Colonial and Indian Exhibition, 1886.

A ROYAL Commission, of which His Royal Highness the Prince of Wales has been pleased to assume the Presidency, having been appointed for the purpose of organising and carrying out in London, during the year 1886, an Exhibition of the products, manufactures, and resources of the Colonial and Indian Empire, and a memorandum explaining fully the purposes of this Exhibition having, by order of His Royal Highness the Prince of Wales, been furnished for general guidance, with an invitation to this Government to join in bringing prominently under notice the development and progress of this Colony, His Excellency the Administrator, in order to carry out this object, has appointed a Commission for the purpose of collecting and forwarding such exhibits as will form a true and thorough representation of the industries, &c., of the Colony. At no period in its history has an Exhibition of this nature been of greater importance to its interests, both in regard to the present and the future.

During the past few years Western Australia has been attracting the attention of capitalists and others, as is evidenced by the various schemes for its development which have lately been prominently before the public.

It is therefore desirable that every endeavor should be made to have our resources fully represented.

The efforts of the Commission will be futile, unless seconded by the general public; it is therefore hoped that every assistance will be given, so that the exhibits of the industries, manufactures, and resources of the country may be of such a number and character as to render the Western Australian Court a success.

The space allotted to this Colony is ample, being 140 feet in length by 62ft. 6in. in breadth.

In order to secure a wide and complete representation, Sectional Committees have been organised, who will devote themselves more particularly to special subjects, viz.:

- Section 1.—*Staple Products*—Comprising wool, timber, pearl and pearl shells, tortoise shell, sandalwood, guano, gums, furs, copper, lead, and other minerals, &c.
- Section 2.—*Colonial Industries*—Agriculture, horticulture, preserves (fish, fruits, &c.), oils, wines, &c.
- Section 3.—*Arts and Manufactures*—Manufactures generally, including cases for exhibition, marble, stone work, &c.
- Section 4.—*Education and Science*—Statistics, history, geography, topography, anthropology, ethnology (aboriginals), botany, zoology, conchology, meteorology, &c.

The cost of transport within the Colony, together with the conveyance of the Exhibits to London, will be borne from the funds provided.

Local Committees for the collection of Exhibits will shortly be formed in every district.

Intending Exhibitors should communicate at an early date to the Secretary of the Commission, Perth, the full particulars of such Exhibits as they may desire to send.

By Order,
ALPIN F. THOMSON,

Secty. to the Commission.
