

Government Gazette

OF

WESTERN AUSTRALIA.

[Published by Authority.]

No. 47.]

PERTH: TUESDAY, OCTOBER 22.

[1878.

No. 178.—C.S.O.

*Colonial Secretary's Office,
Perth, 19th October, 1878.*

HIS Excellency The Governor directs the publication of the following Despatch, for general information.

By His Excellency's Command,
ROGER TUCKER^D. GOLDSWORTHY,
Colonial Secretary.

$\frac{E}{2}$
WESTERN AUSTRALIA.
No. 44.

Downing Street,
22nd August, 1878.

SIR,

With reference to your Despatch No. 43 of the 6th May last, I have to inform you that I have extended, with half salary, for nine Months, commencing from the 16th of this month, the leave of absence granted to Dr. Rogers, District Surgeon, Albany.

I have, &c.,
M. E. HICKS-BEACH.

The Officer Administering the Government
of Western Australia.

No. 179.—C.S.O.

*Colonial Secretary's Office,
Perth, 19th October, 1878.*

HIS Excellency the Governor has been pleased to appoint JOHN FORREST, Esquire, to be a Justice of the Peace for this Colony.

By His Excellency's Command,
ROGER TUCKER^D. GOLDSWORTHY,
Colonial Secretary.

No. 177.—C.S.O.

*Colonial Secretary's Office,
Perth, 17th October, 1878.*

HIS Excellency the Governor directs the publication of the following Notices to Mariners, for general information.

By His Excellency's Command,
ROGER TUCKER^D. GOLDSWORTHY,
Colonial Secretary.

Hydrographic Notice.

[No. 13.]

AUSTRALIA DIRECTORY, VOL. I.

NOTICE No. 4.

The following information relating to dangers on the south coast of Australia and Bass Strait, together with an account of the tidal stream in Bass Strait, has been received between the years 1876 and 1878.*

(All Bearings are Magnetic. Variations in 1878.)

Cape Leeuwin 6° 0' Westerly | Spencer Gulf 4° 0' Easterly.
Streaky Bay 2° 30' Easterly | Craggy Isle 10° 0' Easterly.

GEOPAPHE REEF on which the sea breaks constantly during bad weather, but only at uncertain intervals in moderate weather, lies S.W. 3½ miles from Cape Hamelin, and N.W. by W. ¼ W. about 8 miles from Cape Leeuwin; this reef consists of two small rocks with shallow water over them, and deep water between, about one cable apart in a N.W. and S.E. direction. St. Alouarn island well open southward of Cape Leeuwin bearing S.E. by E. ¾ E. leads south, and a conspicuous sand patch north of Cape Hamelin N.E. ½ N. leads west of Geopaphe reef.†

RAMBLER ROCKS, said to be even with the water's edge and to have been seen at 12 or 15 miles W.S.W. from the sand patch north of Cape Hamelin, could not be seen from the high land in the vicinity of Cape Hamelin. From this evidence, and from the fact that a small coasting steam vessel has passed around Cape Leeuwin twice a month for a period of four years, without seeing any indication of these rocks, they are for the present supposed to be identical with Geopaphe reef.‡

STREAKY BAY.§—In the north-west of Streaky Bay lies a dangerous patch of rocks about one cable in diameter on which the sea breaks heavily at times; the least water obtained on it was five fathoms with 14 to 18 fathoms at a distance of half a mile around. From the centre of this patch of rocks Brown Point bears N.W. ½ W. 4½ miles, and hill on De Mole Point N.N.E. ¾ E. 6½ miles.

DASHWOOD ROCK, near the centre of Streaky Bay, on which the sea breaks only with a heavy swell, is about 50 feet in diameter, and has 9 feet water with 6 to 7 fathoms at a quarter of a mile around. From the centre of this rock the west extreme of Cape Bauer bears S. ¼ E. 6 miles; centre of Olive Island S.W. by S. 7½ miles; and hill on Eba Island E. by S. ¼ S. 11 miles.

SPONGE ROCK with 5 feet water and 3 fathoms close around, lies on the west side of the anchorage in Blanche Port, southernmost part of Streaky Bay. From the centre of this rock Gibson Point bears N. ¾ E., and Crawford landing E. by N. ½ N.

SPENCER GULF.—The Colonial steam vessel *Governor Musgrave*, 1876, scraped over a shoal one mile from the shore and bearing East nearly from Secret Rock, west side of Spencer Gulf. At

the time the extreme of Bollingbroke Point bore S.W. $\frac{1}{2}$ W.; immediately after clearing the shoal a depth of $4\frac{1}{2}$ fathoms was obtained.†

BREAKERS.—The Commander of the *Governor Musgrave* has reported the existence of heavy breakers about $2\frac{1}{2}$ miles off the south-west point of York Peninsula, bearing W. by N., distant about one mile from Emmes Reef. At the time the breakers were seen, a moderate south-west gale was blowing, with a high sea.

This bearing and distance places the danger in lat. $35^{\circ} 18' 40''$ S., long. $136^{\circ} 47' 30''$ E.‡

BASS STRAIT.—Squirrel Rock on which the barque *Flying Squirrel* was stated to have been wrecked in 1876, at about 4 miles N.E. by N. from Sea Elephant Rock, was carefully searched for by Staff Commander H. J. Stanley, R. N., in January, 1877, no indication of a sunken rock near the position assigned, nor any trace of shoal water could be found at a greater distance than was known to exist, viz., $1\frac{1}{2}$ miles in a northerly direction from Sea Elephant Rock.

This danger has consequently been expunged from the Admiralty Charts.**

FURNEAUX GROUP.—Craggy Rock.—In the fairway of the channel between Craggy Isle and Flinders Island, at $2\frac{1}{2}$ miles S.E. $\frac{1}{2}$ S. from Craggy Isle, lies a rock (Craggy Rock) with 24 feet water over it, and probably less, having 16 to 17 fathoms close around.††

TASMANIA, NORTH-EAST COAST.—Mussel Bay.—A shoal (Cockle Bank) with 19 feet over it at low water, bears W.N.W. from Rocky Head, distant 2 miles.

HARRY ROCK, lying N.W. by W. $\frac{1}{2}$ W., nearly 3 miles from Swan Island lighthouse, has 16 feet over it at low water, instead of 18 feet, as previously reported.†††

BASS STRAIT.—Tidal Stream.—At the eastern part of the fairway of Bass Strait, the flood stream comes from the eastward in a direct line from the Furneaux group towards Hunter and King islands. At these islands this tide is met by a flood stream coming from the south-westward; the high tide thus made by the junction of the two streams occurs at King Island $3\frac{1}{2}$ hours after it is high water at the Furneaux group, or at 2 hours full and change.

Vessels proceeding eastward from the neighborhood of King island will find the tidal stream against them, of longer duration than the stream in their favor††

[No. 20.]

AUSTRALIA DIRECTORY, VOL. II.

NOTICE No. 24.

ELIZABETH REEF.

Elizabeth reef (discovered by the ships *Claudine* and *Marquis of Hastings* in the year 1820, and named after the *Elizabeth* wrecked in 1831), is about $4\frac{1}{2}$ miles long in an east and west direction, and 3 miles broad north and south. The centre of this reef according to the observations of Captain H. M. Denham, H.M.S. *Herald*, 1856, who examined the locality, is in lat. $29^{\circ} 56' S.$, long. $159^{\circ} 4\frac{1}{2}' E.$, or nearly 300 miles eastward of Cape Byron, the nearest part of New South Wales, and 90 miles N. by W. from Lord Howe Island. It thus lies near the route of vessels bound from port Jackson and Newcastle by the Middle route to China; and to the northern Pacific ports of America.*

The reef is circular and encloses a central lagoon. According to the observations of Lieutenant G. E. Richards, R.N., H.M.S. *Renard*, who surveyed it in February, 1878, the reef uncovers at half tide, and at high water with easterly and south-easterly winds there is but little break on the western and north-western sides. From the masthead of a vessel the reef might under other and more favourable circumstances be seen about 5 miles distant; but vessels approaching the reef from the westward should be cautious, especially in the forenoon when the sun would be ahead and thus prevent the breakers on the eastern and far-side being distinguished until the vessel was too close to avoid danger. On the north-west side of the reef is a sand-bank which covers at high water.

Within a distance of half a mile soundings varying from 40 to 55 fathoms will be found, thence shoaling towards the reef, except to the north-west of the sandbank where the 20 fathoms-line of soundings is a mile from the reef. Outside the limits mentioned the soundings deepen quickly to no bottom at 100 fathoms.

ANCHORAGE.—There is fair anchorage in 10 to 17 fathoms, coral grit, on the north-west side of the reef about half a mile off the sand bank, with protection from the prevailing winds, East and S.E. Abundance of fish may be caught both inside and outside the reef, and occasionally turtle.

The lagoon with the exception of the centre of the northern half is studded with coral patches most of which uncover at low water springs, and none of the patches have more than 9 feet water at any time. In the northern part the depths are 1 to 3 feet, coarse white sand and coral grit. The entrance, in the north-east part of the reef, open on a S.W. $\frac{1}{2}$ S. bearing, is a cable wide at the narrowest part and has 10 fathoms at low water springs. Small vessels might anchor within the entrance

in 12 to 24 feet bottom broken coral, and find shelter from all winds except N.E.: the passage is difficult and dangerous with easterly winds.

With an easterly wind boats can cross the reef at high water on either side of the sand bank situated on the north-west side of the reef.

CURRENT.—Elizabeth reef lies near the line of separation of two currents, one setting to the westward and the other to the eastward.† The equatorial current in the South Pacific in its progress westward strikes the east coast of New Caledonia and appears to divide into two branches, one setting north of that island and the other south. The southern branch sets north of Elizabeth reef and joins the Australian current, which, after setting to the southward along the east coast of Australia as far as about the parallel of 31° S. curves round to the E.N.E. This combined current sets to the eastward at the rate of 1 to $1\frac{1}{2}$ knots an hour; but an instance has been recorded in which it set at the rate of $4\frac{1}{2}$ knots.

The line of separation of the westerly and easterly currents during the period May to September inclusive, or when the S.E. trade prevails in the region south-east of New Guinea, appears to pass about 50 or 60 miles north of Elizabeth reef; while from November to March, the period when the N.W. monsoon prevails, it may pass 40 or 50 miles south. The currents in the neighbourhood of Elizabeth reef are thus exceedingly variable both in strength and direction; but it is probable that from May to September the current near Elizabeth reef sets to the eastward, and from November to March to the Westward.‡

Lieutenant Richards observed in the month of February that along the north-west and north sides of the reef within the distance of a mile the current set to the N.E., beyond that distance there was, particularly at the time of springs, a westerly set. Along the south side the set was easterly; rate about 2 miles an hour.

TIDES.—It is high water, full and change, at 8h. 30m., springs rise 8 feet, neaps 5 feet.

LIFEBOAT.—From the previous remarks the dangerous nature of Elizabeth reef, which has proved fatal to many vessels, will be evident.

For the purpose of succouring those wrecked on the reef a lifeboat has since the year 1871 been moored in the lagoon. At the time of Lieutenant Richards' visit the boat was found moored in 5 fathoms, in a small sheltered basin formed by coral patches. The boat is provided with necessary articles for making a voyage to the Australian continent, including provisions, medical stores, chart and compass, &c. Six casks of fresh water (each containing 15 gallons) are fitted as ballast as well as for use. It is requested that the following instructions be observed, viz. :—

That shipwrecked mariners will write a detailed account of their disaster with the names of the survivors and those lost, also the place they intend to make for; this document is to be deposited in the nun-buoy and left floating at the moorings.

Shipwrecked persons availing themselves of the lifeboat, should, if the wind be from the eastward steer for the north-west part of the reef in preference to the N.E. passage, as with such winds a heavy swell sets in, making the passage difficult and dangerous. There is a coral patch always breaking in a direct line from the boat to the entrance.

Navigators visiting the boat are requested to leave a report of their visit, with such intelligence as they may wish to communicate. If bound direct to an adjacent port, they are requested to forward any reports that may be found in the nun-buoy.

(Bearings are Magnetic. Variation $10^{\circ} 40'$ Easterly in 1878.)
Hydrographic Office, Admiralty, London,
10th June, 1878.

* See Admiralty charts—Pacific Ocean, south-west sheet, No. 759.

This notice supersedes the account of Elizabeth reef in Australia Directory, Vol. II, second edition, 1861, p. 301.

† See wind and current charts published by the Admiralty, 1872.

‡ H.M.S. *Acheron* in October, 1851, having been sent to the assistance of a shipwrecked crew on Elizabeth reef, was set in an E.N.E. direction 37 miles in 16 hours while in the vicinity of the reef on the east side, and W.N.W. 12 miles in 10 hours while on the western side.

No. 172.—C.S.O.

IMMIGRATION.

Colonial Secretary's Office,
Perth, 1st October, 1878.

NOMINATED Immigration being about to be resumed, any person wishing to apply for Free Passages from the United Kingdom for their friends, can obtain Forms of Application and all necessary information from the Immigration Agent at Perth, or the Resident Magistrate of the district in which they reside.

Applicants will be called upon to sign an agreement that such Nominated Immigrant will not cause any expense to the Government upon his or her arrival in the Colony.

Immigrants will also be called upon, prior to being furnished with a passage, to sign an agreement to remain three years in the Colony, or refund to the Colonial Government the cost of their passage from England.

By His Excellency's Command,
ROGER TUCKER^D. GOLDSWORTHY,
Colonial Secretary.

No. 173.—C.S.O.

Colonial Secretary's Office,
Perth, 11th October, 1878.

TENDERS (in duplicate, endorsed "Tender for (as the case may be) Mail,") will be received at this Office until noon of Friday, the 29th of November, 1878, for the conveyance of the undermentioned Mails for one, two, or three years, viz. :—

1. From Vasse to Warren River (Brockman's) *viâ* Lower Blackwood, and *vice versa*, twice a month, on horseback.
2. From York to Youndegin, and *vice versa*, *viâ* Dangin, Carrolling, and Mount Stirling, once a week, on horseback.
3. From Gingin to Yatheroo, and *vice versa*, once every four weeks, on horseback.
4. From Bannister to Wandering, and *vice versa*, three times a month, on horseback.
5. From Champion Bay to Cheangwa, and *vice versa*, once a month, on horseback.

The arrival and departure of the Mails will be subject to instructions from the Postmaster General, and liable to alteration at any time during the year.

Two approved sureties will be required to join the Contractor in a guarantee for the due fulfilment of the duties contracted to be performed.

Special Forms of Tender, with conditions attached, may be had on application to the various Resident Magistrates, and at the

General Post Office, Perth; and no tender will be entertained unless rendered on the prescribed form.

The Government will reserve to themselves the right to terminate the Contract at any time by giving three months' notice.

The Government do not bind themselves to accept the lowest or any Tender.

Further information may be had on application to the Postmaster General.

By His Excellency's Command,
ROGER TUCKERD. GOLDSWORTHY,
Colonial Secretary.

Registrar General's Office,
Perth, 15th October, 1878.

IT is hereby notified, for general information, that the undermentioned Minister of the Wesleyan Church has been duly registered for the Celebration of Marriages in this Colony:—

Name.	Place.	District.
Rev. Thos. Bird	Geraldton	Victoria.
LAURENCE S. ELIOT, Registrar General.		

Department of Public Works, Railway Branch,
7th October, 1878.

I HEREBY certify that the first thirty-one miles of the Geraldton and Northampton Railway may be safely used for goods and mineral traffic.

JAS. H. THOMAS,
Commissioner of Railways.

No. 176.—C.S.O.

Colonial Secretary's Office, Perth, 15th October, 1878.

HIS Excellency The Governor directs the publication of the following General Abstract of the Average Amount of the Liabilities and Assets of the National Bank of Australasia, for the Colony of Western Australia, for the Quarter ended 30th September, 1878.

By His Excellency's Command,
ROGER TUCKERD. GOLDSWORTHY, Colonial Secretary.

GENERAL ABSTRACT, shewing the Average Amount of the **LIABILITIES** and **ASSETS** of the **NATIONAL BANK OF AUSTRALASIA**, for the Colony of Western Australia, taken from the several Weekly Statements during the Quarter, from the 30th June to the 30th September, 1878.

JOHN FORREST, Acting Commissioner of Crown Lands.

DEPARTMENT OF LAND TITLES.

²¹/₁₈₇₈ Transfer of Land Act, 1874.

TAKE NOTICE that John James Glover of the city of Perth a police constable has made application to be certificated as the owner of an estate in fee simple in possession in the following parcel of land situate in Perth aforesaid viz. so much of

Suburban Lot S 39

as is bounded On the NE by 4 chains 79 links of Edward Street.

On the E by 2 chains 56 links of Claisebrook Street.

On the NW by another part of said Suburban Lot S 39 measuring 4 chains 52 links.

On the SE by 1 chain of Parry Street, and

On the S by 5 chains 30 links of Samson Street comprising an area of one acre three roods and thirty-eight perches or thereabouts.

AND FURTHER TAKE NOTICE that all persons claiming to have any estate right title or interest in the above parcel of land ARE HEREBY REQUIRED to lodge with the Registrar of Titles on or before the 18th day of November next a caveat forbidding the same from being brought under the Act.

J. C. H. JAMES,
Commissioner of Land Titles.

October 17th, 1878.

Comptroller's Office,

Fremantle, 19th October, 1878.

CERTIFICATES of Freedom have been issued to the undermentioned convicts, whose sentences have expired:—

Reg. No. 5756 James Osborne
" 9177 Henry Hall
" 10168 Francis Murray.

HIS Excellency the Governor has been pleased to revoke the Ticket-of-Leave of the undermentioned Convict:—

Reg. No. 9845 F. G. Parsons

JOHN F. STONE,
Superintendent.

Latest Edition.

THE "Elementary Education Act, 1871," (as amended by subsequent Acts,) with Regulations for the Conduct and Management of Elections of District Boards of Education, and By-Laws and Regulations of the Central Board of Education, in a pamphlet form, can be procured at the Government Printing Office, Price, 1s.

Transfer of Land Act, 1874.

F. HASTINGS JAUNCEY,
Registrar of Titles.

17th October, 1878.

I HEREBY give notice that I have applied to the Swan Roads Board for permission to close the road on the East side, and parallel with the Chittering Brook, running through my property.

JOHN O'NIEL.

Swan, 16th October, 1878.

MAIL NOTICE.

*General Post Office,
Perth, 18th October, 1878.*

MAILS for transmission to Europe, the Australian Colonies, &c., will be despatched as under:—

Overland to Albany for the Australian Colonies, New Zealand, Tasmania, and America, closing at:—

The General Post Office, Perth, on
Friday, October the 25th, at 8 a.m.

By Rob Roy to Albany, for Europe, India, Cape of Good Hope, &c., closing at:—

The General Post Office, Perth, Mon-
day, November 4th, at 1 p.m.

The Post Office, Fremantle, Monday,
November 4th, at 2 p.m.

The Post Office, Geraldton, Friday,
November 1st, at 8 a.m.

The Post Office, Bunbury, Monday,
November 4th, at 9 p.m.

The Post Office, Vasse, Monday, Novem-
ber 4th, at 10 p.m.

At the General Post Office, Perth:—

Money Orders for transmission by the above conveyances will be issued on the Australian Colonies, New Zealand, and Tasmania, up to 11 a.m. on Thursday, October 24th; and on the United Kingdom, up to 11 a.m. on Saturday, November 2nd.

Letters for Registration must be posted one hour before the closing of the Mails.

Late Letters, on payment of a fee of 6d., may be posted one hour after the closing of the Mails.

Newspapers must be posted one hour before the closing of the Mails, otherwise they will not be forwarded until the next Mail.

MA I L S for Albany, Bannister, Williams River, Arthur River, Kojonup, and the Albany Road, will be made up at this Office on Friday, October 25th, at 8 a.m.

A. HELMICH, Postmaster-General,
and General Superintendent of Telegraphs.
