This appears to be desirable, having regard to the wording of Sub-section 2 of that Section, although the views expressed in my predecessor's Despatch of the 18th January last have, on further consideration, been found to require modification.

It is desirable that these applications should reach the Secretary of State not later than the end of February of that year. They should be accompanied by a copy of the enclosed form A duly filled up and by the certificates of birth, conduct, and health, required by the Regulations.

I have also to remind you that these nominations are intended for youths of established and resident Colonial families and not for sons of parents whose connection with the Colonies has been only temporary or official.

THE attention of all Government Residents, Police and Resident Magistrates, and Justices of the Peace is called to the fact that it has come to the knowledge of the Government that divers ingenious artifices are resorted to by unscrupulous persons, in order to obtain the reward fixed by the law for native dogs' tails, such as the purchasing from natives of the tails of their dogs which are not destroyed, thus defeating the object of the Act; the artificial manufacture of what closely resemble native dogs' tails with bits of the skin of the dog, which, when green, are closely wound round a piece of sinew or a rat's tail, and the hairs neatly pointed at one end; the sending of tails from one district to another to secure the higher reward, and other devices of a like nature; every care should, therefore, be exercised in order to prevent fraud, in determining whether the tail produced is genuine, and that the dog from which it has been taken has been destroyed before the reward is paid.
