IN order to remove all doubt as to the existence of a sunken danger about 52 miles true West by South from the west end of Rottneest Island, as reported in June, 1864, by the commander of the schooner "Beaver," and then called "Beaver Reef,"—it is hereby notified that the said reef is reported by Mr. Laing, commanding the schooner "Gift," to have been seen by him on the 15th instant, breaking heavily, in very nearly the position above indicated.

The reef appeared to extend about half a mile in a North and South direction, and soundings were had in 15 to 18 fathoms water a quarter of a mile from its south end.
