### Complete Specifications.

Patent Office, Perth, 31st October, 1902.

OTICE is hereby given that the undermentioned Applications for the Grant of Letters Patent, and the complete Specifications annexed thereto, have been accepted, and are now open to public inspection at this Office.

Any person or persons intending to oppose such applications must leave particulars, in writing, in duplicate (on Form D), of his or their objections thereto, within two calendar months from the date of this Gazette. A fee of Ten shillings (10s.) is payable with such notice.

Application No. 3895.—WILLIAM NEPEAN HUTCHISON, of 119 Palmer Street, Sydney, in the State of New South Wales, Gentleman, and WILLIAM SANDERS BELL, of c/o R. E. Burn, 144 Elizabeth Street, Melbourne, in the State of Victoria, Gentleman, "An improved Wire Strainer."—Dated 10th June, 1902.

Claims:—

1. A wire strainer consisting of a drum or stem from one end of which extends in opposite directions two arms each of which arms terminates in a claw, whilst the other end of the drum is bifurcated into two prongs each of which prongs also terminates in a claw, substantially as herein described and illustrated in the drawings.

2. A wire strainer consisting of a drum or stem from the one end of which extends in opposite directions two arms, each of which arms terminates in a claw, wilst the other end of the drum is bifurcated into two prongs each of which prongs also terminates in a claw as having a hollow near the root or base of the drum for receiving two ends of a broken wire substantially as herein described and illustrated in the drawings. in the drawings.

Specification, 3s. Drawings on application.

Application No. 4061.—Edward Waters, a member of the firm of Edward Waters & Son, Patent Agents, of Nos. 414-418 Collins Street, Melbourne, in the State of Victoria (Wilhelm Schmitz), "Improvements in or connected with Suspended Railway Vehicles."—Dated 25th September, 1902.

Claims:—

1. A single rail overhead railway wherein the vehicles hang freely suspended from a single rigid rail in such manner that, on the one hand, although for insuring a quiet travel the vehicles are capable of swinging freely laterally, the safety devices provided below the rail and rail carrier also operate effectually when the vehicle is in a laterally deflected position and that although the running wheel frames are recessarily to a certain extent unsymmetrical, the total masses of the structure are so distributed that the lines of centre of gravity of the separate parts whether having spring action or not, coincide with the centre of gravity of the entire mass, substantially as described.

2. In a single rail overhead railway such as is referred to in the first claim, the arrangement whereby in all rotatable parts the surfaces that are subject to atmospheric resistance, equal statical moments are produced relatively to the centre vertical line of the rail, substantially as described.

described,

3. In a single rail overhead railway such as is referred to in the first claim the arrangement of a combined horizontal and vertical pivotal connection between the running wheel frames and the vehicles, either directly over or under the rail, for the purpose of insuring a safe and quiet travel over parts of different level and inequalities of the line of rails, substantially as described.

4. In a single rail overhead railway such as is referred to in the first claim, suspending the rail by means of rigid suspension links, the lower end of which is fixed rigidly to the rail while the upper end is connected by a ball and socket or universal joint from a support in such manner that on the parts being subject to the action of lateral forces the said links together with the rail can be deflected laterally together with the vehicle, substantially as described.

Specification, 15s. Drawings on application.

R. G. FERGUSON,

Registrar of Patents.

### Renewal Fees paid on Patents registered from 18th October to 25th October, 1902.

Fees payable before the end of the fourth year in respect of the three following years:-

No. 794.—Saccharin Corporation, Limited.

No. 2263.--The New Steam Stamp Mill Syndicite, Limited.

No. 2286.--Dr. Carl Ritter Auer Von Welsbach.

No. 2347.-Holland W., Griffiths, W., and Griffiths, W. J.

No. 2397.—Jones, W. R. S.

No. 2516.—Hadfield, R. A., and Jack A. G. Mackenzie.

### Subsequent Proprietor of Patent registered from 18th to 25th October, 1902.

[Note.—The name in brackets is that of former proprietor.] No. 3683.—Taylor, E. H. [Wells, R. N.]

### Provisional Specifications.

Patent Office, Perth, 31st October, 1902.

A PPLICATIONS for Letters Patent, accompanied by Provisional Specifications, which have been accepted from 18th to 25th October, 1902:-

Application No. 3942.—George Buhlmann, of 56 Koepenicker Strasse, Berlin, in the Kingdom of Prussia, German Empire, Manufacturer, "A new and useful process of manufacturing Incandescent Mantles."—Dated 11th July, 1902.

Application No. 4057.—WILLIAM TYREE, of 36 Pitt Street, Sydney, in the State of New South Wales, Commonwealth c<sup>2</sup> Australia, Manager of the Acetylene Gas Company of Australasia, Limited, "An improved Acetylene Gas Generator."—Dated 24th September, 1902.

Application No. 4067.—John Robert Harrison, of No. 47 Albert Street, Ballarat, in the State of Victoria, Commonwealth of Australia, Ironfounder, "An improved Ore Concentrator, usable also as an Amalgamator."—Dated 30th September, 1902.

Application No. 4083.—Edgar Hogan Taylor, of Lakeside, Kalgoorlie, Metallurgist, "A Battery Shank Weight for increasing the Dropping Weight of Stampers."—Dated 13th October, 1902.

R. G. FERGUSON,
Registrar of Patents.

### Applications for Patents.

# OCTOBER 18th—25th. [Where Provisional Specification accompanies Application an asterisk is affixed.]

No.	Date.	Name.	Address.	Title.
4088	20th Oct., 1902	J. Selwood (assignee of Aird, A. B.)	Parkside, South Australia	Improved method of and apparatus for purifying and heating feed water to prevent the incrustation of steam boilers and to economise fuel.
*4089	21st Oct., 1902	Conyers, E. A	Melbourne, Victoria	An improved supporting frame to be used with a slipper bed-pan.
4090	21st Oct., 1902	Godfrey, A	London, England	An improved machine for wrapping and packing cigarettes and like goods.
*4091	22nd Oct., 1902	Roach, W. J., and Habermann, H. C	Guildford, W.A	A new automatic acetylene gas generator.
4092	23rd Oct., 1902	Loring, F. H	Chester, England	Improvements in and means for operating electric percussion drills and other apparatus, including motors.
4093	23rd Oct., 1902	Cowan, J	Edinburgh, Scotland	Improvements relating to water-tube boilers.
4094	23rd Oct., 1902	Fiedler, M	Moscow, Russia	Improvements in blasting cartridges.
*4095	23rd Oct., 1902	Cullan, L. M	Kalgoorlie, W.A	Improved sealing appliance or fastener for envelopes.

### Trade Marks

Patent Office, Trade Marks Branch, Perth, 31st October, 1902.

IT is hereby notified that I have received the undermentioned Applications for the Registration of Trade Marks.

Any person or persons intending to oppose such applications must leave particulars in writing, in duplicate (on Form F), of his or their objections thereto, within two calendar months from the date of this Gazette.

A fee of £1 is payable with such notice.

In the case of an Application in which have been inserted a statement and disclaimer (or a disclaimer only), a copy of the same is printed in *italics* in connection with the advertisement.

R. G. FERGUSON, Registrar of Designs and Trade Marks. Applications No. 2610 and 2611, dated 21st October, 1902.—Arthur Henry Shaw, Manufacturers' Agent, 21 Phillimore Street, Fremantle, in the State of Western Australia. Application No. 2610 to register in Class 17, in respect of Manufactures from Mineral and other substances for building or decoration. Application No. 2611 to register in Class 1, in respect of Chemical Substances used in Manufactures, Photography, or Philosophical research and anti-corrosives, a Trade Mark, of which the following is a representation:—

# CYANITE.

Application No. 2612, dated 21st October, 1902.—ARTHUR HENRY SHAW, Manufacturers' Agent, 21 Phillimore Street, Fremantle, in the State of Western Australia, to register in Class 50, subsection 9, in respect of Packing and Hose of all kinds, a Trade Mark, of which the following is a representation:—

## GLORIA.

Renewal Fee paid on Trade Mark from 18th to 25th October.

Nos. 183, 184.—Barlow & Jones, Limited.
