**WATER SERVICES ACT 2012****WATER SERVICES REGULATIONS 2013****ORDER—LOCAL GOVERNMENT DISTRICT OF DENMARK—FURTHER WATER RESTRICTIONS**

I, Hon. Mia Davies MLA, Minister for Water, being satisfied that the water use restrictions that currently apply in relation to the local government district of Denmark under regulation 78 of the *Water Services Regulations 2013* (Regulations) are inadequate to ensure that there will be sufficient water for the Water Corporation to continue providing the water supply service to that area in the short term, hereby impose, pursuant to regulation 80 of the Regulations, Stage 5 water use restrictions upon the area within the local government district of Denmark from the day after this order is published in the *Government Gazette* to 28 February 2015.

This notice applies to the use of water supplied directly by the Water Corporation.

Hon. MIA DAVIES, MLA, Minister for Water.

WA402\*

**WATER SERVICES ACT 2012****EXEMPTION NOTICE**

Exemption for Carnegie Wave Energy Limited for a water service on Garden Island

In accordance with section 7 of the *Water Services Act 2012*, the Hon Mia Davies MLA, Minister for Water, granted an exemption from the application of section 5(1) of the Act to Carnegie Wave Energy Limited (Carnegie) on 27 November 2014, in respect of the provision of a water supply service on Garden Island.

The water service is a potable water supply service. Seawater is desalinated in a reverse osmosis plant on Garden Island to potable water quality and delivered to the Department of Defence water supply network.

The exemption is granted subject to the condition that Carnegie meets the requirements of the Western Australian Department of Health regarding the public health aspects of the service.

The exemption is valid for an indefinite period.

**Summary of the reasons for the decision**

Granting this exemption is not contrary to the public interest. It is considered that—

- The risks of the abuse of monopoly power are low. Risks are appropriately managed through negotiated commercial agreements.
- The public health aspects of the service can be addressed by meeting the requirements of the Western Australian Department of Health.
- The regulatory burden imposed by licensing would be disproportionately high given the small scale of the service.
