### Notice of Request to amend Specification.

Patent Office, Perth,  
16th March, 1894.

**A** REQUEST to be allowed to amend the under-mentioned Specification for Letters Patent has been received, and is open to public inspection at this Office. Any person may, at any time within one month from the date of this *Gazette*, give me notice in writing, in duplicate, of opposition to the amendment, stating in such notice the particular grounds of objection:—

Page 1, line 6.

To strike out "*An Air Pump or Duplicate Air Pumps preferably of a horizontal type,*" and insert instead thereof "*one or more Air Pumps, either single or double acting.*"

Page 2, line 24.

To insert after word "pumps," "*which for illustration are shown as double acting, and*"

Page 7, line 3.

To insert after word "action," "*and I do not confine myself to the employment of any particular number*

*of pumps, or to such pumps being either partly or wholly single or double acting.*"

Page 7, line 27.

To strike out "*having*" and insert instead thereof, "*of a pressure regulator consisting of.*"

Page 7, line 28.

To insert after letter "R," "*said.*"

The applicant states, as his reasons for the request:—

1. To make the specification more complete and comprehensive in its nature and in the description of the invention thereof.
2. Thereby amplifying and causing the invention to be more effective in its nature and operation.
3. That the proposed amendments are in no way foreign to the subject-matter of the invention as specified and described in the original or complete specification.
4. That said proposed amendments do not constitute in themselves sufficient subject-matter on which to base an application for valid Letters Patent."
