PLANNING AND DEVELOPMENT ACT 2005
DECLARATION OF PLANNING CONTROL AREA 117
Cities of Melville and South Perth

Canning Highway between Riseley Street and Henley Street

File: 835/2/17/2

General description

The Minister for Planning has granted approval to the declaration of a planning control area over the land identified for the proposed Canning Highway planning design concept between Riseley Street and Henley Street as shown on Western Australian Planning Commission (WAPC) plan numbers 1.7369, 1.7370, 1.371, 1.7372 and 1.7373.

Purpose

The purpose of the Planning Control Area is to protect the land required for future road upgrading of Canning Highway to ensure that Canning Highway would operate effectively in the long term and continue to provide the regional road functionality that is needed to support the overall development and viability of the centres that it connects such as Fremantle, Perth and Canning Bridge.

The WAPC considers that the planning control area is required to ensure that no development occurs on this land which might prejudice this purpose until it may be reserved for regional roads in the Metropolitan Region Scheme.

Duration and effects

The declaration remains in effect for a period of five years from the date of publication of this notice in the *Government Gazette* or until revoked by the WAPC with approval by the Minister, whichever is the sooner.

A person shall not commence and carry out development in a planning control area without the prior approval of the WAPC. The penalty for failure to comply with this requirement is \$200,000 and, in the case of a continuing offence, a further fine of \$25,000 for each day during which the offence continues.

Compensation is payable in respect of land injuriously affected by this declaration, and land so affected may be acquired by the WAPC in the same circumstances and in the same manner as if the land had been reserved in the Metropolitan Region Scheme for a public purpose.
