PERTH: TUESDAY, AUGUST 22.

[1882.

No. 1248.—C.S.O.

*Colonial Secretary's Office,  
Perth, 19th August, 1882.*

IT is hereby notified, for general information, that His Excellency the Governor has received the following Despatch from Her Majesty's Secretary of State relative to the measurement of Russian vessels.

By His Excellency's Command,  
GIFFORD,  
Colonial Secretary.

Downing Street,  
1st July, 1882.

CIRCULAR.

SIR,—I have the honor to transmit to you, for publication in the Colony under your Government, a copy of a Declaration signed on the 9th of June between the British and Russian Governments on the subject of Tonnage Measurement.

I have, &c.,  
KIMBERLEY.

The Officer Administering  
the Government of Western Australia.

Declaration between the British and Russian  
Governments on the subject of Tonnage  
Measurement.

*Signed at London, June 9, 1882.*

THE English system of tonnage measurement (Moorsom's system) being henceforward in force as well in the Empire of Russia and the Grand Duchy of Finland as in the United Kingdom of Great Britain and Ireland, and in the British Colonies, the Government of Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, and the Government of His Majesty the Emperor of All the Russias, have agreed to the following Declaration:—

1. Russian and Finland vessels measured according to the above-mentioned system shall

be admitted into the ports of the United Kingdom and its Colonies; and British vessels measured according to the same system shall be admitted into the ports of Russia or Finland, without being subjected, for the purpose of payment of navigation dues, to any fresh operation of measurement.

The navigation dues above mentioned shall be calculated on the net tonnage.

2. The Finland and English Regulations respecting tonnage measurement being substantially the same, English Certificates of tonnage measurement shall, in the Grand Duchy of Finland, and Finland Certificates of tonnage measurement, taken out after the 31st May, 1877, shall, in the United Kingdom and its Colonies, be recognised, without any operation of measurement or other formality whatsoever; and the net tonnage of all British or Finland ships inscribed on the ship's papers shall be considered in the respective ports of each country as equivalent to the net register tonnage of national vessels.

3. English Certificates of tonnage measurement shall in Russia, and Russian Certificates of tonnage measurement, taken out after the 20th December, 1879  
1st January, 1880, shall, in the United Kingdom and its Colonies, be likewise reciprocally recognised in the ports of each country without any operation of measurement.

As, however, the provisions of the Russian Regulation do not entirely correspond to the English Regulations relative to the mode to be followed in the determination of crew spaces in ships, and machine and coal spaces in steamers, the deductions in respect of these shall, for English vessels in Russian ports, be calculated according to the figures shown in the Certificates of tonnage measurement, in conformity with the Regulation sanctioned the 20th December, 1879  
1st January, 1880, without remeasurement of the vessel.

This measure shall be applicable in British ports to Russian vessels touching there, if the captains of the said vessels shall express a desire to that effect; and, in such case, the

provisions of the Merchant Shipping Act of the 10th August, 1854, shall be complied with.

4. The above-mentioned arrangements shall apply also to vessels propelled by any other artificial power than steam.

The present Declaration shall come into operation on the 13<sup>th</sup> July, 1882, and shall remain in force so long as one of the Contracting Parties shall not have notified to the other six months in advance its intention of terminating it.

In witness whereof the Undersigned, duly authorised for this purpose, have signed the present Declaration, and have affixed thereto the seal of their arms.

Done, in duplicate, at London, the 25<sup>th</sup> day of May 9<sup>th</sup> day of June 1882.
