## NOTICE TO MARINERS.

THE attention of Masters of vessels bound for either Champion Bay, or Fremantle, is directed to a chart published by Wilson (late Norie) of Leadenhall Street, London, dated 1882, and they are warned against some gross mistakes it contains.

The chart in question shows a revolving light on some position of the Pelsart Group of the Abrolhos Islands, probably meant for Hummock island, where there is a beacon, but no light has ever been erected on any of the Abrolhos Islands.

The Revolving Light on Moore Point (Champion Bay) is on the same chart shown as a fixed light, instead of revolving.

The Bluff leading Lights (Champion Bay) are noted on the chart as Red instead of White, as should be the case.

Some extraordinary directions for vessels bound to Fremantle are added in a footnote to the chart, which are altogether and entirely erroneous and misleading.

The chart contains two small plans of King George's Sound and Princess Royal Harbor, of which one shows Point King Light in its proper position, but the other has it placed wrongly on Point Possession.

Chief Harbor Master.

If it shall appear that goods are being landed and cannot, in the opinion of the Pier Master, be removed in time to prevent a "block," the Pier Master may give notice, in writing, to the masters or persons in charge of vessels or lighters, from which goods are being discharged, to stop discharging cargo, and upon such notice being given, no further cargo shall be discharged until such time as the Pier Master may direct.

9. All goods must be removed from the warehouses within 24 hours from the time they are placed therein.

a. No vessels, boats, or flats shall be fastened to any part of such jetty or jetties, except to such ring-bolts or other fastenings as are or may be provided for the purpose; and no vessels, boats, or flats shall lie alongside such jetties, unless so fastened. All vessels, boats, or flats so fastened shall also be anchored or moored in such manner as to relieve such jetties as much as possible from the weight of such craft; and in no case shall more than *one tier* of such vessels, boats, or flats lie alongside or be fastened to any such jetty or jetties, or be moored or fastened to other vessels, boats, or flats lying alongside any such jetty or jetties, except by special permission of the Harbor Master.

b. Such vessels, boats, or flats shall not be moored or so fastened as aforesaid, except for the purpose of loading or unloading, nor for any longer period during the authorised hours than shall be reasonably required for such purpose.

c. Passenger boats only may lie alongside the steps at any such jetty or jetties, for such time as may be necessary to embark or disembark passengers.

d. All such boats, vessels, or flats lying alongside any such jetty or jetties shall, on the approach thereto of a passenger steamer, be hauled off to a sufficient distance to enable her to disembark or embark passengers.

e. Any steam vessel plying on the coast of this Colony shall be permitted to lie alongside any jetty for the purpose of discharging and taking in cargo at all hours of the day and night, consistently with the Regulations.

f. All steamers when lying at a jetty shall have and use two up-and-down fenders made of rope, and outside the up-and-down fenders a fore and aft rope fender of sufficient length and thickness to keep the guard streak entirely clear of the fender piles.

g. All foreign-going vessels shall be moored alongside the jetties in such position as may be indicated by the Harbor Master, who may, if necessary, direct the removal of other craft for that purpose.

h. Vessels shall unload in the order in which they arrive, and are placed in a list to be kept by the Harbor Master. Application to

be placed in order on such lists according to arrival must be made to the Harbor Master on the day preceding that on which the vessel will unload. If such application be not made, the next vessel on the list shall have precedence, but the vessel forfeiting her turn may be placed next in succession. Vessels will load according to the order of application to the Harbor Master, and shall, when required by him, give place to vessels discharging cargo. Vessels arriving from or bound to foreign ports shall have precedence of coasting and other craft.

i. In the event of any vessel or vessels being moored alongside any of the jetties in such way as to exclude any other vessel or vessels whose owners or masters wish also to moor her or them alongside consistently with the Regulations, the Harbor Master may order the removal of such vessel or vessels to another berth or berths, and such vessel or vessels shall forthwith be removed accordingly.

j. When the Harbor Master may deem it unsafe, through stress of weather, for a vessel to remain alongside a jetty, he shall direct the immediate removal of such vessel, and the Master or other person in charge of such vessel shall remove such vessel accordingly.

12. No person shall fish on such jetties, to the obstruction of the traffic.

13. Stones, bricks, clay, sand, lime, coals, coke, or other fuel (except in bags, baskets, or tubs) shall not be landed or placed on the jetties, except imported bricks or paving stone. Firewood for the use of passenger steamers and other vessels or boats shall be taken direct from the truck to the vessel. No goods shall be handed over the rails of the jetties.

14. No bullock or horse teams, or any wheeled vehicle other than a railway truck drawn by any quadruped or quadrupeds, shall be driven on or permitted to go on, and no riding on horseback will be permitted on the jetties.

15. The Pier Master will supply water to shipping at the charge of 1s. per one hundred gallons, and which said charge shall be collected by him.

16. No stones or other kind of substance whatever shall be thrown into the water from such jetties, or from vessels moored alongside such jetties.

17. No person shall make fast any tackle, purchase, or other gear, to any part of the crane, or place or use any private derrick, crane, or other lifting machine without special permission obtained from Commissioner of Railways in writing.

18. Not more than one ton shall be lifted with single half-inch chain, or two tons with a single block added. On a single five-eighth chain not more than 33 cwt. shall be lifted, or 66 cwt. with one single block added. For heavier weights the number of parts of the chain shall be increased in proportion to the weight to be lifted; but not more than five tons shall be lifted by any crane without special arrangements with the Commissioner of Railways.

19. No person or persons shall land or place, or cause to be landed or placed upon the Jetties, or upon the approach to the jetties, any decayed or decaying vegetables or other thing whatsoever likely to become a nuisance.
