FIRE PREVENTION WORKS

The fire prevention work required on land is dependant on the land use as defined in this Notice. Should you be unsure of the category your land is classified as, please contact your local Fire Control Officer.

The specific requirements for each of the defined land types referred to in this Notice is as follows—

RESIDENTIAL LAND

- All flammable material/vegetation (except living trees) **MUST** be slashed or grazed to a height that does not exceed 40 millimetres.

SMALL HOLDINGS (Rural Residential)

- A firebreak (as defined), must be installed immediately inside and along all property boundaries, 2 metres in width and 4 metres in height.
- The firebreak may only deviate from a boundary up to 6 metres, to avoid established trees and /or other natural features that would make it impractical to be installed on the boundary.
- A 20 metre Asset Protection Zone (as defined) **MUST** be slashed to a height that does not exceed 80 millimetres and be free of all flammable material, vegetation (dead trees and branches) surrounding dwellings, sheds and all haystacks.
- All land on the Lot but outside the Asset Protection Zone (excluding the firebreak) that is not being actively grazed and or managed is to be maintained to a height not exceeding 100 millimetres.
- Hardstands, formed access ways and reticulated turf not exceeding a height of 40 millimetres and maintained in a green state may negate the need to install a firebreak in that area.
- **BURN PILES** can be kept and are approved if they are no closer than 20 metres from any structure.
- **FIREWOOD PILES** can be kept but are to be stored away from a dwelling during the Restricted and Prohibited burning periods.

LARGE HOLDINGS (Agriculture and General Farming)

- **NON IRRIGATED LAND**

A vehicle access track 4 metres in width which must include a 2-metre wide and 4 metres high fire break (as defined) shall be installed immediately inside and along the lot boundary where it adjoins a road or railway reserve.

The firebreak may only deviate from the boundary, up to 6 metres, to avoid established trees or other natural features, that would make it impractical to install a firebreak at that location.

- **IRRIGATED LAND** (as defined)

Firebreaks are NOT required on irrigated land that is being actively and regularly irrigated throughout the entire Restricted and Prohibited burning periods.

Irrigation channels that are situated inside and along a lot boundary will be accepted as a firebreak provided the irrigation channel is utilized on that property throughout the entire Restricted and Prohibited burning periods.

GENERAL NOTE

BURN PILES can be kept and are approved if they are no closer than 20 metres from any structure.

All FIREWOOD PILES can be kept but are to be stored away from a dwelling during the Restricted and Prohibited burning periods.

IMPORTANT NOTE—

Where land is not actively grazed or maintained for the duration of the Restricted and Prohibited burning periods, a Fire Control Officer may require the landowner to undertake mitigation works to reduce the risk of bushfire. These works may include—

- the installation of a vehicle access track 4 metres in width which includes a 2-metre wide and 4-metre-high firebreak as defined immediately inside and along all property boundaries; and/or
- The reduction of all flammable material including grass across the property to a height not exceeding 100 millimetres; and/or
- Undertake specific fire mitigation works as considered appropriate by the Fire Control Officer.

**MIXED BUSINESS, COMMERCIAL AND INDUSTRIAL LAND**

- All flammable material/vegetation (except living trees) **MUST** be slashed or grazed to a height that does not exceed 100 millimetres.
- Isolated flammable material such as dead tree and tree branches **MUST** be removed.
- **BURN PILES** can be kept and are approved if they no closer than 20 metres from any structure.

PLANTATIONS

- Bare Earth firebreaks of 15 metres in width and 4 metres in height must be maintained inside and along all boundaries of a plantation with 6-10 metre wide internal firebreaks between compartments.
- Where power lines pass through plantation areas, firebreaks must be in accordance with Western Power specifications.

Information for all property owners/occupiers

- All properties must be compliant with the Fire Prevention Order by 30 November each year.
- An inspection of properties will be carried out in all areas of the Shire of Dardanup by an Authorised Officer from 1 December each year.
- Action will be taken for non-compliance with the Fire Prevention Order.
- Penalties will apply and the Shire of Dardanup may carry out the required work and charge the cost to the owner/occupier.
- When firebreak is created by spraying, it is recommended that they be sprayed by the end of August and re-applied as required to ensure the Firebreak remains compliant.

Firebreak variations/exemptions

If it is considered impractical for any reason to install a firebreak or remove flammable materials from any land as required by this Notice, you are required to make written application on an Approved Form to the Shire of Dardanup **no later than 30 September each year**.

This application shall include a plan detailing the alternative fire mitigation measures to be taken on the land. Prescribed Firebreak Variation/Exemption Forms are available from the Shire of Dardanup offices or by visiting the Shire of Dardanup website. If your application for a variation/exemption is not granted, you **must** comply with the requirements of this Order.

Burning of Garden Refuse, Camping and Cooking Fires

Pursuant to Section 24G(2) and Section 25(1a) of the *Bush Fires Act 1954* and applicable to all persons, the burning of garden refuse and lighting of camping or cooking fires is prohibited within the Shire of Chittering during the Prohibited Burning Time. Furthermore, pursuant to Section 24G(2) of the *Bush Fires Act 1954* and applicable to all persons, the burning of garden refuse is prohibited within the Shire of Chittering during the Restricted Burning Times unless a valid permit to burn has been obtained from a Fire Control Officer. Other than during the RESTRICTED or PROHIBITED Burning Times, garden refuse may be burnt at any time, but care must be exercised. For all burning, please advise **DFES Communications Centre on 9395 9209**. Please note that excessive smoke from the burning of garden refuse may cause nuisance and annoyance to neighbours, other residents and danger to motorists.

It is an offence under the Health Local Law 2017 to burn damp, wet or green material causing excessive nuisance smoke. Please consider this and plan to minimise smoke. Please note it is also an offence to burn hazardous/toxic materials (e.g. tyres), household or commercial waste.

Wood Fired Ovens and Solid Fuel Barbecues in Restricted Burning Times

Wood fired pizza ovens and solid fuel barbecues in the open air do not require a Permit to Burn however, they may NOT be used in the restricted burning times unless the following conditions are met—

1. The Bureau of Meteorology Fire Danger Rating forecast is not High, Extreme or Catastrophic— at any time over the whole day.
2. The fire is only burning between 6pm and midnight, and completely extinguished when finished.
3. There is a minimum 5 metre firebreak, clear of flammable material surrounding the pizza oven or BBQ. (10 metre diameter).
4. At least 1 adult person is in attendance at all times.
5. The wood fired pizza oven or solid fuel BBQ is fitted with a spark arrester to the chimney and the door to the oven mouth (if specified and fitted by the manufacturer) is used to prevent the escape of embers and burning material.
6. There is a means of extinguishing a fire available at all times (e.g. garden hose, knapsack spray or fire unit).

Control of Operations Likely To Cause a Fire

Hot works including the operation of welding equipment and angle grinders, are activities likely to create a fire danger when used in the open air. A person shall provide at least one fire extinguisher at the place where welding or cutting operations are carried out and surround this place with a firebreak which is at least 5 metres wide.

A ban on hot works, harvesting and movement of machinery and vehicles is likely to be imposed on days of adverse fire weather conditions. For updates on these bans please ring the information line on **9576 4666** (recorded message) or register with the SMS warning system with the Shire to receive a text when a ban is implemented.

Harvesting Operations (including Stubble Processing)

The Shire will permit harvesting operations, including stubble processing, during the Restricted and Prohibited Burning Times on the following conditions—

- That a fully operational firefighting unit (inclusive of associated pump, hose system and a minimum of 600 litres of water is present) at all times.
- Harvesting operations, and stubble processing, are not permitted when the Shire has declared a Harvest and Vehicle Movement Ban, including Hot Works Activities.

In addition to the conditions above, Harvesting Operations (including stubble processing) on Sundays and Public Holidays will be permitted on the following conditions,

- The local Fire Control Officer (FCO) is notified.
- Two able-bodied adult persons are present during the harvesting operations, only one of whom may be harvesting.

Hot Works, Harvest and Vehicle Movement Bans will be in place for Christmas Day, Boxing Day and New Year's Day.

LOCAL BUSH FIRE CONTROL OFFICERS

Fire Control Officers are not obliged to issue permits and may advise on alternatives to burning. Please remember Fire Control Officers are volunteers and their availability to issue permits may vary, assist them by planning in advance. Permits cannot be issued over the phone and should a Fire Control Officer refuse to issue a permit, it is a breach of the Act to request a permit from another Fire Control Officer.
