His Excellency the Governor has directed the following to be published.

*By His Excellency's command,
PETER BROWN.*

*H. M. Col. schooner Champion,
Normulup, June, 17, 1842.*

I beg to inform you for the information of His Excellency the Governor, that having left King George's Sound on the 12th inst., and reached about twelve miles to the eastward of Cape D'Entrecasteaux, I fell in with a heavy gale of wind, which by noon the next day had driven us so far to the eastward that I deemed it prudent to run into Normulup; and, passing between the outer and inner islands, I found a clear deep passage about 1½ miles wide; the outer island has a ledge of rocks even with the water's edge, laying S.W. by S. about ¼ of a mile. The south side of the passage has a small reef extending about 100 yards off the island, or perhaps less. Hauling close round this, I anchored in 8 fathoms water, with the outer island bearing S.S.W. ¼ W., Rame Point E. of ½ S., and the inlet about W., distant ¾ of a mile. This bay, found between Rame Point and the black rocks, appeared clear, excepting off Rame Point, where I saw heavy breakers - at least 2½ or 3 miles, and affords ample accommodation in its west corner from any wind to the westward of S.W.: a

run in. Hoisting out my boat, I went and examined the entrance to the inlet, which I found about 200 yards wide, but more than half with heavy rollers on it, but keeping close to the south side I found a channel of from 14 feet to 6 feet, but not less, and about 20 yards wide; the entrance running nearly east and west for about 300 yards, then turned north about the same distance into a large sheet of water, whose greatest breadth was about N.E. and S.W. It was full of shoals, having, I have no doubt, passages through them. Its greatest breadth I estimate at 3½ miles, and its depth about two. The next day I again went into the inlet, and passing a small island near the N.W. point I found a river run-

ning, and pulling in found about 4 or 5 feet of about 30 yards wide, and running in a westerly direction; it was beautiful fresh water at its entrance. I went about two miles up and saw it still running some considerable distance beyond, undiminished in breadth, but very much deeper having 12 feet water. I stopt at a small white sandy cliff, the land on each side was very thickly timbered with white gum. The whole inlet abounds with wild fowl, and the river with fish.

I have the honor to remain, Sir,
Your obed't servant,

FRANK HELPMAN.

The Hon. the Colonial Secretary, Perth. }
