APPROVED LOCAL PLANNING SCHEME

*Shire of Koorda***LOCAL PLANNING SCHEME No. 3**

Ref: 853/4/15/3 Pt

It is hereby notified for public information, in accordance with section 87 of the *Planning and Development Act 2005* that the Minister for Planning approved the Shire of Koorda Local Planning Scheme No. 3 on 19 November 2014, the scheme text of which is published as a schedule annexed hereto.

F. J. STORER, President.
D. BURTON, Chief Executive Officer.

Preamble

This Local Planning Scheme of the Shire of Koorda consists of this Scheme Text and the Scheme Maps. The Scheme Text should be read in conjunction with the Local Planning Strategy for the Shire.

Part 2 of the Scheme Text sets out the Local Planning Framework. At the core of this Framework is the Local Planning Strategy which sets out the long-term planning directions for the local government, applies State and regional planning policies and provides the rationale for the zones and other provisions of the Scheme. In addition to the Local Planning Strategy, the Framework provides for Local Planning Policies that set out the general policies of the local government on matters within the Scheme.

The Scheme divides the local government district into zones to identify areas for particular uses and identifies land reserved for public purposes. Most importantly, the Scheme controls the types of uses and development allowed in different zones. There are particular controls included for heritage and special control areas. The Scheme Text also sets out the requirements for planning approval, enforcement of the Scheme provisions and non-conforming uses.

Queries regarding any aspect of the Scheme and how it may affect proposals for future development and use of land within the local government district should be directed to the Shire of Koorda Administration Centre, Allenby Street, Koorda (Tel: (08) 9684 1219, Fax (08) 9684 1379).

(A Local Planning Strategy has been prepared and endorsed under the Town Planning Regulations 1967.)

and may amend or add to or rescind the Policy.

2.3 Relationship of Local Planning Policies to Scheme

2.3.1 If a provision of a Local Planning Policy is inconsistent with the Scheme, the Scheme prevails.

2.3.2 A Local Planning Policy is not part of the Scheme and does not bind the local government in respect of any application for planning approval but the local government is to have due regard to the provisions of the Policy and the objectives which the Policy is designed to achieve before making its determination.

2.4 Procedure for making or amending a Local Planning Policy

2.4.1 If a local government resolves to prepare a Local Planning Policy, the local government—

- (a) is to publish a notice of the proposed Policy once a week for 2 consecutive weeks in a newspaper circulating in the Scheme area, giving details of—
 - (i) where the draft Policy may be inspected;
 - (ii) the subject and nature of the draft Policy; and
 - (iii) in what form and during what period (being not less than 21 days from the day the notice is published) submissions may be made;
- (b) may publish a notice of the proposed Policy in such other manner and carry out such other consultation as the local government considers appropriate.

2.4.2 After the expiry of the period within which submissions may be made, the local government is to—

- (a) review the proposed Policy in the light of any submissions made; and
- (b) resolve to adopt the Policy with or without modification, or not to proceed with the Policy.

2.4.3 If the local government resolves to adopt the Policy, the local government is to—

- (b) if, in the opinion of the local government, the Policy affects the interests of the Commission, forward a copy of the Policy to the Commission.

2.4.4 A Policy has effect on publication of a notice under clause 2.4.3(a).

2.4.5 A copy of each Local Planning Policy, as amended from time to time, is to be kept and made available for public inspection during business hours at the offices of the local government.

2.4.6 Clauses 2.4.1 to 2.4.5, with any necessary changes, apply to the amendment of a Local Planning Policy.

2.5 Revocation of Local Planning Policy

A Local Planning Policy may be revoked by—

- (a) the adoption by a local government of a new Policy under clause 2.4 that is expressed to supersede the existing Local Planning Policy; or
- (b) publication of a notice of revocation by the local government once a week for 2 consecutive weeks in a newspaper circulating in the Scheme area.

without first having obtained planning approval under Part 9 of the Scheme.

- (a) the matters set out in Part 10 (clause 10.2 in particular); and
- (b) the ultimate purpose intended for the Local Reserve;

3.4.3 In the case of land reserved for the purposes of a public authority, the local government is to consult with that authority before determining an application for planning approval.

PART 4—ZONES AND THE USE OF THE LAND

4.1 Zones

4.1.1 The Scheme area is classified into the zones shown on the Scheme Map.

4.1.2 The zones are delineated and depicted on the Scheme Map according to the legend on the Scheme Map.

4.2 Objectives of the zones

The objectives of the zones are—

Residential Zone

The objectives are to—

- provide the opportunity for a variety of housing types to meet the needs of different household types through the application of the Residential Design Codes of Western Australia.
- provide for non-residential uses that are compatible with the character, scale and operation of surrounding uses, and do not detract from the amenity of the area.
- provide the opportunity for aged persons housing.
- allow for closer subdivision where connection to reticulated water and sewerage is available.
- provide the opportunity for larger residential lot sizes to accommodate certain types of hobbies and other activities.
- provide for sustainable design and development of housing.
- incorporate water sensitive urban design elements in new residential development.

Light Industry Zone

The objectives are to—

- provide for service industries and light industries that will not have a detrimental affect on nearby residential or other sensitive areas
- provide for a range of employment opportunities.
- preclude the storage of bulky and unsightly goods where they may be in public view.
- ensure the appropriate use of setback areas and the provision of landscaping to the Council’s satisfaction

General Industry zone

The objectives are to—

- provide for general industry, the storage and distribution of goods and associated uses, which by the nature of their operations may need to be separated from residential and other sensitive areas.
- provide a location for diverse industries that would otherwise have a detrimental impact on the other uses in close vicinity.
- encourage the provision of landscaping to ensure the industrial development is appropriately screened from the main road.
- provide a location where separate heavy vehicular access is provided.
- provide a location for depots, warehouses, and large vehicle parking and servicing areas.
- provide for a range of employment opportunities.

Town Centre zone

The objectives are to—

- maintain a coordinated, consolidated, compact and accessible centre.
- centralise commercial, office, showroom, open air display and service functions.
- provide for a mix of residential and commercial uses appropriate for a town centre
- provide for the expansion of commercial activity to meet future demands
- preclude the storage of bulky and unsightly goods where they may be in public view.
- maintain safety and efficiency of traffic flows and provide for adequate facilities for the storage and circulation of vehicles.
- maintain the compatibility with the general streetscape for all new buildings in terms of scale, height, style, materials, street alignment and design of facades.
- reduce uses attracting large volumes of heavy vehicle traffic other than to service retail outlets.
- encourage the provision of public art to improve the amenity and ambiance of the town centre area.

Special Use zone

The objectives are to—

- provide an area where special uses can be operated under the specific control of the local government in order to maintain the safety, health and welfare of surrounding users.
- enable the local government to impose specific conditions to restrict the use and operation of any development that would normally not fit within the ambit of any other zone in this Scheme.

Rural Residential zone

The objectives are to—

- make provision for development for the purpose of closer settlement on land that is suitable for such a purpose, without impacting on the continued rural operation of adjoining land.
- make provision for the retention of the rural character of the locality, maintains a high level of amenity and minimises disturbance to the landscape through construction of buildings and structures, clearing, earthworks and access roads.
- prohibit development not compatible with the predominantly rural nature and residential amenity of the zone.
- provide for rural residential subdivision where it is reasonable and economic to provide, or extend, services and facilities.
- make provision for cluster subdivision and other innovative rural residential designs, having consideration for conservation values.
- provide for community facilities and emergency services in the vicinity of rural residential developments.
- make provision for vegetation and fauna corridors and the revegetation of the land to adequately protect any areas or sites of conservation value within the design.
- Provide for rural residential subdivision by permitting a range of lot sizes in conventional subdivision subject to a general minimum lot size of 2 hectare with an average minimum lot size of approximately 4 hectares and providing greater flexibility for lots created within appropriate cluster subdivisions or by strata title subdivision, dependent upon the special demonstrated physical characteristics of the land.
- provide road, electricity, communication services and, where appropriate and practical, water services.
- provide for rural residential development where it is in close proximity to services, amenities and facilities of an existing urban area, whilst avoiding areas required for urban expansion.

Rural zone

The objectives are to—

- provide for a range of rural land uses that are compatible with the capability of the land and retain the rural character and amenity of the locality.
- protect land from urban uses that may jeopardise the future use of that land for other planned purposes that are compatible with the zoning.
- protect the land from closer development that would detract from the rural character and amenity of the area.
- prevent any development that may affect the agricultural viability of the land..
- encourage small scale, low impact tourist accommodation in rural locations.
- encourage a diversification of rural activities that will compliment the dependency of the rural sector on traditional crops.
- support mining activities where an environmental management plan has been prepared and is acceptable to the Council and EPA.

Restricted Uses

Despite anything contained in the Zoning Table, the land specified in Schedule 11 may only be used for the specific use or uses that are listed and subject to the conditions set out in Schedule 11 with respect to that land.

4.3 Table 1—Zoning Table

4.3.1 The Zoning Table indicates, subject to the provisions of the Scheme, the uses permitted in the Scheme area in the various zones. The permissibility of any uses is determined by cross-reference between the list of use classes on the left-hand side of the Zoning Table and the list of zones at the top of the Zoning Table.

4.3.2 The symbols used in the cross-reference in the Zoning Table have the following meanings—

- ‘P’ means that the use is permitted by the Scheme providing the use complies with the relevant development standards and the requirements of the Scheme;
- ‘D’ means that the use is not permitted unless the local government has exercised its discretion by granting planning approval;
- ‘A’ means that the use is not permitted unless the local government has exercised its discretion by granting planning approval after giving special notice in accordance with clause 9.4;
- ‘X’ means a use that is not permitted by the scheme.

4.3.3 A change in the use of land from one use to another is permitted if—

- (a) the local government has exercised its discretion by granting planning approval;
- (b) the change is to a use which is designated with the symbol ‘P’ in the cross reference to that zone in the Zoning Table and the proposed use complies with all the relevant development standards and any requirements of the Scheme;
- (c) the change is an extension of a use within the boundary of the lot which does not change the predominant use of the lot; or
- (d) the change is to an incidental use that does not change the predominant use of the land.

4.4 Interpretation of the Zoning Table

4.4.1 Where a specific use is mentioned in the Zoning Table, it is deemed to be excluded from the general terms used to describe any other use.

4.4.2 If a person proposes to carry out on land any use that is not specifically mentioned in the Zoning Table and cannot reasonably be determined as falling within the type, class or genus of activity of any other use category the local government may—

- (a) determine that the use is consistent with the objectives of the particular zone and is therefore permitted;
- (b) determine that the use may be consistent with the objectives of the particular zone and thereafter follow the advertising procedures of clause 9.4 in considering an application for planning approval; or
- (c) determine that the use is not consistent with the objectives of the particular zone and is therefore not permitted.

4.5 Additional uses

Despite anything contained in the Zoning Table, the land specified in Schedule 2 may be used for the specific use or uses that are listed in addition to any uses permissible in the zone in which the land is situated subject to the conditions set out in Schedule 2 with respect to that land.

4.6 Restricted uses

Despite anything contained in the Zoning Table, the land specified in Schedule 3 may only be used for the specific use or uses that are listed and subject to the conditions set out in Schedule 3 with respect to that land.

4.7 Special use zones

4.7.1 Special use zones are set out in Schedule 4.

4.7.2 A person must not use any land, or any structure or buildings on land, in a special use zone except for the purpose set out against that land in Schedule 4 and subject to compliance with any conditions set out in Schedule 4 with respect to that land.

4.8 Non-conforming uses

Except as otherwise provided in the Scheme, no provision of the Scheme is to be taken to prevent—

- the continued use of any land for the purpose for which it was being lawfully used immediately prior to the Gazettal date;
- the carrying out of any development on that land for which, immediately prior to the Gazettal date, an approval or approvals, lawfully required to authorise the development to be carried out, were duly obtained and are current; or
- subject to Part 11, the continued display of advertisements which were lawfully erected, placed or displayed prior to the Gazettal date.

4.9 Extensions and changes to a non-conforming use

4.9.1 A person must not—

- alter or extend a non-conforming use;
- erect, alter or extend a building used in conjunction with or in furtherance of a non-conforming use; or
- change the use of land from a non-conforming use to another non-conforming use,

without first having applied for and obtained planning approval under the Scheme.

4.9.2 An application for planning approval under this clause is to be advertised in accordance with clause 9.4.

4.9.3 Where an application is for a change of use from an existing non-conforming use to another non-conforming use, the local government is not to grant its planning approval unless the proposed use is less detrimental to the amenity of the locality than the existing non-conforming use and is, in the opinion of the local government, closer to the intended purpose of the zone.

4.10 Discontinuance of non-conforming use

Where a non-conforming use of any land has been discontinued for a period of 6 months the land must not be used after that period otherwise than in conformity with the provisions of the Scheme.

4.11 Termination of a non-conforming use

The local government may effect the discontinuance of a non-conforming use by the purchase of the land, or by the payment of compensation to the owner or occupier or to both the owner and occupier of that land, and may enter into an agreement with the owner for that purpose.

4.12 Destruction of non-conforming use buildings

If a building used for a non-conforming use is destroyed to 75% or more of its value, the building is not to be repaired, rebuilt, altered or added to for the purpose of being used for a non-conforming use or in a manner not permitted by the Scheme, except with the planning approval of the local government.

PART 5—GENERAL DEVELOPMENT REQUIREMENTS

5.1 Compliance with development standards and requirements

Any development of land is to comply with the provisions of the Scheme.

5.2 Residential Design Codes

5.2.1 A copy of the Residential Design Codes is to be kept and made available for public inspection at the offices of the local government.

5.2.2 Unless otherwise provided for in the Scheme, the development of land for any of the residential purposes dealt with by the Residential Design Codes is to conform with the provisions of those Codes.

5.2.3 The Residential Design Codes density applicable to land within the Scheme area is to be determined by reference to the Residential Design Codes density number superimposed on the particular areas contained within the borders shown on the Scheme Map or where such an area abuts another area having a Residential Design Code density, as being contained within the area defined by the centre-line of those borders.

5.3 Special application of Residential Design Codes

(a) Notwithstanding the right to develop a single house on an existing lot, residential development in the 'Rural' Zone shall comply with the specific requirements of the Council, however these shall not be lesser than those specified for the Residential Design Code 'R2'.

5.4 Restrictive covenants

5.4.1 Subject to clause 5.4.2, a restrictive covenant affecting any land in the Scheme area by which, or the effect of which is that, the number of residential dwellings which may be constructed on the land is limited or restricted to less than that permitted by the Scheme, is hereby extinguished or varied to the extent that it is inconsistent with the provisions of the Residential Design Codes which apply under the Scheme.

5.4.2 Where clause 5.4.1 operates to extinguish or vary a restrictive covenant the local government is not to grant planning approval to the development of the land which would, but for the operation of clause 5.4.1, have been prohibited unless the application has been dealt with as an 'A' use and has complied with all of the advertising requirements of clause 9.4.

5.5 Variations to site and development standards and requirements

5.5.1 Except for development in respect of which the Residential Design Codes apply, if a development is the subject of an application for planning approval and does not comply with a standard or requirement prescribed under the Scheme, the local government may, despite the non-compliance, approve the application unconditionally or subject to such conditions as the local government thinks fit.

5.5.2 In considering an application for planning approval under this clause, where, in the opinion of the local government, the variation is likely to affect any owners or occupiers in the general locality or adjoining the site which is the subject of consideration for the variation, the local government is to—

- (a) consult the affected parties by following one or more of the provisions for advertising uses under Part 9; and
- (b) have regard to any expressed views prior to making its determination to grant the variation.

5.5.3 The power conferred by this clause may only be exercised if the local government is satisfied that—

- (a) approval of the proposed development would be appropriate having regard to the criteria set out in Part 10; and
- (b) the non-compliance will not have an adverse effect upon the occupiers or users of the development, the inhabitants of the locality or the likely future development of the locality.

5.6 Environmental conditions

5.6.1 Environmental conditions to which the Scheme is, or amendments to the Scheme are, subject are incorporated into the Scheme by Schedule 10 of the Scheme.

5.6.2 Where appropriate, the environmental conditions are indicated on the Scheme Map by the symbol EC to indicate that environmental conditions apply to the land.

5.6.3 The local government is to—

- (a) maintain a register of all relevant statements published under sections 48F and 48G of the Environmental Protection Act; and
- (b) make the statements available for public inspection at the offices of the local government.

5.7 Site and Development Requirements

Any development that is permitted under the provisions of Part 4 of this Scheme shall conform to the requirements for that use as specified in Table II—Development Table, or in the Residential Design Codes for residential development.

5.10 Structure Plans

5.10.1 The local government or the Western Australian Planning Commission may require the preparation of a structure plan prior to considering a subdivision or development proposal for any area or zone in the scheme.

5.10.2 Subdivision and development should generally be in accordance with an approved structure plan.

5.10.3 A departure from, or alteration to, a structure plan may be permitted if the local government and Western Australian Planning Commission consider the proposed departure or alteration to be minor in nature and it will not prejudice the future subdivision and development of the area.

5.10.4 Structure plan form and content

5.10.4.1 A Structure Plan is to contain such detail as, in the opinion of the local government and Western Australian Planning Commission, is required to satisfy the planning requirements for the structure plan area, and should include the following details—

5.10.6 Operation of Structure Plan

5.10.6.1 A structure plan commences operation when it is adopted by the local government and approved by the Western Australian Planning Commission.

5.10.6.2 If a structure plan imposes a classification on the land included in it by reference to reserves, zones, or Residential Design Codes then—

- (a) the provisions of the structure plan apply to the land as if its provisions were incorporated into the Scheme and it is binding and enforceable in the same way as corresponding provisions incorporated in the Scheme; and
- (b) provisions in the Scheme applicable to land in those classifications under the Scheme apply to the structure plan area;
- (c) where there is conflict between the provisions of a zone, reserve or provision in a structure plan or a scheme, the scheme shall prevail.

5.10.6.3 If the zones and reserves in a structure plan are inconsistent with the scheme, they must be incorporated into the scheme via a scheme amendment prior to the local government advertising or adopting the structure plan.
