NOTICE TO MARINERS.

VESSELS bound to Fremantle from the Southward or Westward are warned that the Rottneest Light is now obscured by the new Tower which is built to the Westward of the old one.

The Light will therefore be invisible from seaward while bearing from a ship between North 88° East, and North 113° East true.

A temporary revolving inferior light is shown from the new tower between these bearings, revolving at same period as old light, and will be continued until the New First Order Light is ready.

The temporary light is at same level as old light, and is visible about seven miles in clear weather.
