Note.—Throughout this Gazette the names in Italics within parentheses are those of Communicators of Inventions.

Complete Specifications.

Patent Office, Perth,
10th October, 1902.

NOTICE is hereby given that the undermentioned Applications for the Grant of Letters Patent, and the complete Specifications annexed thereto, have been accepted, and are now open to public inspection at this Office.

Any person or persons intending to oppose any of such applications must leave particulars, in writing, in duplicate (on Form D), of his or their objections thereto, within two calendar months from the date of this Gazette. A fee of Ten shillings (10s.) is payable with such notice.

Application No. 4056.—WILLIAM JAMES EVANS, of Heald Street, New Farm, Brisbane, in the State of Queensland, Commonwealth of Australia, Master Mariner, and JOHN DUNMORE CAMPBELL, of Creek Street, Brisbane, in the said State, in the said Commonwealth, Merchant, "*Improvements in or relating to Dredge Buckets.*"—Dated 24th September, 1902.

Claims:—

1. In improvements in or relating to Dredge Buckets, a renewable relief slip or false lining edge such as G attached to the inside of the bucket as and for the purpose set forth and as herein described and illustrated by drawings.
2. In improvements in or relating to Dredge Buckets, a renewable relief slip or false lining edge such as G attached to the inside of the bucket and also attached to the cutting edge as and for the purpose set forth and as herein described and illustrated by Fig. 5 in drawings.
3. In improvements in or relating to Dredge Buckets, a relief slip or false lining edge formed integral with the cutting edge and attached to the inside of the mouth of the bucket as and for the purpose set forth and as herein described and illustrated in Figs. 6 and 7 of the drawings.
4. In improvements in or relating to Dredge Buckets, a cutting edge such as F in Fig. 8 or of other configuration attached to the inside of the bucket mouth and continued therein as a relief slip or false lining edge as and for the purpose set forth and as herein described and illustrated by drawings.
5. In improvements in or relating to Dredge Buckets, the inside of the mouth of the bucket provided with a cavity formed by the relief slip or false lining edge being set at an angle to the bottom of the bucket thus forming an air or water cushion as and for the purpose set forth and as herein described and illustrated by drawings.

Specification, 1s. 6d. Drawings on application.

Application No. 4072.—JOHN WINEPRESS, Inventor, of Bay Street, North Brighton, in the State of Victoria, Australia, "*Appliance to be used in opening Oysters.*"—Dated 3rd October, 1902.

Claims:—

1. An appliance to be used in opening oysters comprising two jaws hinged together, the lower jaw being shaped to receive the oyster, and the top jaw being arranged to come down and form a hold upon the oyster substantially as and for the purposes described.
2. An appliance to be used in opening oysters, comprising two jaws hinged together, the lower jaw being recessed out in the form of an open box to receive the oyster, and the top jaw having recessed and serrated

gripping surface, and a spring arranged to act upon the top jaw to hold it open substantially as and for the purposes described.

3. The combination and arrangement of the several parts for the purposes described and substantially as illustrated on the accompanying drawings.

Specification 1s. 6d. Drawings on application.

R. G. FERGUSON,
Registrar of Patents.

Patent Office, Perth,
6th October, 1902.

NOTICE is hereby given that the undermentioned Application for the Grant of Letters Patent, and the complete Specifications annexed thereto, has been accepted, and is now open to public inspection at this Office.

Any person or persons intending to oppose such application must leave particulars, in writing, in duplicate (on Form D), of his or their objections thereto, within two calendar months from the date of this Gazette. A fee of Ten shillings (10s.) is payable with such notice.

Application No. 3450.—HENRY RENNER CASSELL, of 9 and 11 Worship Street, London, England, Chemist, "*A Process and Apparatus for the Extraction of Precious Metals from Ores, and Compounds containing them.*"—Dated 3rd July, 1901.

Claims:—

1. A process for oxidising tellurides and other refractory ores and so rendering the precious metals contained therein easily soluble, which process consists in converting the ore into a pulp containing one or more salts capable of yielding by electrolysis oxidising and dissolving agents, then agitating and electrolysing the pulp to oxidise the refractory compounds, and to dissolve and precipitate the gold in the form of a black precipitate, and finally adding a solvent to re-dissolve such precipitate, substantially as described.
2. In the process claimed in the preceding claiming clause, the combined action of agitation and reversing the electric current from time to time, for the purpose of retaining the gold in the pulp and keeping the electrodes clean, as described.
3. The combination of a vessel having a lining composed of carbon plates, grooves in said plates, electric conductors in said grooves, and cement for protecting the conductors, substantially as and for the purpose described.
4. The combination with the parts claimed in the third claiming clause of a backing of cement between the vessel and lining, substantially as described.
5. The rotary insulated shaft furnished with radial metal arms in combination with carbon plates attached to said metal arms, and cement for covering and protecting the metal from electrolytic action, substantially as described and shown.
6. The complete apparatus constructed substantially as described with reference to Figures 1, 2, and 3, or to Figures 4 and 5, for the purpose specified.

Specifications, 8s. 6d. Drawings on application.

R. G. FERGUSON,
Registrar of Patents.

**Renewal Fees paid on Patents registered from
27th September to 4th October, 1902.**

*Fees payable before the end of the fourth year in respect of
the three following years.*

- No. 2239.—Worthington, C. C.
No. 2244.—Stewart A., and Piesse, F. E.
No. 2432.—Westinghouse, G.
No. 2438.—The British Westinghouse Electric and Manufacturing Company, Limited.
No. 2439.—The British Westinghouse Electric and Manufacturing Company, Limited.

No. 2440.—The British Westinghouse Electric and Manufacturing Company, Limited.

No. 2441.—The British Westinghouse Electric and Manufacturing Company, Limited.

No. 2442.—The British Westinghouse Electric and Manufacturing Company, Limited.

**Subsequent Proprietors of Patents registered
from 27th September to 4th October, 1902.**

[NOTE.—The name in brackets is that of former proprietor.]

No. 3922.—The British Westinghouse Electric and Manufacturing Co., Ltd. [Sparrow, R.].

Applications for Patents.

SEPTEMBER 27TH—OCTOBER 4TH.

[Where Provisional Specification accompanies Application an asterisk is affixed.]

No.	Date.	Name.	Address.	Title.
4065	30th Sept., 1902	McKnight, R.	Philadelphia, United States of America	Improvements in art of treating refractory ores of precious metals.
4066	30th Sept., 1902	Shedd Electric and Manufacturing Company (assignees of Weyant, T. R.)	New York, United States of America	Improvements in ventilators.
*4067	30th Sept., 1902	Harrison, J. R.	Ballarat, Victoria	An improved ore concentrator; usable also as an amalgamator.
*4068	30th Sept., 1902	Salomo, H.	Melbourne, Victoria	Improvements in adjustable seats or supports for chairs and other structures.
*4069	30th Sept., 1902	Jackson, A. B.; Ludbrook, E. R.; and Jackson, G. C.	Tuparoa, New Zealand	Improvements in rain and draught excluders for doors.
*4070	1st Oct., 1902	Healey, J.	Perth, Western Australia	The Oliver Goldsmith Bed.
*4071	3rd Oct., 1902	Belgrave, T. B.	Wyndham, Western Australia	Combined aseptic urn, water filter, and cooler.
4072	3rd Oct., 1902	Winepress, J.	North Brighton, Victoria	Appliance to be used in opening oysters.
*4073	4th Oct., 1902	Gaze, W. H., and Noble, J. H.	Shepparton, Victoria, and Perth, Western, Australia	A new and improved mode, process, and apparatus for generating a gas for house, street, and general lighting, and for producing heat for heating and cooking and for general purposes.

Index of Applicants for Patents.

SEPTEMBER 27TH—OCTOBER 4TH.

Name.	Title.	No.	Date.

Applications Abandoned.

27TH SEPTEMBER TO 4TH OCTOBER, 1902.

Application No. 3694.—ROBERT JOSEPH WEBSTER, of the School of Mines, Ballarat, in the State of Victoria, Commonwealth of Australia, Miner, and ARTHUR ALLISON, of No. 139 Ripon Street, South Ballarat, in the said State, Miner, "*An improved method of Ventilating Mines by Induction.*"—Dated 30th December, 1901.

Application No. 3697.—JOHN FAIRFAX CONIGRAVE, of Eagle Chambers, Hay Street, Perth, in the State of Western Australia, Licensed Patent Agent (*Beaumont Richard Harrington*), "*Improvements in Refuse Destructors.*"—Dated 30th December, 1901.

Application No. 3700.—EDMUND ALBERT ANGUS, of Eglinton Street, Moonee Ponds, near Melbourne, in the State of Victoria, Commonwealth of Australia, Contractor, "*Improved Passenger, Guard, and Driver's Communication for Trains and Trams.*"—Dated 2nd January, 1902.

Trade Marks.

Patent Office, Trade Marks Branch,

Perth, 10th October, 1902.

IT is hereby notified that I have received the under-mentioned Applications for the Registration of Trade Marks.

Any person or persons intending to oppose such applications must leave particulars in writing, in duplicate (on Form F), of his or their objections thereto, within two calendar months from the date of this *Gazette*.

A fee of £1 is payable with such notice.

In the case of an Application in which have been inserted a statement and disclaimer (or a disclaimer only), a copy of the same is printed in *italics* in connection with the advertisement.

R. G. FERGUSON,

Registrar of Designs and Trade Marks.

Application No. 2561, dated 18th August, 1902.—MUNTZ'S METAL COMPANY, LIMITED, of French Walls, Smethwick, near Birmingham, Metal Manufacturers, to register in Class 5, in respect of an Alloy of Metal for Sheathing, a Trade Mark, of which the following is a representation:—

The essential particular of the Trade Mark is the distinctive label.

Application No. 2594, dated 30th September, 1902.—ANGUS JOHN GRACE, trading as "Martin & Co.," Chemists, Barrack Street, Perth, in the State of Western Australia, to register in Class 3, in respect of chemical substances prepared for use in medicine and pharmacy, a Trade Mark, of which the following is a representation:—

The essential particulars of the Trade Mark consist of the combination of devices and the name "Dr. Boxwell's"; and applicant disclaims any right to the exclusive use of the added matter.

Application No. 2595, dated 30th September, 1902.—W. H. BURFORD & SONS, LIMITED, of Sturt Street, Adelaide, in the State of South Australia, Commonwealth of Australia, Manufacturers, to register in Class 47, in respect of Common Soap, Extract of Soap, Starch, Washing Powders, and all other preparations for laundry purposes (but excluding Blue), Candles, Lubricating Oils, and Axle Grease, a Trade Mark, of which the following is a representation:—

RAZOR.

Application No. 2596, dated 30th September, 1902.—W. H. BURFORD & SONS, LIMITED, of Sturt Street, Adelaide, in the State of South Australia, Commonwealth of Australia, Manufacturers, to register in Class 47, in respect of Common Soap, Extract of Soap, Starch, Blue, Washing Powders, and all other preparations for laundry purposes, Candles, Lubricating Oils, and Axle Grease, a Trade Mark, of which the following is a representation:—

SNOW.

Application No. 2597, dated 30th September, 1902.—W. H. BURFORD & SONS, LIMITED, of Sturt Street, Adelaide, in the State of South Australia, Commonwealth of Australia, Manufacturers, to register in Class 47, in respect of Common Soap, Extract of Soap, Starch, Blue, Washing Powders, and all other preparations for laundry purposes, Candles, Lubricating Oils, and Axle Grease, a Trade Mark, of which the following is a representation :—

V E S T A .

Application No. 2598, dated 2nd October, 1902.—ARTHUR STEPHEN MUNYARD, of 365 Wellington Street, Perth, in the State of Western Australia, to register in Class 42, in respect of substances used as food, or as ingredients in food, a Trade Mark, of which the following is a representation :—

ELEPHANT BRAND.

Application No. 2599, dated 2nd October, 1902.—ARTHUR STEPHEN MUNYARD, 365 Wellington Street, Perth, in the State of Western Australia, to register in Class 42, in

respect of Tea, a Trade Mark, of which the following is a representation :—

COOLIE BRAND.

Renewal Fees paid on Trade Marks from 27th September to 4th October, 1902.

Fee payable before the end of the fourteenth year in respect of the following fourteen years :—

Nos. 177, 178, 179, 180.—W. and J. Knox, Limited.

Notice.

*Patent Office, Trade Marks Branch,
Perth, 10th October, 1902.*

Re Trade Mark Applications Nos. 2588, 2589.

NOTICE is hereby given that Trade Mark Applications Nos. 2588 and 2589, in the name of Arthur Stephen Munyard, of 365 Wellington Street, Perth, in the State of Western Australia, Grocer, Wine and Spirit Merchant, and advertised in the Patent Supplement to the *Government Gazette* of 26th September, 1902, No. 39, page 3951, has been withdrawn.

R. G. FERGUSON,
Registrar of Designs and Trade Marks.
