W. E. MARMION,
Commissioner of Crown Lands.

That Sub-section (4.) read as follows:—

The applicant shall, previously to making application for a lease, mark the land intended to be applied for, at each corner, by a post standing three feet out of the ground, and four inches in diameter, such post to be kept uncovered, and set in L trenches three feet long and six inches deep along each boundary line; and shall at the same time post a notice in the form of No. 20A, hereto annexed, on a conspicuous part of the land intended to be applied for; and shall, at the time of lodging his appli-

cation at the Warden's Office, post a notice thereat in the form of Schedule 20. Applications for leases shall be heard by the Warden not less than thirty days after the date of lodging of the application at the Warden's Office.

That Sub-section (5.) read as follows:—

Each application must be signed by the party or parties applying for a lease, or by his or their accredited agent or agents, and must be accompanied by a sketch plan of the land intended to be applied for, showing its position and one boundary line thereof, which line shall be considered as the datum line.

That Sub-section (6.) read as follows:—

The applicant shall, within three months after lodging the application, or within such other extended period of time as the Warden may see fit to allow, furnish to the Warden a plan in duplicate and description showing the boundaries of the land as actually surveyed and marked. Such surveying and marking shall be performed by a licensed surveyor specially appointed by the Minister to perform mining surveys. The plan and description of a gold-mining lease shall be executed in accordance with the general directions issued by the Minister, provided that the Minister may at any time cancel the special appointment of any such licensed surveyor.

That Sub-section (7.) read as follows:—

In all cases where the land is so available, the mean length of the area applied for shall not exceed twice its mean breadth, but when, owing to the positions of adjoining boundaries or natural features, this is impossible, any irregularly shaped or intervening piece of land may be applied for, and a lease of such piece may be granted.

That Sub-section (8.) read as follows:—

All leases shall be marked by the surveyor according to the applicant's posts. Provided that should the area of the land marked by the applicant's posts be in excess of the area applied for, the applicant may either amend his application to include the excess area (provided that the total area of the land applied for does not exceed twenty-five acres), or in the event of the area of the land marked by his posts exceeding twenty-five acres, he may amend his application and retain twenty-five acres extending from the line shown in his application as the datum line; and should the area of the land marked by the applicant's posts be less than the area applied for, such less area only shall be granted. Should the applicant, however, show that by increasing the area to the quantity applied for there would be no interference with adjoining rights, the surveyor may make the required alteration.

If it shall appear that goods are being landed and cannot, in the opinion of the Wharfinger, be removed in time to prevent a "block," the Wharfinger may give notice, in writing, to the masters or persons in charge of vessels or lighters from which goods are being discharged, to stop discharging cargo, and upon such notice being given, no further cargo shall be discharged until such time as the Wharfinger may direct.

12. The official hours for trucking will be from 6 a.m. to 6 p.m. between the 1st October and the 30th April, with an interval of one hour for breakfast and one and a half hours for dinner, and on Saturdays the hours will be from 6 a.m. to 4 p.m. From the 1st of May to 30th September, 7-30 a.m. to 5 p.m., with an interval of one hour only for dinner. Saturdays, 7-30 a.m. to 4 p.m.

13. On goods trucked after hours, on Holidays, or on Sundays, at the request of Shipping Agents or others, the Wharfinger will levy, in addition to the ordinary rates, the amount of overtime charges incurred.

14. Cargoes which are partly *Free* and partly for *Bond* shall be taken to the Depôt, where they will be tallied by Officers representing respectively the Customs and Railway Departments.

15. The hours of duty of Officers fulfilling the duties referred to in Regulation No. 14 shall be the same as those enumerated in Regulation No. 12.

16. Should the Wharfinger consider it necessary to work overtime, his order will be absolute, and the Officers named in Regulation No. 15 shall adhere strictly to his instructions.

17. If *Free* goods are not removed from the Depôt within 24 hours from the time they are placed thereat, a storage charge of 6d. per ton or 1d. per package per day will be made.

18. Goods *not* cleared at the Customs House will be kept at the "Depôt" for 24 consecutive hours after delivery *ex ship*, to enable consignees to have time to clear or enter them for bond. If at the end of 24 hours goods are uncleared, they will be delivered to the Customs Department, and a charge of 1s. per ton (minimum 3d. per consignment) will be made when the transfer to Customs incurs labour.

19. Cargoes going direct into bond shall be tallied by Railway and Ship's Officer's. The Railway Officer shall, if requested, give receipts for all deliveries *ex ship*.

20. The Railway Department will deliver bonded goods into Customs' stores between 6 a.m. and 6 p.m. from October 1st to 30th April, and from 7-30 a.m. to 5 p.m. from May 1st to September 30th.

21. Steam crane dues will be levied at the rate of Five shillings per hour; fraction of an hour to be reckoned as one hour.

22. The Wharfinger shall arrange where each vessel or lighter is to be berthed, consideration being given, amongst other things, to the discharging conveniences on Wharf.

23. The Wharfinger will have the entire control of berthing and removing all ships, boats, or vessels coming to the Wharf under the following Regulations :—

a. No vessels, boats, or flats shall be fastened to any part of the Wharf, except to such ring-bolts or other fastenings as are or may be provided for the purpose; and no vessels, boats,

or flats shall lie alongside such Wharf unless so fastened. All vessels, boats, or flats so fastened shall also be anchored or moored in such manner as to relieve the Wharf as much as possible from the weight of such craft; and in no case shall more than *one tier* of such vessels, boats, or flats lie alongside or be fastened to any such Wharf, or be moored or fastened to any other vessels, boats, or flats lying alongside any such Wharf, except by special permission of the Wharfinger.

b. Such vessels, boats, or flats shall not be moored or so fastened as aforesaid, except for the purpose of loading or unloading, nor for any longer period during the authorised hours than shall be reasonably required for such purpose.

c. Passenger boats only may lie alongside the steps at any such Wharf for such time as may be necessary to embark or disembark passengers.

d. All such boats, vessels, or flats lying alongside any such Wharf shall, on the approach thereto of a passenger steamer, be hauled off to a sufficient distance to enable her to disembark or embark passengers.

e. Vessels shall unload in the order in which they arrive, and are placed in a list to be kept by the Wharfinger. Application to be placed in order on such lists according to arrival must be made to the Wharfinger on the day preceding that on which the vessel will unload. If such application be not made, the next vessel on the list shall have precedence, but the vessel forfeiting her turn may be placed next in succession. Vessels will unload according to the order of application to the Wharfinger, and shall, when required by him, give place to vessels discharging cargo. Vessels arriving from or bound to foreign ports shall have precedence of coasting and other craft.

f. When the Wharfinger may deem it unsafe, through stress of weather, for a vessel to remain alongside a Wharf, he shall direct the immediate removal of such vessel, and the Master or other person in charge of such vessel shall remove such vessel accordingly.

24. No person shall fish on such Wharf to the obstruction of the traffic.

25. Stones, bricks, clay, sand, lime, coals, coke, or other fuel shall not be landed or placed on the floors of the Wharf. Firewood or coal for the use of passenger steamers and other vessels or boats shall

be taken direct from the truck to the vessel. No goods shall be handed over the rails of the Wharf.

26. No bullock or horse teams, or any wheeled vehicle other than a railway truck drawn by any quadruped or quadrupeds, shall be driven on or permitted to go on, and no riding on horseback will be permitted on the Wharf.

27. No stones or other kind of substance whatever shall be thrown into the water from such Wharf, or from vessels moored alongside such Wharf.

28. No person shall make fast any tackle, purchase, or other gear to any part of the crane, or place or use any private derrick, crane, or other lifting machine without special permission obtained from the Wharfinger.

29. Not more than one ton shall be lifted with single half-inch chain, or two tons with a single block added. On a single five-eighth chain not more than 33 cwt. shall be lifted, or 66 cwt. with one single block added. For heavier weights the number of parts of the chain shall be increased in proportion to the weight to be lifted; but not more than five tons shall be lifted by any crane without special arrangements with the Wharfinger.

30. No person or persons shall land or place, or cause to be landed or placed upon the Wharf, or upon the approach to the Wharf, any decayed or decaying vegetable or other thing whatsoever likely to become a nuisance.
