CONSERVATION AND LAND MANAGEMENT ACT 1984

PROPOSAL TO RESERVE WESTERN AUSTRALIAN WATERS DRAFT JOINT MANAGEMENT PLAN

Proposed Lalang-garram / Horizontal Falls Marine Park, proposed North Lalang-garram Marine Park, and proposed Oomeday National Park

Notice is hereby given under section 14 of the *Conservation and Land Management Act 1984* (CALM Act) of a proposal to reserve Western Australian waters under CALM Act section 13(1) as two marine parks in the west Kimberley area. Notice is also given that it is proposed that the marine parks will be classified as Class A under CALM Act section 13(4).

Notice is also given under section 57 of the CALM Act to advise that the *Proposed Lalang-garram / Horizontal Falls and North Lalang-garram marine parks and Proposed Oomeday National Park draft joint management plan* is available for public comment.

A draft joint management plan has been prepared in partnership with Dambimangari Traditional Owners outlining how the proposed Lalang-garram / Horizontal Falls and North Lalang-garram marine parks, and Oomeday National Park would be managed. This plan includes a map and details of the proposed boundaries, marine park management zoning and management strategies for the proposed marine and national parks. It is proposed that all parks will be jointly managed by Dambimangari Traditional Owners and the Department of Parks and Wildlife. The proposed parks will be reserved subject to compliance with the *Native Title Act 1993* (Commonwealth). In addition, Section 57(2) of the CALM Act requires the preparation of management plans under the CALM Act to have the objectives of protecting and conserving the value of the land to the culture and heritage of Aboriginal persons.

The proposed class 'A' Oomeday National Park lies about 110km generally north of Derby. The area proposed to become national park is currently part of Reserve 30674 (Aboriginal Lands Trust land) and island areas of unallocated Crown land down to high water mark. It includes the area known as Horizontal Falls.

PROPOSED MARINE PARKS

Marine parks are created to protect natural features and aesthetic, scientific and educational values while at the same time enabling compatible recreational and commercial uses (the statutory purpose of marine parks is provided in CALM Act section 13B(1)).

Situated in the Indian Ocean, the proposed Lalang-garram / Horizontal Falls Marine Park comprises Western Australian waters, the airspace above those waters, the seabed below those waters, and the subsoil to a depth of two hundred metres below that seabed that are—

- (a) contained within and bounded by a line—
 - (i) commencing north-east of Koolan Island at the intersection of latitude 16°03'00" south and longitude 123°48'12" east; and
 - (ii) extending east along that latitude to longitude 124°25'00" east;
 - (iii) thence north along that longitude to the high water mark of the mainland;
 - (iv) thence generally north-easterly, generally south-easterly, again generally north-easterly, again generally south-easterly, generally south-westerly and generally north-westerly along the high water mark, into Doubtful Bay, past George Water, up and down the tidal reaches of the Glenelg River, again past George Water and around Doubtful Bay to Raft Point;
 - (v) thence generally southerly and generally south-westerly along the high water mark to the seaward entrance of Walcott Inlet;
 - (vi) thence generally south-easterly, generally north-easterly, generally easterly and again generally south easterly along the high water mark of the northern bank of that inlet, to the intersection of that water mark and the boundary of the Wanjina-Wunggurr Dambimangari Native Title Determination Area located in the upper reaches of that inlet;
 - (vii) thence southerly and south-westerly along that boundary, and along the high water mark where that boundary intersects that water mark, across that inlet to the intersection of that boundary and the high water mark on the southern bank of that inlet;

- (viii) thence generally north-westerly, generally westerly, and again generally north-westerly along the high water mark of that southern bank to the seaward entrance of that inlet;
- (ix) thence generally south-westerly, generally south-easterly, again generally south-westerly, generally northerly and generally north-westerly along the high water mark, around Secure Bay and Collier Bay, to the seaward entrance of Talbot Bay;
- (x) thence generally south-easterly, generally north-westerly, generally southerly, again generally north-westerly and generally north-easterly along the high water mark, around Talbot Bay, Dugong Bay and again around Talbot Bay, to the intersection of that water mark and latitude 16°10'54" south on the south-western bank of The Canal;
- (xi) thence east along that latitude, across that canal, to the intersection of that latitude and the high water mark on the north-eastern bank of that canal;
- (xii) thence generally south-easterly, generally northerly and generally north-westerly along the high water mark to the intersection of that water mark and longitude 123°48'00" east that is nearest latitude 16°11'25.20" south;
- (xiii) thence north along that longitude to the intersection of that longitude and the high water mark that is nearest latitude 16°11'23.40" south;
- (xiv) thence generally easterly, generally south-easterly, generally north-easterly, generally north-westerly and generally westerly along the high water mark to the intersection of that water mark and longitude 123°48'12" east that is nearest latitude 16°11'16.20" south;
- (xv) thence north along that longitude, and along the high water mark where that longitude intersects that water mark, to the point of commencement; and

(b) within that line, seaward of the high water mark of all islands.

Situated in the Indian Ocean, the proposed North Lalang-garram Marine Park comprises Western Australian waters, the airspace above those waters, the seabed below those waters, and the subsoil to a depth of two hundred metres below that seabed that are—

(a) contained within and bounded by a line—

- (i) commencing north-east of Booby Island at the intersection of the seaward limit of the coastal waters of the State and the northernmost north-eastern boundary of the Wanjina-Wunggurr Dambimangari Native Title Determination Area; and
- (ii) extending south-easterly along that boundary to the intersection of that boundary and the high water mark of the mainland that is nearest the point at latitude 15°09'30.60" south longitude 124°50'28.20" east;
- (iii) thence generally south-westerly and generally north-westerly along the high water mark to incorporate the unnamed bay east of Cape Wellington;
- (iv) thence from the intersection of high water mark and the northernmost north-eastern boundary of the Wanjina-Wunggurr Dambimangari Native Title Determination Area that is nearest the point at latitude 15°09'23.40" south longitude 124°50'11.70" east, extending generally south-westerly, generally south-easterly, and again generally south-westerly along that water mark, past Cape Wellington, to the intersection of that water mark and the geodesic joining the point at latitude 15°10'51.60" south longitude 124°50'06" east and the point at latitude 15°12'00" south longitude 124°48'45" east;
- (v) thence south-westerly along that geodesic to the south-westernmost point of that geodesic;
- (vi) thence west along latitude 15°12'00" south to the intersection of that latitude and the seaward limit of the coastal waters of the State;
- (vii) thence generally north-easterly along that limit to the point of commencement; and

(b) within that line, seaward of the high water mark of all islands.

Notes—

- (1) All geographic coordinates are expressed in terms of the Geocentric Datum of Australia 1994 ('GDA94').
- (2) Boundary positions as described are subject to survey.
- (3) 'Western Australian waters' means all waters—
 - (a) that are within the limits of the State; or
 - (b) that are 'coastal waters of the State'.
- (4) 'coastal waters of the State' has the meaning given to that term in the *Coastal Waters (State Powers) Act 1980* (Commonwealth) section 3(1).
- (5) 'High water mark' means the ordinary (mean of) high water mark at spring tides as defined in the *Land Administration Act 1997* section 3(1).
- (6) 'Wanjina-Wunggurr Dambimangari Native Title Determination Area' means the area the subject of the determination of native title made by the Federal Court of Australia in *Barunga v State of Western Australia* [2011] FCA 518.

Under CALM Act section 62(1a), the proposed Lalang-garram / Horizontal Falls Marine Park is intended to be zoned for management purposes by classifying the areas as general use area, sanctuary area and special purpose area for recreation and conservation.

The primary purpose of the special purpose areas (recreation and conservation) is to provide for conservation of ecologically and culturally important marine ecosystems, whilst continuing to allow for recreation, tourism and compatible commercial activities. The following activities are considered to be incompatible with the purpose of these areas: commercial prawn trawling; commercial gillnet fishing; ground-disturbing mineral and petroleum exploration and development; artificial structures; wildlife/fish feeding; and vessel sewage discharge. In addition, ship loading and other mining related infrastructure (e.g. ship loading docks, cabling or pipelines) will also be prohibited in *Jaanya Special Purpose Zone (recreation and conservation)*.

Under CALM Act section 62(1a), the proposed North Lalang-garram Marine Park is intended to be zoned for management purposes by classifying the area as general use.

SUBMISSIONS

Any person may make a written submission on this proposal and all persons with an interest in the proposal are encouraged to do so. Written submissions will be considered as part of the finalisation of this proposal.

BUSH FIRES ACT 1954

City of Bunbury

BUSH FIRE NOTICE AND REQUIREMENTS

Owners or occupiers of land within the City of Bunbury are notified they must comply with the *Bush Fires Act 1954* (the Act) and carry out annual fire-prevention work, as set out in this notice.

All properties within Bunbury are subject to loss due to embers from nearby fires landing within your yards. Most homes are lost through fires from ember attack.

It is an offence not to comply with the Act which carries a modified penalty of \$250 and a maximum penalty of \$5,000. With or without prosecution and in accordance with the Act, the City of Bunbury may enter the land and carry out the required work at the expense of the land owner/occupier.

Work must be completed no later than 30 November and kept maintained throughout the summer months until 10 May annually. Properties assessed as having a bushfire hazard rating of Very High or Extreme will be sent further information and suggested fire-protection strategies.

REQUIREMENTS

1. Private property (including residential, commercial and industrial)

- Where the area of land is 2024m² or less, all flammable material on the land is to be removed except living trees.
- Where the land area exceeds 2024m² provide a 3 metre firebreak free of all flammable material, immediately inside all boundaries and surrounding all buildings and haystacks. Where adjoining lots are held or used by the owner/occupier, firebreaks may be provided immediately inside the external boundaries of the group of lots. Total removal of flammable material from the property would be considered an acceptable alternative.

2. Fuel and gas depots

All flammable material must be cleared from land where there are containers used for liquid or gas-fuel storage including clearing all flammable material from any liquid or gas-fuel storage ramps or supports.

3. Plantations

Firebreaks 15 metres wide must be provided immediately adjoining all external boundaries of the planted area. The outer 10 metres must be cleared of all flammable material. The inner 5 metres, closest to the trees may be kept in a reduced fuel state by slashing or used for grazing provided the height of grass does not exceed 8cm. Plantations must be subdivided into areas not exceeding 30 hectares by firebreaks 6 metres wide. Firebreaks must be cleared of all flammable material and in the vertical plane a minimum height clearance of 5 metres from the ground level will be maintained above the firebreak.

4. Prohibited and restricted burning

The Prohibited Burning Period in the City of Bunbury district is from 30 December to 28 March annually. The Restricted Burning Periods in the City of Bunbury district are from 15 November to 29 December and from 29 March to 10 May annually. These dates may be varied according to seasonal conditions, but any changes will be publicly advertised.

5. Burning permits—bush, grass and garden refuse

Permits are required for any burning including garden refuse during the Restricted Burning Period as above. Burning of anything including bush, grass and garden refuse is totally prohibited from 30 December to 28 March annually. Burning permits will only be issued to owner/occupiers of land for hazard reduction burning until 30 November annually.

6. Campfires

Campfires are completely banned in the City of Bunbury from 15 November to 10 May annually.

7. Exemptions

If it is impractical to clear firebreaks as required by this notice or if natural features make firebreaks unnecessary, you may apply to the Council or its authorised officer until 15 November for permission to provide firebreaks in alternative positions or take other action to abate fire hazards. If permission is not granted the requirements of the notice must be complied with.
