Ref: TPS/0963

It is hereby notified for public information, in accordance with section 87 of the *Planning and Development Act 2005* that the Minister for Planning approved the Shire of Carnamah Local Planning Scheme No. 2 on 9 July 2014, the scheme text of which is published as a schedule annexed hereto.

SCHEDULE*Shire of Carnamah***LOCAL PLANNING SCHEME No. 2****Preamble**

This Local Planning Scheme of the Shire of Carnamah consists of this Scheme Text and the Scheme Maps. The Scheme Text should be read with the Local Planning Strategy for the Shire.

Part 2 of the Scheme Text sets out the Local Planning Framework. At the core of this Framework is the Local Planning Strategy which sets out the long-term planning directions for the local government, applies State and regional planning policies and provides the rationale for the zones and other provisions of the Scheme. In addition to the Local Planning Strategy, the Framework provides for Local Planning Policies which set out the general policies of the local government on matters within the Scheme.

The Scheme divides the local government district into zones to identify areas for particular uses and identifies land reserved for public purposes. Most importantly, the Scheme controls the types of uses and development allowed in different zones. There are particular controls included for heritage and special control areas. The Scheme Text also sets out the requirements for planning approval, enforcement of the Scheme provisions and non-conforming uses.

1.7. Definitions

1.7.1. Unless the context otherwise requires, words and expressions used in the Scheme have the same meaning as they have—

- (a) in the *Planning and Development Act 2005*; or

- (a) in the case of a residential development, the definition in the Residential Design Codes prevails; and
- (b) in any other case the definition in the Dictionary prevails.

1.7.3. Notes, and instructions printed in italics, are not part of the Scheme.

1.8. Relationship with local laws

Where a provision of the Scheme is inconsistent with a local law, the provision of the Scheme prevails.

1.9. Relationship with other Schemes

There are no other Schemes of the Shire of Carnamah which apply to the Scheme area.

PART 2—LOCAL PLANNING POLICY FRAMEWORK

2.1. Scheme determinations to conform with the Local Planning Strategy

Except to the extent that the Local Planning Strategy is inconsistent with the Scheme, determinations of the local government under the Scheme are to be consistent with the Local Planning Strategy.

(A Local Planning Strategy has been prepared and endorsed under the Town Planning Regulations 1967 (as amended)).

2.2. Local Planning Policies

The local government may prepare a Local Planning Policy in respect of any matter related to the planning and development of the Scheme area so as to apply—

- (a) generally or for a particular class or classes of matters; and
- (b) throughout the Scheme area or in one or more parts of the Scheme area,

and may amend or add to or rescind the Policy.

2.3. Relationship of Local Planning Policies to Scheme

2.3.1. If a provision of a Local Planning Policy is inconsistent with the Scheme, the Scheme prevails.

2.3.2. A Local Planning Policy is not part of the Scheme and does not bind the local government in respect of any application for planning approval but the local government is to have due regard to the provisions of the Policy and the objectives which the Policy is designed to achieve before making its determination.

Note: Local Planning Policies are guidelines used to assist the local government in making decisions under the Scheme. Although Local Planning Policies are not part of the Scheme they must be consistent with, and cannot vary, the intent of the Scheme provisions, including the Residential Design Codes. In considering an application for planning approval, the local government must have due regard to relevant Local Planning Policies as required under clause 10.2.

2.4. Procedure for making or amending a Local Planning Policy

2.4.1. If a local government resolves to prepare a Local Planning Policy, the local government—

- (a) is to publish a notice of the proposed Policy once a week for 2 consecutive weeks in a newspaper circulating in the Scheme area, giving details of—
 - (i) where the draft Policy may be inspected;
 - (ii) the subject and nature of the draft Policy; and
 - (iii) in what form and during what period (being not less than 21 days from the day the notice is published) submissions may be made;
- (b) may publish a notice of the proposed Policy in such other manner and carry out such other consultation as the local government considers appropriate.

2.4.2. After the expiry of the period within which submissions may be made, the local government is to—

- (a) review the proposed Policy in the light of any submissions made; and
- (b) resolve to adopt the Policy with or without modification, or not to proceed with the Policy.

2.4.3. If the local government resolves to adopt the Policy, the local government is to—

- (a) publish notice of the Policy once in a newspaper circulating in the Scheme area; and
- (b) if, in the opinion of the local government, the Policy affects the interests of the Commission, forward a copy of the Policy to the Commission.

2.4.4. A Policy has effect on publication of a notice under clause 2.4.3(a).

2.4.5. A copy of each Local Planning Policy, as amended from time to time, is to be kept and made available for public inspection during business hours at the offices of the local government.

2.4.6. Clauses 2.4.1 to 2.4.5, with any necessary changes, apply to the amendment of a Local Planning Policy.

2.5. Revocation of Local Planning Policy

A Local Planning Policy may be revoked by—

- (a) the adoption by a local government of a new Policy under clause 2.4 that is expressed to supersede the existing Local Planning Policy; or
- (b) publication of a notice of revocation by the local government once a week for 2 consecutive weeks in a newspaper circulating in the Scheme area.

PART 3—RESERVES

3.1. Reserves

Certain lands within the Scheme area are classified as Local Reserves.

3.2. Regional Reserves

There are no regional reserves in the Scheme area.

3.3. Local Reserves

“Local Reserves” are delineated and depicted on the Scheme Map according to the legend on the Scheme Map.

3.4. Use and development of Local Reserves

3.4.1. A person must not—

- (a) use a Local Reserve; or
- (b) commence or carry out development on a Local Reserve,

without first having obtained planning approval under Part 9 of the Scheme.

3.4.2. In determining an application for planning approval the local government is to have due regard to—

- (a) the matters set out in clause 10.2; and
- (b) the ultimate purpose intended for the Reserve.

3.4.3. In the case of land reserved for the purposes of a public authority, the local government is to consult with that authority before determining an application for planning approval.

PART 4—ZONES AND THE USE OF LAND

4.1. Zones

4.1.1. The Scheme area is classified into the zones shown on the Scheme Map.

4.1.2. The zones are delineated and depicted on the Scheme Map according to the legend on the Scheme Map.

4.2. Objectives of the zones

The objectives of the zones are:

4.2.1 Residential Zone

- (a) To provide for predominantly residential development with a variety of housing to meet the needs of different household types through the application of the Residential Design Codes of Western Australia.
- (b) Non-residential uses shall be compatible in character, scale and operation with the predominant residential use.
- (c) A non-residential use shall only be permitted if the use does not detract from the amenity of the area.

4.2.2 Commercial Zone

- (b) To provide for general industry to support development in the District.
- (c) To provide for general industry, the storage and distribution of goods and associated uses, which by the nature of their operations may need to be separated from residential and other sensitive areas.
- (d) To provide a location for diverse industries that would otherwise have a detrimental impact on the other uses in close vicinity.
- (e) To encourage the provision of landscaping to ensure the industrial development is appropriately screened from the main road.
- (f) To provide a location where separate heavy vehicular access is provided.
- (g) To provide a location for depots, warehouses, and large vehicle parking and servicing areas.

4.2.5 Rural Residential Zone

- (d) To allow for facilities for tourists and travellers, and for recreation uses.

4.2.7 Special Use Zone

- (a) To provide for special categories of land use which are not fully compatible with other zones in the Scheme.

4.3. Zoning Table

4.3.1. The Zoning Table indicates, subject to the provisions of the Scheme, the uses permitted in the Scheme area in the various zones. The permissibility of any uses is determined by cross reference between the list of use classes on the left hand side of the Zoning Table and the list of zones at the top of the Zoning Table.

4.3.2. The symbols used in the cross reference in the Zoning Table have the following meanings—

- 'P' means that the use is permitted by the Scheme providing the use complies with the relevant development standards and the requirements of the Scheme;
- 'D' means that the use is not permitted unless the local government has exercised its discretion by granting planning approval;
- 'A' means that the use is not permitted unless the local government has exercised its discretion by granting planning approval after giving special notice in accordance with clause 9.4;
- 'X' means a use that is not permitted by the Scheme.

4.3.3. A change in the use of land from one use to another is permitted if—

- (a) the local government has exercised its discretion by granting planning approval;

- (b) the change is to a use which is designated with the symbol 'P' in the cross reference to that zone in the Zoning Table and the proposed use complies with all the relevant development standards and any requirements of the Scheme;
- (c) the change is an extension of a use within the boundary of the lot which does not change the predominant use of the lot; or
- (d) the change is to an incidental use that does not change the predominant use of the land.

- Note:*
1. *The planning approval of the local government is required for the development of land in addition to any approval granted for the use of land. In normal circumstances one application is made for both the use and development of land.*
 2. *The local government will not refuse a 'P' use because of the unsuitability of the use for the zone but may impose conditions on the use of the land to comply with any relevant development standards or requirements of the Scheme, and may refuse or impose conditions on any development of the land.*
 3. *In considering a 'D' or 'A' use, the local government will have regard to the matters set out in clause 10.2.*
 4. *The local government must refuse to approve any 'X' use of land. Approval to an 'X' use of land may only proceed by way of an amendment to the Scheme.*

4.4. Interpretation of the Zoning Table

4.4.1. Where a specific use is mentioned in the Zoning Table, it is deemed to be excluded from the general terms used to describe any other use.

4.4.2. If a person proposes to carry out on land any use that is not specifically mentioned in the Zoning Table and cannot reasonably be determined as falling within the type, class or genus of activity of any other use category the local government may—

- determine that the use is consistent with the objectives of the particular zone and is therefore permitted;
- determine that the use may be consistent with the objectives of the particular zone and thereafter follow the advertising procedures of clause 9.4 in considering an application for planning approval; or
- determine that the use is not consistent with the objectives of the particular zone and is therefore not permitted.

4.5. Additional uses

There are no additional uses which apply to the Scheme.

4.6. Restricted uses

There are no restricted uses which apply to the Scheme.

4.7. Special use zones

4.7.1. Special use zones are set out in Schedule 4 and are in addition to the zones in the Zoning Table.

4.7.2. A person must not use any land, or any structure or buildings on land, in a special use zone except for the purpose set out against that land in Schedule 4 and subject to compliance with any conditions set out in Schedule 4 with respect to that land.

Note: Special use zones apply to special categories of land use which do not comfortably sit within any other zone in the Scheme.

4.8. Non-conforming uses

Except as otherwise provided in the Scheme, no provision of the Scheme is to be taken to prevent—

- the continued use of any land for the purpose for which it was being lawfully used immediately prior to the Gazettal date;
- the carrying out of any development on that land for which, immediately prior to the Gazettal date, an approval or approvals, lawfully required to authorise the development to be carried out, were duly obtained and are current; or
- subject to clause 11.2.1, the continued display of advertisements which were lawfully erected, placed or displayed prior to the Gazettal date.

Note: "Land" has the same meaning as in the Planning and Development Act and includes houses, buildings and other works and structures.

4.9. Extensions and changes to a non-conforming use

4.9.1. A person must not—

- alter or extend a non-conforming use;
- erect, alter or extend a building used in conjunction with or in furtherance of a non-conforming use; or
- change the use of land from a non-conforming use to another non-conforming use, without first having applied for and obtained planning approval under the Scheme.

4.9.2. An application for planning approval under this clause is to be advertised in accordance with clause 9.4.

4.9.3. Where an application is for a change of use from an existing non-conforming use to another non-conforming use, the local government is not to grant its planning approval unless the proposed use is less detrimental to the amenity of the locality than the existing non-conforming use and is, in the opinion of the local government, closer to the intended purpose of the zone.

4.10. Discontinuance of non-conforming use

Where a non-conforming use of any land has been discontinued for a period of 6 months the land must not be used after that period otherwise than in conformity with the provisions of the Scheme.

4.11. Termination of a non-conforming use

The local government may effect the discontinuance of a non-conforming use by the purchase of the land, or by the payment of compensation to the owner or occupier or to both the owner and occupier of that land, and may enter into an agreement with the owner for that purpose.

Note: Section 190 and 191 of the Planning and Development Act enables the local government to purchase, or, with the consent of the Governor, compulsorily acquire land for the purpose of a local planning scheme, subject to Part 9 of the Land Administration Act 1997, that section and the Scheme.

4.12. Destruction of non-conforming use buildings

If a building used for a non-conforming use is destroyed to 75% or more of its value, the building is not to be repaired, rebuilt, altered or added to for the purpose of being used for a non-conforming use or in a manner not permitted by the Scheme, except with the planning approval of the local government.

PART 5—GENERAL DEVELOPMENT REQUIREMENTS

5.1. Compliance with development standards and requirements

Any development of land is to comply with the provisions of the Scheme.

5.2. Residential Design Codes

5.2.1. A copy of the Residential Design Codes is to be kept and made available for public inspection at the offices of the local government.

5.2.2. Unless otherwise provided for in the Scheme, the development of land for any of the residential purposes dealt with by the Residential Design Codes is to conform with the provisions of those Codes.

5.2.3. The Residential Design Codes density applicable to land within the Scheme area is to be determined by reference to the Residential Design Codes density number superimposed on the particular areas contained within the borders shown on the Scheme Map or where such an area abuts another area having a Residential Design Code density, as being contained within the area defined by the centre-line of those borders.

5.3. Special application of Residential Design Codes

5.3.1 The Residential Design Code for land zoned 'Residential' and 'Commercial' shall be R10/30 unless otherwise indicated on the Scheme Maps.

5.3.2 Residential development with the R10/30 code shall be permitted at the R10 density, however the Council may approve developments up to the R30 density as a 'D' use.

5.4. Restrictive covenants

5.4.1. Subject to clause 5.4.2, a restrictive covenant affecting any land in the Scheme area by which, or the effect of which is that, the number of residential dwellings which may be constructed on the land is limited or restricted to less than that permitted by the Scheme, is hereby extinguished or varied to the extent that it is inconsistent with the provisions of the Residential Design Codes which apply under the Scheme.

5.4.2. Where clause 5.4.1 operates to extinguish or vary a restrictive covenant the local government is not to grant planning approval to the development of the land which would, but for the operation of clause 5.4.1, have been prohibited unless the application has been dealt with as an 'A' use and has complied with all of the advertising requirements of clause 9.4.

5.5. Variations to site and development standards and requirements

5.5.1. Except for development in respect of which the Residential Design Codes apply, if a development is the subject of an application for planning approval and does not comply with a standard or requirement prescribed under the Scheme, the local government may, despite the non-compliance, approve the application unconditionally or subject to such conditions as the local government thinks fit.

5.5.2. In considering an application for planning approval under this clause, where, in the opinion of the local government, the variation is likely to affect any owners or occupiers in the general locality or adjoining the site which is the subject of consideration for the variation, the local government is to—

- (a) consult the affected parties by following one or more of the provisions for advertising uses under clause 9.4; and
- (b) have regard to any expressed views prior to making its determination to grant the variation.

5.5.3. The power conferred by this clause may only be exercised if the local government is satisfied that—

- (a) approval of the proposed development would be appropriate having regard to the criteria set out in clause 10.2; and
- (b) the non-compliance will not have an adverse effect upon the occupiers or users of the development, the inhabitants of the locality or the likely future development of the locality.

5.6. Environmental conditions

There are no environmental conditions imposed by the Minister for Environment which apply to the Scheme.

5.7 Commercial Development
