NOTICE TO MARINERS.

There being grounds for believing that, notwithstanding the publicity which was given in the month of March last, by direction of the Right Honorable the Lords Commissioners of the Admiralty, to the translation of a notice issued by the French Government, the alterations which have since been carried into effect in the Lights

at Cape Grinez and at Point d'Alpreck, have not become generally known, the said notice is now republished for the farther information of all persons employed in the navigation of vessels in the English Channel, viz:—

NOTICE TO MARINERS.

(Received from the French Government.)

Alterations in the Lights

*of Cape Grinez and of Point d'Alpreck,
on the S. side of the Straits of Dover.*

CAPE GRINEZ LIGHT.

The fixed light established on Cape Grinez in November, 1837, in latitude 50° 52' 10" N. and longitude 1° 35' 9" E. of Greenwich, will on the 1st of July next be converted into a revolving light, which will re-appear every half minute.

The additional flashing light established in 1838, near the above fixed light, will then be discontinued.

The new revolving light will be visible 8 leagues, and will be distinguished from that of Calais by the difference of their respective intervals, that of Calais being 90 seconds, and that of Grinez only 30 seconds; and further, the bright glares of Calais light are separated by perfect darkness, while in the intervals between those of Grinez, a faint light will be visible to vessels within the distance of four leagues.

LIGHT AT POINT D'ALPRECK.

On the same day, the fixed light on Point d'Alpreck, in latitude 50° 41' 37" N. and longitude 1° 33' 54" E., will every two minutes change into flashes of red light, which are to continue for three seconds.

This light will not be visible more than four leagues.
