

THE WESTERN AUSTRALIAN
GOVERNMENT GAZETTE.

[PUBLISHED BY AUTHORITY.]

Tuesday, SEPTEMBER 7th, 1858.

No. 35.

*Colonial Secretary's Office, Perth,
September 2nd, 1858.*

HIS Excellency the Governor has been pleased to direct the publication, for general information, of the following description of a Lighthouse which has been erected on the north-western extremity of Kangaroo Island.

By His Excellency's command
FRED. P. BARLEE,
Colonial Secretary.

NOTICE TO MARINERS.

THE Master and Wardens of the Trinity House of South Australia hereby Give Notice, that the LIGHT on Cape Borda was first exhibited on the evening of the 13th July, 1858, and will continue to be exhibited every night from sunset to sunrise.

Cape Borda lies in lat. 35 deg. 45' 20" south, long. 136 deg. 38' 0" east and is a bold cliffy headland 480 feet above the sea level.

The Lighthouse is a square stone tower, and stands thirty (30) feet from the ground, on the summit of a small mound, about five hundred (500) yards from the edge of the cliffs. The total height of the Lantern is therefore five hundred and ten (510) feet above the level of the sea.

The Light which is on the catoptric principle, exhibits a Bright and Red Flash alternately every half-minute ($\frac{1}{2}$ -minute), and may be seen on an arc extending from N. 60 deg. E. to S. 35 deg. W. (round by west). The Bright Flash may be seen at a distance of Thirty (30) Miles, in clear weather; but the Red Light will not be visible more than about half that distance, therefore when the Red Light is not distinguishable, the Bright Light only will appear at intervals of one minute.

Vessels approaching Cape Borda from the South-west should keep the Light well

open of the high land to the southward of the Cape to avoid the Reef off Cape Bedout, the western extremity of the Island. Vessels bound up Investigator's Straits, after having rounded Cape Borda, should keep the Light quite clear of the high land to the eastward of it, on a S.W. by W. bearing until Cape Forbin is passed, when it may be shut in with the high land.

Vessels bound down Investigator's Straits should not bring the Light to bear to the westward of S.W. by W.

The above bearings are magnetic, the variation being 5° east.

B. DOUGLAS,
Master of the Trinity House,
South Australia.
