MALCOLM FRASER,  
Colonial Secretary.

*Bayswater and Busselton Railway.*

No. 89.

WESTERN AUSTRALIA.

Government House, Perth,  
20th April, 1888.

MY LORD,

Referring to my Despatch No. 195, of the 2nd of September last, and to Your Lordship's reply thereto of the 11th of November following, and also to the correspondence on the subject of a further Public Works Loan, I have the honour to state that the question of the construction of a Railway from Bayswater (near Perth) to or towards Busselton, has again been under the consideration of the Legislature.

2. I enclose the following printed papers\* in the matter, for Your Lordship's information :—
- a. The Despatches on the subject of the Railway, and of a further Public Works Loan, laid before the Council.
  - b. Proposal by Messrs. Neil McNeil & Co.
  - c. Address No. 19 of the 16th of April, 1888, with enclosed Report, requesting me to enter into a contract with Messrs. Neil McNeil & Co.
  - d. Message No. 21 of the 19th of April, giving reasons against the present construction of the Railway.
  - e. Report of the Debate on the subject in the Legislative Council ("West Australian" of 17th April, 1888).
  - f. Governor's Speech opening the session on 15th December, 1887, referred to in Message. (See "d" above).

3. With regard to my own views respecting the impossibility of undertaking the construction of this Railway at the present time, I need add nothing to my Message of yesterday's date, which fully expresses what I would urge on the subject. Your Lordship will doubtless, on the other hand, give the wishes of the Legislative Council every possible consideration, and no one desires more than myself that they should receive this.

4. I draw attention to the fact—stated in my Message to the Council—that it is doubtful whether the revenue of 1888 will equal the expenditure. The balance carried forward for 1887 was only £4,424.

The Right. Hon. Lord Knutsford, G.C.M.G.,  
&c., &c., &c.

I have, &c.,  
F. NAPIER BROOME.

WESTERN AUSTRALIA, {  
No. 49.  
SIR,

Downing Street, 8th June, 1888.

I have the honour to acknowledge the receipt of your Despatch No. 89, of the 20th of April, with its enclosures, respecting the proposed construction of a railway from Bayswater to or towards Busselton.

You have correctly assumed that I should give the wishes of the Legislative Council in this matter every possible consideration, and I should be very glad if the circumstances of the Colony permitted the enterprise to be carried out. But, as is shown in your Message of the 19th of April, the present position of the finances of Western Australia does not justify the assumption of the liabilities involved in the undertaking. Moreover, the possibility of the introduction of Responsible Government renders it inexpedient that I should come to a conclusion committing the Colony to the commencement of such a work at the present time, and I trust that, if there should be a change in the constitution, the Ministers upon whom the responsibility of embarking upon such works would fall, would recognise the importance of commencing the new career of the Colony with satisfactory finances and good credit, and therefore of fully ascertaining and providing for the increased expenses of Responsible Government, before involving the Colony in heavy liabilities for public works.

I have, &c.,  
KNUTSFORD.

Governor Sir F. N. Broome, K.C.M.G., &c., &c., &c.

Colonial Secretary's Office,  
Perth, 17th July, 1888.

HIS Excellency the Governor directs the publication of the following Order of Her Majesty the Queen in Council, revoking the Order in Council of the 26th October, 1875, respecting the tonnage admeasurement of Netherlands Vessels, and substituting other provisions for the same.

By Command,  
MALCOLM FRASER,  
Colonial Secretary.

AT THE COURT AT WINDSOR,  
The 3rd day of May, 1888.

PRESENT,

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.

WHEREAS by "The Merchant Shipping Act Amendment Act, 1862," it is enacted that whenever it is made to appear to Her Majesty that the Rules concerning the measurement

of tonnage of merchant ships for the time being in force under the principal Act have been adopted by the Government of any foreign country, and are in force in that country, it shall be lawful for Her Majesty by Order in Council to direct that the ships of such foreign country shall be deemed to be of the tonnage denoted in their Certificates of Registry or other national papers, and thereupon it shall no longer be necessary for such ships to be re-measured in any port or place in Her Majesty's Dominions, but such ships shall be deemed to be of the tonnage denoted in their Certificates of Registry, or other papers in the same manner, to the same extent, and for the same purposes, in, to, and for which the tonnage denoted in the Certificates of Registry of British ships is to be deemed the tonnage of such ships:

And whereas by "The Merchant Shipping Act, 1876," it is enacted that "where Her Majesty has power, under "The Merchant Shipping Act, 1854,' or any Act passed or hereafter to be passed amending the same, to make an Order in Council, it shall be lawful for Her Majesty from time to time to make such Order in Council, and by "Order in Council to revoke, alter, or add to any order so made:"

And whereas it was made to appear to Her Majesty, that the Rules concerning the measurement of tonnage of

merchant ships in force under "The Merchant Shipping Act, 1854," had been adopted by the Government of His Majesty the King of the Netherlands, with the exception of a difference in the mode in certain steamers of estimating the allowance for engine-room, and such rules were in force in that country, and came into operation on the 1st day of January, 1876:

And whereas by Order in Council dated the 26th day of October, 1875, Her Majesty was pleased to direct as follows:—

1. As regards sailing ships, that merchant sailing ships of the said Kingdom of the Netherlands, the measurement whereof should, after the said 1st day of January, 1876, have been ascertained and denoted in the registers and other national papers of such sailing ships, testified by the date thereof, should be deemed to be of the tonnage denoted in such registers and other national papers in the same manner, and to the same extent, and for the same purpose, in, to, and for which the tonnage denoted in the Certificate of Registry of British sailing ships is deemed to be the tonnage of such ships.
2. As regards steam ships, that merchant ships belonging to the said Kingdom of the Netherlands which are propelled by steam or any other power requiring engine-room, the measurement whereof should, after the said 1st day of January, 1876, have been ascertained and denoted in the registers and other national papers of such steam ships, testified by the dates thereof, should be deemed to be of the tonnage denoted on such registers or other national papers in the same manner, and to the same extent, and for the same purpose, in, to, and for which the tonnage denoted in the Certificate of Registry of British ships is deemed to be the tonnage of such ships. Provided nevertheless, that should the owner or master of any such Dutch steam ship desire the deduction for engine-room in his ship to be estimated under the rules for engine-room measurement and deduction applicable to British ships instead of under the Dutch rule, the engine-room should be measured and the deduction calculated according to the British rules.

And whereas it has been made to appear to Her Majesty that a new Royal Ordinance, which came into operation on the 6th day of January, 1888, stipulates that the owners of Dutch steam ships may have the net tonnage of their vessels calculated according to British as well as according to Dutch rules, and shall have issued to them a separate certificate to be used in Foreign countries showing the net tonnage calculated according to British rules:

And whereas it has been made to appear desirable to Her Majesty that the provisions of the said recited Order in Council of the 26th day of October, 1875, should be revoked, and a new Order in Council made and substituted in lieu thereof:

NOW, THEREFORE, Her Majesty, in virtue of the powers vested in Her by the said recited Acts, and by and with the advice of Her Privy Council, is pleased to direct that the said recited Order of the 26th day of October, 1875, shall be and the same is hereby revoked, and in lieu thereof, and in substitution therefor, Her Majesty is hereby pleased, by and with the advice of Her Privy Council, to direct as follows:—

1. As regards sailing ships, that merchant sailing ships of the said Kingdom of the Netherlands, the measurement whereof after the said 1st day of January, 1876, has been ascertained and denoted in the registers and other national papers of such sailing ships, testified by the date thereof, shall be deemed to be of the tonnage denoted in such registers and other national papers in the same manner, and to the same extent, and for the same purpose, in, to, and for which the tonnage denoted in the Certificate of Registry of British sailing ships is deemed to be the tonnage of such ships.
2. As regards steam ships, that merchant ships belonging to the said Kingdom of the Netherlands which are propelled by steam or any other power requiring engine-room, the measurement whereof shall, after the said 1st day of January, 1876, have been ascertained and denoted in the registers and other national papers of such steam ships, testified by the dates thereof, shall be deemed to be of the tonnage denoted on such registers or other national papers in the same manner, and to the same

extent, and for the same purpose, in, to, and for which the tonnage denoted in the Certificate of Registry of British ships is deemed to be the tonnage of such ships. Provided nevertheless, that if the owner or master of any such Dutch steam ship desires the deduction for engine-room in his ship to be estimated under the rules for engine-room measurement and deduction applicable to British ships instead of under the Dutch rule, the engine-room shall be measured and the deduction calculated according to the British rules, and that in the event of any such steam ship possessing a certificate of tonnage or other national paper issued as aforesaid on or after the 6th day of January, 1888, denoting the net registered tonnage of such ship under the British rules, the ship shall be deemed to be of the tonnage so denoted thereon.

OCT. BURT,  
for Colonial Secretary.

NOTICE TO MARINERS.

CAMBRIDGE GULF, NORTH-WEST AUSTRALIA.

**T**HE attention of ship-masters proceeding to Cambridge Gulf is drawn to the bank previously reported lying to the Northward of Adolphus Island and directly in the track given by Captain Coghlan's leading marks for entering Cambridge Gulf. The following bearings of the Shoal are given by Captain Gray of the s.s. "Australind," from the position of that vessel when aground on the Southern portion of the Shoal, having 9 feet low water (moon first quarter) :—

- Islet Point N. 41° W.
  - Barnett Point N. 59° E.
  - Cape Dussejour open of Vancouver Point N. 16° E.
- Bearings true.

The leading marks "Flat Top Hill in line with fall of high land of Adolphus Island," would take a vessel directly on to it. It is therefore necessary to keep to the Westward of this mark.

From the above position the Shoal extends in a North-easterly direction about 1½ miles having a patch, which dried two feet, at the North-east end.
