BUSH FIRES ACT 1954

FIREBREAK AND FUEL LOAD NOTICE 2017/2018

City of Kalamunda

Notice to Owners and/or Occupiers^{1*} of Land situated within the City of Kalamunda

As a measure to assist in the control of bushfires and pursuant to the powers contained in section 33 of the *Bush Fires Act 1954* (as amended), as the property owner or occupier of land within the City of Kalamunda, you are hereby required before 1 November 2017, or within 14 days of becoming an owner or occupier of land if after this date, to comply with the requirements set out in this notice.

The applicable works outlined below must be completed before 1 November 2017 and maintained up to and including 31 March 2018.

Persons who fail to comply with the requirements of this notice may be issued with an infringement notice penalty (\$250) or prosecuted with an increased penalty (maximum penalty \$5,000). Additionally, the City of Kalamunda may carry out the required work at cost to the owner/occupier.

1. Land, with a building on it, with an area greater than 5,000m²

You are required to—

- Have all flammable matter slashed, mowed or trimmed down by other means to a height no greater than 50mm across the entire property (living trees, shrubs, plants and lawn under cultivation are excepted).
- Install bare earth firebreaks three (3) metres wide immediately inside and along all boundaries of land in a continuous form, including on boundaries adjacent to roads, rail and drain reserves and all public open space reserves, with all overhanging branches, trees, limbs etc. to be trimmed back from over the firebreak area from ground level to a minimum height of four (4) metres. Driveways must also be maintained to these conditions.
- Ensure the roofs, gutters and walls of all buildings on the land are free of flammable matter.
- Install and maintain an Asset Protection Zone in accordance with the requirements set out in Part 4 of this Notice.

2. Land, with a building on it, with an area less than 5,000 m²

You are required to—

- Have all flammable matter slashed, mowed or trimmed down by other means to a height no greater than 50mm across the entire property (living trees, shrubs, plants and lawn under cultivation are excepted).
- Install a firebreak immediately inside all external boundaries of the property unless the property is maintained clear of flammable matter by slashing and mowing or maintaining living garden beds or lawn.
- Ensure the roofs, gutters, walls of all buildings on the land are free of flammable matter. Driveways must also be maintained to these conditions.
- Install and maintain an Asset Protection Zone in accordance with the requirements set out in Part 4 of this Notice.

* Please note that the *Bush Fires Act 1954* requires the owner or occupier of land to attend to all requirements in this Notice. The City may take action against either the owner or occupier of land for a failure to comply with this Notice at its absolute discretion.

3. All Vacant Land

You are required to—

- Have all flammable matter slashed, mowed or trimmed down by other means to a height no greater than 50mm across the entire property (living trees, shrubs, plants under and lawn under cultivation excepted).
- On vacant land larger than 1,000 m², install bare earth firebreaks three (3) metres wide immediately inside and along all boundaries of land in a continuous form, including on boundaries adjacent to roads, rail and drain reserves and all public open space reserves, with all overhanging branches, trees, limbs etc. to be trimmed back from over the firebreak area from ground level to a minimum height of four (4) metres. Driveways must also be maintained to these conditions. A Fire Control Officer may request firebreaks to be installed on vacant land under 1,000m² should they deem it necessary under Part 5 of this Notice to reduce risk of fire.

4. Asset Protection Zones

The area of land that extends out 20m from a habitable building or attached structure (for example verandas or gazebos) within the boundaries of a lot on which a habitable building is situated, is considered to be an Asset Protection Zone, also known as 'Building Protection Zone' (Asset Protection Zone).

In the Asset Protection Zone, unless an approved 'Alternative Bushfire Management Plan' is in place—

- Non-flammable managed vegetation, reticulated lawns and gardens and other non-flammable features are permitted only.
- All grass must be maintained to or under 50mm in height.
- Mature trees over five (5) metres in height must be under pruned to at least a height of two (2) metres from the ground (which means you must prune branches and leaves etc. from the ground up to the first 2 metres in height of the tree).
- Tree or shrubs over two (2) metres high must not be within 2 metres of a habitable building.

5. Additional Works

In addition to the requirements noted above, regardless of land size and location, the City of Kalamunda or its duly authorised officer(s) may require you to undertake additional works on your property to improve access and/ or undertake further hazard removal (Additional Works) where, in the opinion of an authorised officer, such Additional Works are necessary to prevent the outbreak and/or the spread of a bush fire.

6. Firebreak Variations

If you consider for any reason that it is impractical to clear firebreaks as required by this Notice, or if natural features render firebreaks unnecessary, you may apply in writing to the City of Kalamunda or its duly authorised officers, not later than 1 October 2017, for alternative positions, or other methods of fire prevention on your land.

If permission is not granted, you must comply with the requirements of this Notice. This applies to variations to the Asset Protection Zone as well. The Chief Bush Fire Control Officer reserves the right to review and revoke any variation granted.

Fuel Dumps and Depots

You are required to remove all flammable matter within ten (10) metres of where fuel drums, fuel ramps or fuel dumps are located, and where fuel drums, whether containing fuel or not, are stored.

By order of the City of Kalamunda,

RHONDA HARDY, Chief Executive Officer.

LG502

BUSH FIRES ACT 1954
Shire of Bridgetown-Greenbushes
2017/18 FIREBREAK ORDER

In accordance with Section 33 of the *Bush Fires Act 1954*, you are required to carry out fire prevention work on land owned or occupied by you as set out in this Order by the date specified.

If the requirements of this notice are not done by the due date, or not done to the satisfaction of an inspecting officer, an on the spot fine of \$250 will be issued. The maximum fine for failure to carry out the work is \$5000. Council can also enter upon the land and carry out required works at the owner/ occupier's expense.

If the requirements of this notice are not done by the due date, or not done to the satisfaction of an inspecting officer, an on the spot fine of \$250 will be issued. The maximum fine for failure to carry out the work is \$5000. Council can also enter upon the land and carry out required works at the owner/ occupier's expense.

1. DEFINITIONS

Firebreak means ground from which all flammable material has been removed and on which no flammable material is permitted to accumulate during the period specified in this notice.

Flammable Materials means accumulated fuel (living or dead) such as leaf litter, twigs, bark, grass over 50mm or 100mm (depending upon type of property as described in Parts 2, 3 and 4 of this Order), timber boxes, cartons, paper and any combustible material, capable of carrying a running fire but excludes living standing trees and shrubs.

Harvested Plantation means a plantation that has been clear felled but evidence of the former use of the plantation remains in the form of tree stumps, pruning, limbs and other accumulated tree refuse and logging residue.

Hay Stack means a collection of hay including fodder rolls placed or stacked together.

Managed Land means land over 4 hectares that is being *actively* used for agriculture, viticulture, horticulture etc and that such use is clearly evident, but excludes plantations.

Plantation means any area planted in pine, eucalypt or other commercial value trees (excluding orchards and vineyards) which have been planted for commercial gain, and requires approval under the Town Planning Scheme.

2. ALL LAND UNDER 4 HECTARES (10 ACRES)

By 15 November 2017 Until 26 April 2018

- (a) Remove all flammable material from the property except living trees and shrubbery and maintain throughout the required period, **unless used for cropping or pasture**. Height of grass not to exceed 50mm.
- (b) If the land is used for cropping or pasture, you are required to construct and maintain a 2 metre firebreak inside and along the boundary of the property as well as a 3 metre firebreak around all buildings and haystacks.

If choosing to forego firebreaks and instead remove flammable materials from the property it is the responsibility of the property owner for active fuel reduction to be completed on the property by 15 November and maintained throughout the period of this notice by means such as slashing, baling and grazing by an appropriate number of livestock. If choosing to carry out fuel reduction by grazing of stock it is the responsibility of the property owner to ensure that sufficient stock is used to ensure that all grass is reduced to a maximum height of 50mm by **15 November and retained at that height until 26 April**.

In order to guide property owners of land holdings suggested livestock rates are—1 cow and calf per 3 acres or 1 dry cattle per 1.5 acres or 5 dry sheep per 1 acre. These are suggestions only and it is the responsibility of the property owner to determine the required number of stock in order to achieve compliance by 15 November and to contain the flammable materials until 26 April.

3. MANAGED LAND OVER 4 HECTARES (10 ACRES)

By 15 November 2017 Until 26 April 2018

Managed land is not required to have perimeter firebreaks, although land owners and occupiers are encouraged to install them in strategic places to protect their property in the event of a fire.

Managed land must however comply with the following requirements—

There must be active fuel reduction done on the property throughout the period of this notice, by means such as grazing by an appropriate number of livestock, slashing and baling etc.

All buildings must have an access track not less than 4 metres in width and vertical clearance of 3 metres to allow access by fire appliances.

Around all buildings, haystacks and fuel storage areas, slash and remove all flammable materials likely to create a fire hazard, except living trees and shrubbery for at least 20 metres around the building, haystack and fuel storage area. Height of grass not to exceed 100mm.

4. UNMANAGED LAND OVER 4 HECTARES (10 ACRES)

By 15 November 2017 Until 26 April 2018

Remove all flammable materials from the property except living trees and shrubbery and maintain throughout the required period. Height of grass not to exceed 100mm.

OR ALTERNATIVELY

Construct and maintain a **3 metre** firebreak inside and along the boundary of the property and around all buildings and haystacks.

5. PLANTATIONS

By 1 November 2017 Until 26 April 2018

The first row of trees must be a minimum of 15 metres from all formed public roads.

A 10 metre firebreak to be constructed on the internal boundaries of the Plantation, along the boundaries of separate ownership, and all formed public roads.

A firebreak 6 metres wide shall be provided in such a position that no compartment of a plantation exceeds 30 hectares.

Where power lines pass through the plantation the clearing of vegetation must be in accordance with power supplier's specifications.

Trees adjoining the firebreak progressively pruned to a minimum height of 4 metres to maintain an effective width of firebreak.

6. PINE PLANTATIONS PLANTED PRIOR TO 1 MAY 1990

By 1 November 2017 Until 26 April 2018

A firebreak not less than 10 metres to be constructed on the internal boundaries of the Plantation, along the boundaries of separate ownership, and all formed public roads.

A firebreak at least 6 metres wide shall be provided in such a position that no compartment of a plantation should exceed 30 hectares.

7. EUCALYPT PLANTATIONS PLANTED PRIOR TO 1 MAY 1990

By 1 November 2017 Until 26 April 2018

A 5 metre firebreak to be constructed on the boundaries of the plantation, including the boundaries of each separate location and all formed public roads.

No planting will be allowed within a distance of 20 metres on either side of all power lines, and a 6 metre firebreak shall be provided as near as practical either side of the power lines.

Trees adjoining the firebreak progressively pruned to a minimum height of 4 metres to maintain an effective width of firebreak.

8. HARVESTED PLANTATIONS

Firebreak requirements for harvested plantations are the same as for plantations.

9. TIMBER MILLS

By 1 November 2017 Until 26 April 2018

Construct and maintain a **3 metre** firebreak inside and along the boundary of the property as well as a 10 metre firebreak around all piles of sawdust, woodchips, bark and waste material.

10. HARVESTING OPERATIONS

In addition to the above requirements, a drivable fire unit of at least 400 litres in operational condition (full of water and in good working order) is on site in the same compartment as the harvesting operations in plantations.

11. STUMP GRINDING

The use of a stump grinder during Restricted and Prohibited Burning Periods is only permitted if a drivable fire unit of at least 400 litres in operational condition (full of water and in good working order) be within 200 metres of the stump grinder in the same compartment.

12. ALTERNATIVES

If you consider it impracticable or environmentally damaging to carry out the requirements set out above, you can apply to Council by 1 October for permission to provide alternative firebreaks or other fire prevention measures. In the absence of written approval for alternative measures, the requirements of this Order must be adhered to.

13. SPECIAL REQUIREMENTS

The requirements of this Order are considered the **minimum** standard of fire protection required to protect not only the individual property but the community as a whole. Council can impose additional requirements to remove or abate hazards if it considers it necessary.

By Order of the Council,

T. P. CLYNCH, Chief Executive Officer.

CLASS EXEMPTION FOR SMALL LOCAL GOVERNMENT SEWERAGE AND/OR
 NON-POTABLE WATER SERVICES PROVIDERS

(Effective from 26 May 2017)

In accordance with section 7 of the *Water Services Act 2012*, the Hon Dave Kelly MLA, Minister for Water, has revoked the previous Class Exemption for small local government water services providers (dated 13 April 2017). The following notice now applies—

EXEMPTION NOTICE FOR SMALL LOCAL GOVERNMENT SEWERAGE AND/OR NON-POTABLE WATER SERVICES PROVIDERS

In accordance with section 7 of the *Water Services Act 2012*, the Hon Dave Kelly MLA, Minister for Water, has granted a class exemption from section 5(1) of the Act to local government water

services providers with less than 1000 customer connections whose water services are limited to the provision of sewerage services and/or non-potable water supply services.

The Act defines the terms 'water service', 'water supply service', 'sewerage service' and 'wastewater'.

The class exemption does not apply to potable water supply services (i.e. 'drinking water').

'Drinking water' is defined as water that is intended for human consumption or for purposes connected with human consumption such as the preparation of food, or the making of ice for consumption or for the preservation of unpackaged food, whether or not the water is used for other purposes.

The exemption will come into effect on the day it is published in the *Government Gazette* and will apply for a duration of five years.

The exemption will apply to the following local government authorities—

Shire of Brookton
Shire of Coolgardie
Shire of Dalwallinu
Shire of Denmark
Shire of Dowerin
Shire of East Pilbara
Shire of Goomalling
Shire of Jerramungup
Shire of Kent
Shire of Koorda
Shire of Moora
Shire of Morawa
Shire of Northam
Shire of Ravensthorpe
Shire of Victoria Plains
Shire of Wickpin
Shire of West Arthur
Shire of Yilgarn

Summary of reasons for the decision

Granting the exemption is not contrary to the public interest. It is considered that—

- the risk of the abuse of monopoly power in the provision of water services is low;
- the public health and environmental aspects of these water services are regulated under the *Health Act 1911* and the *Environmental Protection Act 1986*, respectively; and
- the exemption will reduce the regulatory and compliance costs associated with water services licensing, including—
 - o administrative costs to the service provider of licensing i.e. licence fees, annual regulatory reporting costs, the costs of operational audits and asset management system reviews every two to three years; and
 - o costs to Government for enforcing and administering water service licences.
