BIOSECURITY AND AGRICULTURE MANAGEMENT REGULATIONS 2013 QUARANTINE AREA NOTICE

Queensland Fruit Fly in Bentley, Como, Kensington, Karawara, and South Perth

- Under regulation 60 of the *Biosecurity and Agriculture Management Regulations 2013* (Regulations) the area of South Perth bordered by and including the area from Richardson Street (and a line extended from Richardson Street to the north boundary lane of Kwinana Freeway), western side of Labouchere Road, south western side of Angelo Street, eastern side of Coode Street, southern side of Mill Point Road, western side of Way Road, southern side of Canning Hwy, western side of Landsdowne Road, northern side of George Street, western side of southern side of Anketell Street, southern side of Harold Rossiter Park (northern boundary), eastern side of Kent Street, south western side of Devenish Street, western side of Northampton Street, southern side of Jarrah Road, western side of Allen Court and continuation to Jarrah Road, southern side of Hayman Road, western side of Marquis Street, southern side of McKay Street, western side of Keaney Place, northern side of Garvey Street, western side of Conlon Street, northern side of Manning Road, northern side of Wooltana Street and a line extended to the north bound lane of Kwinana Freeway (see website agric.wa.gov.au/qfly2018 for map) is declared to constitute a quarantine area until 2 November 2018.
- This quarantine area is declared because the declared pest *Bactrocera (Bactrocera) tryoni* (Froggatt, 1897) (Qfly or Queensland fruit fly) has been detected within the area.
- Each person who is the occupier of land within the quarantine area must ensure that any ripening fruit on plants or trees, or any fruit that has fallen to the ground from a plant or tree on that land is removed and disposed of every three days. Fruit means any host fruit of Queensland fruit fly listed in the tables below.
- Fruit is to be disposed of by eating the fruit, cooking (boiling or microwaving), freezing or solarisation (securing in a sealed plastic bag which is placed in direct sunlight for a period of three days).
- Persons other than inspectors must not move any non-commercially produced fruit from the quarantine area except in accordance with—
 - this notice; or
 - an approval under regulation 67 of the Regulations; or
 - a general exemption under regulation 71 of the Regulations.
- Non-commercially produced fruit is moved in accordance with this notice if it is moved after being either cooked (boiled or microwaved), frozen or solarised.
- Each person who is the owner or occupier of land in the quarantine area is taken to have been given a quarantine notice that applies to that land in the terms of this quarantine area notice.
- Failure to comply with this quarantine area notice could result in a fine, the Director General taking remedial action under section 133 of the *Biosecurity and Agriculture Management Act 2007*, or both.

Queensland Fruit Fly Hosts

Common Name	Scientific Name	Common Name	Scientific Name
Abiu	<i>Pouteria caimito</i>	Black Sapote	<i>Diospyros ebenum</i>
