### AGRICULTURE AND FOOD

#### AG401\*

#### AGRICULTURE AND RELATED RESOURCES PROTECTION (EUROPEAN HOUSE BORER) REGULATIONS 2006

##### CHITTERING, MURDOCH, CANNING VALE AND CHAMPION LAKES RESTRICTED MOVEMENT ZONES

Sites where pinewood is infested with European House Borer (EHB) has been found in the suburbs of Muchea, Canning Vale and Kelmscott. As a result, the areas identified below are determined to be the Chittering, Canning Vale and Champion Lakes Restricted Movement Zone (RMZ) under regulation 18A of the *Agriculture and Related Resources Protection (European House Borer) Regulations 2006*.

A new find of European house borer (EHB) in the suburb of Kardinya extends the Murdoch Restricted Movement Zone (RMZ) previously determined under regulation 18A of the *Agriculture and Related Resources Protection (European House Borer) Regulations 2006*. The Murdoch RMZ identified below replaces the identification of the Murdoch RMZ published in the *Gazette* on 3 September 2010.

Because of proximity to infested pinewood, the movement of pinewood in this area is restricted.

Details of the restrictions are as follows—

#### **Bringing untreated pinewood into RMZ**

Movement is not generally restricted. However, a person may be issued a written notice prohibiting pinewood movement into the RMZ if an authorised person believes that the presence of the pinewood in the RMZ will increase the risk of EHB spread.

#### **Removing pinewood from RMZ**

Untreated seasoned pinewood that has been in an RMZ for 72 hours or more must not be removed from that RMZ unless—

- The pinewood is pinewood pieces of less than 100 cm<sup>3</sup>; or
- The pinewood has been stored in a suitable building or enclosure or has been fully enclosed in plastic wrapping or other authorised material to prevent exposure to EHB; or
- The pinewood has been treated with a preservative in accordance with the relevant standards; or
- The pinewood has been chemically fumigated or heat treated in accordance with the regulations; or
- Written authorisation has been given by an authorised person.

Note: “seasoned pinewood” is pinewood that has a moisture content of 20% or less when tested in accordance with the Australian Standard.

**Unseasoned pinewood** must not be removed from a RMZ during the control period (from 1 September until 30 April) unless the movement is authorised by an authorised person.

Visit the EHB website at [agric.wa.gov.au/ehb](http://agric.wa.gov.au/ehb) or call 1800 084 881 for more information on the restrictions or for detailed maps of RMZs.
