## BUSH FIRES ACT 1954

*Shire of Gingin*

## FIREBREAK ORDER 2016/2017

Notice is hereby given to all landowners/occupiers within the Shire of Gingin, that bare earth cleared firebreaks must be installed and maintained from 1 November 2016 until 31 May 2017.

**80,000m<sup>2</sup> (20 acres / 8 Hectares) or larger**

Install and maintain a bare earth cleared firebreak, for a width of not less than three metres (3m), within the first five metres (5m) of the external boundaries of the property.

Trees must be trimmed back to provide a vertical clearance of a minimum three and a half metres (3.5m) to allow fire appliances to drive along the firebreak.

Install and maintain a 20m Building Protection Zone around all buildings, large hay stacks and fuel storage areas.

**Land larger than 4000m<sup>2</sup> (1 acre) and less than or equal to 80,000m<sup>2</sup> (20 acres / 8 Hectares)**

Install and maintain a bare earth cleared firebreak, for a width of not less than three metres (3m), within the first five metres (5m) of the external boundaries of the property.

Trees must be trimmed back to provide a vertical clearance of a minimum three and a half metres (3.5m) to allow fire appliances to drive along the firebreak.

On heavily grassed blocks a further 5 metre firebreak is required to be slashed to less than 50mm.

Install and maintain a 20m Building Protection Zone around all buildings, large hay stacks and fuel storage areas.

**Land less than or equal to 4000m<sup>2</sup> (1 acre)**

Slash the grass on the entire property to a height of less than fifty millimetres (50mm), and remove all dead flammable material.

Or

Install and maintain a bare earth cleared firebreak, for a width of not less than three metres (3m), as close as possible to the external boundaries of the property.

Trees must be trimmed back to provide a vertical clearance of a minimum three and a half metres (3.5m) to allow fire appliances to drive along the firebreak.

On heavily grassed blocks a further 5 metre firebreak is required to be slashed to less than 50mm.

**ALTERNATIVE ALIGNMENTS (VARIATION)**

If it is impractical to have a firebreak immediately inside a boundary for environmental or any other reason(s), you are required to notify the Shire of Gingin in writing, in order to obtain permission for firebreaks to be installed in an alternative position. Once approval is granted, there is no need to re-apply each year unless circumstances change.

Parcels of land that are **contiguously rated** do not require a variation and a shared firebreak may be installed around the boundary of all these lots.

Land in sub-divisions or developments need to have a firebreak installed in each individual lot unless a variation has been approved.

**PLANTATIONS****Tree Plantations of less than three hectares (3ha)**

Construct a ten metre (10m) wide bare earth cleared firebreak, immediately surrounding the plantation (adjacent areas of the same property subject to provisions as for Rural Areas).

**Plantations larger than three hectares (3ha)**

Construct a fifteen metre (15m) wide bare earth cleared firebreak, immediately surrounding the plantation (adjacent areas of the same property subject to provisions as for Rural Areas).

Internal firebreaks are required to be six metres (6m) bare earth cleared surrounding compartments of no larger than 30 hectares.

Trees must be trimmed back to provide a vertical clearance of a minimum three and a half metres (3.5m) to allow fire appliances to drive along all firebreaks.

A minimum water supply of 25,000 litres for every 50 hectares of plantation must be maintained, with a hardstand area provided for fire appliances to park when drawing water. Water sources must be located so as to allow for a maximum refill turnaround of 20 minutes from any area in the plantation.

**HARVEST/MOVEMENT OF VEHICLES BANS**

A ban on harvesting and the movement of vehicles in paddocks (except for the watering of stock) is likely to be imposed when the predicted weather conditions are classified by the Bureau of Meteorology as very high or extreme.

**ADDITIONAL RESPONSIBILITIES AND PENALTIES**

Persons who fail to comply with the requirements of this Order may be fined up to \$10000. In addition, Council can arrange for the required work to be carried out at the cost of the owner or occupier.

Gas or electric barbecues **ONLY** are permitted during Prohibited Burning Times. No solid fuel or wood barbecues allowed. Camping and Cooking fires are prohibited during the prohibited and restricted burning periods unless a valid permit has been issued by a Shire of Gingin Fire Control Officer.

A Permit to Burn must be obtained during Restricted Burning Periods. Permits are generally subject to a number of conditions but are **NOT valid for burning on Sundays or Public Holidays**, unless approved by the Chief Bush Fire Control Officer. Permits to burn must be obtained to burn any garden refuse during Restricted Burning Periods.

Prior to any burning, you are required to notify your neighbours, Fire Control Officer and the Shire of Gingin.

Besides being responsible for the safety of your own property, if a fire escapes from your property you may be liable to pay compensation for any damage caused outside of your property—this could be very costly.

Public infrastructure must not be placed in a manner that results in an above-ground encroachment into the firebreak area. Trees must not be planted in a manner that results in vegetation encroaching into the firebreak area.

**BURNING PERIODS****RESTRICTED BURNING PERIOD**

Permit to burn required from a Fire Control Officer

1 October 2016 to 21 November 2016

1 March 2017 to 31 May 2017

**PROHIBITED BURNING PERIOD**

22 November 2016 to 28 February 2017

**NO BURNING WITHOUT EXCEPTION**

Shire of Gingin Fire Control Officers are authorised to issue permits to burn on private land during the Restricted Burning Period. Fire Control Officers are also empowered to enter land and issue directives relating to fire suppression and control.

**CESM / CBFCO** Paul Postma

**DEPUTY CHIEF BUSH FIRE CONTROL OFFICERS**
