### High School Entrance Scholarships.

THESE Scholarships were established in order to enable boys of superior merit in the Elementary Schools of the Colony to continue their studies in a Higher Grade School. Unfortunately of late years these Scholarships have seemed to fail in their original object, the failure being instanced in the very meagre competition resulting at the annual examination. It has been thought that this apparent backwardness on the part of parents to obtain for their sons a superior education may have resulted from their inability to afford the extra expenses (school fees, travelling expenses, &c.) attendant on the residence of the boys at the High School.

With a view to remedy this difficulty, the Government has decided to try the experiment of increasing the Scholarships offered for competition in 1895 from £50 to £75.

The Minister hopes that this action on the part of the Government to try and popularise these Scholarships will meet with increased competition and emulation on the part of the youth of the Colony.

E. H. WITTENOOM,  
Minister of Education.

Education Department,  
31st January, 1895.
