EXPLANATORY.

1. In the tables the nineteen goldfields of the State are arranged according to their geographical position, commencing with Kimberley in the North, and terminating with Donnybrook in the South-West. Six goldfields are sub-divided into eighteen districts, and in such cases, that district in which the Warden has his headquarters is placed first in the return. The mining centres have been shown in alphabetical order under the heading of their respective districts, and, finally, the groups of mines which make up the mining centres have been similarly arranged.

2. These returns represent all treatments reported to Mining Registrars as completed during the month; but, as Regulations 182 and 113 allow seven days in which to declare such results, the gold production of the State cannot be ascertained earlier than some ten days after the end of each month when the totals of each district will be announced, followed at a few days' interval by full details.

3. During the last week of each month the holders of leases and registered claims, as well as the managers of public crushing plants, will receive from the Mining Registrar of the district,—

(a.) Two copies of Schedule 13 or 14, according as they may be applicable to machinery areas, leases, or registered claims.

(b.) One addressed envelope, fully prepaid by means of postage stamps, in which the return is to be forwarded to the Mining Registrar.

From this, it will be gathered that all cost to the lessees and managers has been avoided, and the labour of completing the returns has been reduced to a minimum.

4. One of the principal intentions of Regulation 182 being to credit each district with the amount of gold won therefrom, managers of gold-extracting plants, when taking delivery of ore for treatment, are requested to insist upon the locality, from which such ore was derived, being furnished. As the results from ore so treated should be in the hands of the Mining Registrar of the district from which it was obtained on the seventh day of each month, it behoves all managers to post the return as many days before that date as it will occupy in transit.

5. The differences between the table headed "Total Production of Gold, etc." and the "Output of Gold" (Customs and Mint combined), are to be accounted for by the fact that the exportation of gold started, practically, with the inception of the industry; whereas the mode of collecting returns adopted by the Mines Department is the outcome of a system established some few years ago. Up to that date, therefore, no good basis for an exact comparison can be found. As to the discrepancy which exists at present, the assumption is that the whole of the gold won from the ground is not reported to the Department.

6. Notification will be gladly received by the Statist, Department of Mines, Perth, of any omissions that may occur or corrections that may be necessary, the object of the Department being to arrive at an accurate estimate of the minerals produced in Western Australia.

GOLD YIELD—continued.

Main data table containing columns for Mining Centre, Men Employed, Plant, Production, Value of gold per oz., and Remarks. It is divided into sections for Ashburton Goldfield, Peak Hill Goldfield, East Murchison Goldfield, and Murchison Goldfield/Cue District.

ASHBURTON GOLDFIELD.

† About 32 diggers.

PEAK HILL GOLDFIELD.

EAST MURCHISON GOLDFIELD.

MURCHISON GOLDFIELD. CUE DISTRICT.

GOLD YIELD—continued.

Table with columns: Mining Centre, Number of Leases, Registered Name of Company or Lease, Men Employed, Plant (Stamps, Other Mills, Leaching Vats, Filter Presses), Production (Alluvial, Dollied and Specimens, Ore treated, Gold therefrom), Average per ton treated, Value of gold per oz., and Remarks. Includes a sub-section for MURCHISON GOLDFIELD—continued, CUE DISTRICT—continued.

† In addition to the above, there are:—At Cue, 14 diggers; at Reedy's Find, 6 diggers; at Tuckanarra, 10 diggers—Total, 30 diggers.

Table with columns: Mining Centre, Number of Leases, Registered Name of Company or Lease, Men Employed, Plant, Production, Average per ton treated, Value of gold per oz., and Remarks. Includes a sub-section for NANNINE DISTRICT.

† In addition to the above there are about 70 diggers. NOTE.—At page 3238, Government Gazette, 1902, 363N, "Ingliston," cancel crushing 63 tons for 117·80oz., being a duplication of April return.

Table with columns: Mining Centre, Number of Leases, Registered Name of Company or Lease, Men Employed, Plant, Production, Average per ton treated, Value of gold per oz., and Remarks. Includes a sub-section for DAY DAWN DISTRICT.

† In addition to the above, there are:—At Day Dawn, 15 diggers; at Lake Austin, 18 diggers; at Mainland, 2 diggers; at Webb's Patch, 10 diggers—Total, 45 diggers.

† Prior to 1902, included in Goldfields generally.

ROYAL MINT, PERTH BRANCH.

On 20th June, 1899, His Excellency the Governor declared the Perth Branch of the Royal Mint to be open for the receipt of gold for coinage.

Subject to the Regulations, any person may deposit gold at the Mint in his own name. Those who cannot attend personally for the purpose may send the gold by an agent, through the post, or under Police escort.

A circular can be obtained from the Deputy Master of the Mint giving all necessary information for intending depositors, conditions of the Escort Service, Coining Regulations, etc., etc.

Parcels up to 43 ounces gross may be sent through the post.

An Escort Service is provided by the Police Department for parcels of all sizes. The consignor pays for the carriage by coach or train, but the escort charges are collected by the Mint.

Forms for use in connection with gold sent to the Mint by post or under Police escort can be obtained at the Mint.

The Mint charges are as follows:—

For Assaying, Refining, and Coinage.

| Gross Weight of Deposit in ounces. | Mint Charge. | Gross Weight of Deposit in ounces. | Mint Charge. | Gross Weight of Deposit in ounces. | Mint Charge. |

Rates for carriage of gold on Government Railways:—

| | Distance not over | | | | | | | | |
|-----------------------------------|-------------------|-----------|------------|------------|------------|------------|------------|------------|--|
| | 25 miles. | 50 miles. | 100 miles. | 150 miles. | 200 miles. | 250 miles. | 300 miles. | 350 miles. | |
| Gold dust and bullion per 100ozs. | s. d. 1 0 | s. d. 2 0 | s. d. 3 0 | s. d. 3 9 | s. d. 4 6 | s. d. 5 0 | s. d. 5 6 | s. d. 6 0 | |

6d. per 100ozs. for every additional 50 miles.

NOTE.—A special reduction of 25 per cent. is made for all gold dust or bullion consigned to the Perth Mint.

To find the value per ounce of gold sent from a mine to the Mint.—Divide the standard gold by the weight before melting, and multiply the result by £3 17s. 10½d. For instance, supposing the Mint return to show:—

| | | | | | |
|-----------------------|-----|-----|-----|-----|------------|
| Weight before melting | ... | ... | ... | ... | Ozs. 47·41 |
| Standard gold | ... | ... | ... | ... | Ozs. 38·19 |

The calculation would be as follows:—

| | |
|-----------------|------------------------|
| 47413819·0(·805 | ·805 × £3 17s. 10½d. = |
| 3792·8 | ·805 × £3·894 |
| | ·805 |
| 26200 | 19470 |
| 23705 | 311520 |
| 2495 | £3·134(670) |
| | 20 |
| | s. 2·680 |
| | 12 |

d. 8·160 = £3 2s. 8d., value per ounce of gold as produced from the mine.

J. F. CAMPBELL,
Deputy Master.

31st December, 1902.

330
