GOD SAVE THE QUEEN ! ! !

NOTICE TO MARINERS.

*Colonial Secretary's Office, Perth,
September 18th, 1860.*

HIS Excellency the Governor has been pleased to direct the publication of the following Notice for general information.

By His Excellency's command,
FRED. P. BARLEE,
Colonial Secretary.

NOTICE TO MARINERS.

The Treasury, New South Wales,
16th August, 1860.

HIS Excellency the Governor General directs the publication of the following notice respecting the exhibition of a Light at the new Light House, near Jervis' Bay.

E. C. WEEKS.

NEW SOUTH WALES.

EAST COAST OF AUSTRALIA—LIGHT HOUSE NEAR JERVIS' BAY.

The bearings given are magnetic, the distances are in nautical miles, and the variation is 10° 15' E.

A white stone tower has been erected on a prominent headland, situated 2½ miles south of the southern bluff (Bowen Island) of Jervis' Bay, and 2 miles north of the projection known as Cape St. George, on the coast of New South Wales, from which a light will be exhibited on and after the 1st of October next.

The Tower is 61 feet high, and the centre of the Light will be 224 feet above

high water level, and will be visible in all directions of the horizon from north 27° E, round by the eastward to south 0° 40' W.

It will also be visible 19° 52' further to the westward over a sloping hill, situated to the southward of the Light House, but only when at a considerable distance to the southward of the same.

The Light is on the Catoptric principle of the 3rd class, and revolving, exhibiting at intervals of 30 seconds a red, green, and white light alternately.

The intensity of the *white* light is visible from an elevation of 16 feet, in clear weather, at a distance 20 miles, while its green and red rays vanish at a distance of 15 miles.

The Latitude is 35° 9' 15" S., and the Longitude 150° 47' 48" E.

Vessels coming from the south will open this light over the sloping hill to the southward of it, on a bearing of north 20° 32' E.; caution must, however, be observed in approaching Cape St. George (a low, dangerous, rocky point, on which the sea breaks), and when within a distance of 8 miles, or thereabouts, the light should not be brought to bear to the northward of north 10° W., as, when a vessel is near the land, to the southwestward of this bearing, it will be partially, if not wholly, obscured, but by standing to the eastward it will gradually open out, and when bearing north 25° W., or N.N.W. $\frac{1}{4}$ W., it may be passed with safety at a distance of from one to two miles.

Vessels from the southward should always endeavour to make this Light, so as to prevent being embayed in the deep indentation lying to the westward of the Cape designated "*Wreck Bay*."

Vessels approaching from the northward will open this Light clear of "*Crocodile Head*," on a bearing of south 27° west, and by keeping it in view may pass in safety to the south, at an offing of from one to two miles.

Vessels entering Jervis' Bay (a "good and safe anchorage in all winds) will shut the Light in with the north end of "*Bowen Island*," on a bearing of south $\frac{1}{2}$ W.

*Colonial Secretary's Office, Perth,
6th September, 1860.*

HIS Excellency the Governor directs it to be notified for general information, that no licenses will in future be issued for cutting timber on Crown Lands within a circle of two miles from the Government Saw Pits on York Green Mount, and any person who after this Notice, is found cutting timber within the above limits will be prosecuted as a trespasser.

By His Excellency's command,
FRED. P. BARLEE,
Colonial Secretary.
