In accordance with Section 33 of the *Bush Fires Act 1954*, you are required to carry out fire prevention work on land owned or occupied by you as set out in this Notice by the date specified.

If the requirements of this notice are not done by the due date, or not done to the satisfaction of an inspecting officer, an on the spot fine of \$250 will be issued. The maximum fine for failure to carry out the work is \$5000. Council can also enter upon the land and carry out required works at the owner/occupier's expense.

Flammable Materials means accumulated fuel such as leaf litter, twigs, bark, grass over 100mm in height, timber boxes, cartons, paper and any combustible material, capable of carrying a running fire but excludes living standing trees and shrubs.

Fuel Hazard has the same meaning as flammable material.

Flammable Fuel Storage includes all petroleum based liquids, Liquefied Petroleum Gas, Liquefied Natural Gas any other combustible liquid or gaseous fuel.

Harvested Plantation means a plantation that has been clear felled but evidence of the former use of the plantation remains in the form of tree stumps, pruning, limbs and/or other accumulated tree refuse and logging residue.

Hay Stack means a collection of hay including fodder rolls placed or stacked together.

Managed Land means land over 4 hectares that is being actively used for agriculture, viticulture, horticulture etc and that such use is clearly evident, but excludes plantations.

Plantation means any area planted in pine, eucalypt or other commercial value trees (excluding orchards and vineyards) which have been planted for commercial gain, and requires approval under the Town Planning Scheme.

2. ALL LAND UNDER 5000 SQUARE METRES (1/2 HECTARE OR LESS)

All buildings must have an access track not less than 3 metres in width and a minimum 4 metre vertical clearance to overhanging vegetation.

Around all buildings, haystacks and fuel storage areas, slash and remove all flammable materials likely to create a fire hazard, except living trees and shrubbery for at least 20 metres around the building, haystack and fuel storage area. Height of grass not to exceed 100mm.

If choosing to forego firebreaks and instead remove flammable materials from the property it is the responsibility of the property owner for active fuel reduction to be completed on the property by 15 November and maintained throughout the period of this notice by means such as slashing, baling and grazing by an appropriate number of livestock. If choosing to carry out fuel reduction by grazing of stock it is the responsibility of the property owner to ensure that sufficient stock is used to ensure that all grass is reduced to a maximum height of 100mm by 15 November and maintained at that height until 26 April.

4. ALL LAND OVER 4 HECTARES (10 ACRES)

BY 15 NOVEMBER 2019 UNTIL 26 APRIL 2020

A 10 metre wide firebreak shall be constructed along the internal boundaries of the Plantation, along the boundaries of separate ownership, and all formed public roads.

A firebreak 6 metres wide shall be provided in such a position that no compartment of a plantation exceeds 30 hectares.

Where power lines pass through the plantation the clearing of vegetation must be in accordance with power supplier's specifications.

6. HARVESTED PLANTATIONS

Firebreak requirements for harvested plantations are the same as for plantations.
