunteer Bush Fire Brigade.

The required training and personal protective equipment is provided through the brigades at no cost.

BUSH FIRE CONTROL:

It is the responsibility of all property owners to extinguish any uncontrolled fire that may be burning on their property and it is therefore recommended that all rural property owners secure and maintain some convenient and effective type of fire-fighting equipment. Bush Fire Brigades and Fire Control Officers are as follows—

Burekup District (Deputy CFCO North)	Mr Clay Rose	0429 194 735 or 9726 3132
Dardanup Central (District)	Mr Peter Jas	0407 426 040 or 9728 1030

WESTERN AUSTRALIAN MARINE ACT 1982 EXEMPTION COMMERCIAL TENDER VESSELS

(WAMA-2012-00807)

I, David Harrod, General Manager Marine Safety, Department of Transport, delegate of the Chief Executive Officer, pursuant to section 115A of the *Western Australian Marine Act 1982* (Act), exempt commercial tender vessels in WA from compliance with Part II of the Act subject to the conditions set out below.

For the purposes of this exemption—

Commercial tender vessel is defined as a vessel used only for the carriage of persons, goods, supplies or catch between—

- one exclusively serviced commercial vessel at a mooring or safe anchorage (the parent vessel); and
- a shore, jetty or base from which that serviced commercial vessel may operate

Passenger has the same meaning it has in section 3(1) of the Act

Conditions

To be subject to this exemption the following conditions must be complied with—

1. Operating and Manning Requirements

Subject to 4 below, the commercial tender vessel must at all times operate—

- a. within the definition of *commercial tender vessel* provided above;
- b. within one (1) nautical mile of the parent vessel;
- c. with a master on board holding a minimum current qualification of a Coxswain (Restricted) or a certificate of proficiency issued under the *W.A. Marine (Certificates of Competency and Safety Manning) Regulations 1983* and known as a “Certificate of Proficiency in Small Craft Safety” in the case of a vessel that is not carrying passengers;
- d. with a master on board holding a minimum current qualification of a Coxswain Certificate of Competency in case of a vessel carrying passengers;
- e. in accordance with the parent vessel’s Safety Management System, if carrying passengers; and

2. Construction Requirements

To be subject to the exemption the commercial tender vessel must—

- a. be made available for inspection at the time of the periodic survey of the parent vessel;
- b. have a minimum length of 3.0 metres if carrying passengers;
- c. be fitted with a bow apron (foredeck) of convex shape at least 750 millimetres in length unless the vessel is fitted with additional bow buoyancy (eg. sponsons or collars);
- d. be marked with the words “Tender To” followed by the commercial parent vessel name that is specific to the commercial parent vessel. These letters are to be black, not less than 50 millimetres in height and 12 millimetres in width, with a white surround not less than 7 millimetres and are to be positioned and secured immediately forward of the transom on each side of the vessel; and
- e. if built prior to the introduction of the Australian Builders Plate (ABP) Standard in WA on 2 September 2006 the commercial tender vessel must—
 - i. carry no more than the maximum number of persons as determined in accordance with Australian Standard 1799.1 Small Pleasure Boat Code. This maximum number must be marked legibly and permanently in a conspicuous position on the interior of the commercial tender vessel in letters and numerals in a contrasting colour to the hull in figures not less than 75 millimetres in height;

- ii. meet the open waters and reserve buoyancy with level floatation and swamped stability and construction requirements of Australian Standard 1799.1, or the requirements of Australian Standard 2677—Inflatable boats in the case of inflatable and rigid inflatable vessels;
- iii. be fitted with buoyancy material in accordance with Australian Standard 1799.1, Appendix B for level floatation. Alternative methods of buoyancy may be considered by the Department for vessels of unique construction; and
- f. if built on or after 2 September 2006, must have an ABP and not carry more than the recommended maximum weight, persons and engine weight and power marked on that ABP.

3. Equipment Requirements

To be subject to this exemption the commercial tender vessel must comply with regulations 51D, 52A, 52B, 52BAA, 52BAB, 52C, and 52G of the *Navigable Waters Regulations 1958* (Regulations). A grapnel anchor is not acceptable for the purposes of regulation 52C.

4. Recreational Use

A commercial tender vessel may be operated in a recreational capacity pursuant to this exemption, whilst it is not being used in the course of any business or in connection with any commercial transaction, provided—

- a. the vessel complies with section 2 and 3 above;
- b. the vessel operates within two (2) nautical miles of the parent vessel at all times;
- c. the master of vessel complies with the Recreational Skipper's Ticket requirements of Part VI of the Regulations as though the vessel is a pleasure vessel within the meaning of section 98 of the WAMA;

This exemption revokes and replaces WAMA—2012—00793.

This exemption is valid for two years from the date of publication in the *Gazette*, unless earlier revoked.

DAVID HARROD FNI, General Manager, Marine Safety.

PLANNING AND DEVELOPMENT ACT 2005
APPROVED LOCAL PLANNING SCHEME AMENDMENT*Shire of Beverley*

Town Planning Scheme No. 2—Amendment No. 19

Ref: TPS/0652

It is hereby notified for public information, in accordance with section 87 of the *Planning and Development Act 2005* that the Minister for Planning approved the Shire of Beverley local planning scheme amendment on 26 July 2012 for the purpose of—

1. Deleting clause 3.2.6 of the Scheme.
2. Removing all provisions under clause 3.5 and inserting the following objectives for the Farming Zone—
 - 3.5.1 Objectives
 - (a) To protect the potential of agricultural land for primary production and to preserve the landscape and character of the rural areas.
 - (b) To provide for a range of rural pursuits such as broadacre and diversified farming which are compatible with the capability of the land and retain the rural character and amenity of the locality.
 - (c) To retain farming land in large landholdings, to support primary production and prevent the creation of additional lots.
 - (d) To consider non-rural uses, such as low key tourism where they can be shown to be of benefit to the district and not detrimental to primary production activity, natural resources or the environment.
 - (e) To encourage generally the retention of and/or rehabilitation of remnant vegetation and support improved environmental outcomes in farming areas.
 - (f) To prevent development in areas of extreme bushfire risk, and developments that may increase bushfire risk.
 - (g) To minimise unplanned rural residential development.
3. Renumbering clause 3.6.2 (ii) to 3.5.2.
4. Renumbering clause 3.6.2 (iv) to 3.5.3.
5. Renumbering clause 3.6.1 to 3.5.4 and rename District Rural Strategy—Policy Area BE1.
6. Removing clause 3.6 District Rural Strategy—Policy Areas and all provisions.
7. Inserting a new section 3.5.5—Property rationalisation
 - (i) Council may support proposals for boundary redistribution to consolidate primary production land into one lot and the creation of smaller balance lots if—
 - (a) No additional lots are created.
 - (b) The new lot boundaries reflect good environmental and land management practice and are appropriate for the intended land uses.
 - (c) No additional roads are created unless supported by Council.
 - (d) New vehicle access points onto State roads are minimised.
 - (e) Former road reserves and small remnant portions of lots are not considered to be lots for the purpose of boundary rationalisation.
 - (f) Rural smallholding-sized lots (4 to 40 hectares) may have notifications or memorials placed on titles advising that the lot is in a rural area and may be impacted upon by primary production, including the potential for risk, noise, dust and/or odour.
 - (g) Rural smallholding-sized lots are capable of being serviced appropriately and will not be located in areas of extreme bushfire risk.
 - (h) Bushfire risk can be managed in accordance with the most recent Planning for Bushfire Protection Guidelines produced by the Western Australian Planning Commission and the Fire and Emergency Services Authority.
 - (ii) Future subdivision of any agricultural lots created through property rationalisation subdivisions will not be supported.
8. Amending clause 4.12.1 to read—

In areas shown on the scheme map with a density code of R10/25, the Council will support development and subdivision to the higher code where reticulated sewerage will be connected to the land.
9. Replacing the R10 code on the scheme map in the Beverley townsite with R10/25.
10. Inserting an additional sentence into clause 6.1 which reads—

All applications for planning consent shall contain the landowners, or their legal representative's, original signature and address.

11. Inserting clause 6.1.1 which states—

6.1.1. Accompanying material

Unless the local government waives any particular requirement every application for planning approval is to be accompanied by—

- (a) a plan or plans to a scale of not less than 1:500 showing—
 - (i) the location of the site including street names, lot numbers, north point and the dimensions of the site;
 - (ii) the existing and proposed ground levels over the whole of the land the subject of the application and the location, height and type of all existing structures, and structures and vegetation proposed to be removed;
 - (iii) the existing and proposed use of the site, including proposed hours of operation, and buildings and structures to be erected on the site;
 - (iv) the existing and proposed means of access for pedestrians and vehicles to and from the site;
 - (v) the location, number, dimensions and layout of all car parking spaces intended to be provided;
 - (vi) the location and dimensions of any area proposed to be provided for the loading and unloading of vehicles carrying goods or commodities to and from the site and the means of access to and from those areas;
 - (vii) the location, dimensions and design of any open storage or trade display area and particulars of the manner in which it is proposed to develop the same; and
 - (viii) the nature and extent of any open space and landscaping proposed for the site;
- (b) plans, elevations and sections of any building proposed to be erected or altered and of any building it is intended to retain;
- (c) any specialist studies that local government may require the applicant to undertake in support of the application such as traffic, heritage, environmental, engineering or urban design studies; and
- (d) any other plan or information that the local government may require to enable the application to be determined.
