## THE MINING DEVELOPMENT ACT, 1902.

## REGULATIONS FOR THE PURCHASE OF AURIFEROUS COPPER ORES AT THE STATE SAMPLING WORKS, PHILLIPS RIVER.

2447  
1903

Department of Mines,  
Perth, 2nd July, 1903.

HIS Excellency the Governor in Executive Council, under the powers conferred upon him by Section 29 of "The Mining Development Act, 1902," has been pleased to make the following Regulations for the purchase of Auriferous Copper Ores at the State Sampling Works, Phillips River.

H. GREGORY,  
Minister for Mines.

1. All ores shall be delivered free of charge at the Works, on such place as may from time to time be directed by the Manager.

2. The Manager shall be the sole judge as to whether any parcel of ore shall be accepted for purchase or not, and may order the removal of any ore which he thinks unsuitable; whereupon the owner of the ore shall remove it forthwith from the Works.

3. As soon as possible after receipt of a parcel of ore it shall be weighed at the Works, and the weight so determined shall be taken to be the true gross weight thereof. The percentage of moisture present will be determined by assay, and deducted from the gross weight. A further deduction of one per cent. (1%) will be made for draughtage. The net weight, after these deductions have been made, shall be the weight upon which the ore is purchased.

4. The vendor, or his representative, may be present during the weighing and sampling of parcels of ore, but shall take no part in the handling of the same, nor interfere in any way with the weighing or sampling.

5. After weighing, the ore shall be sampled according to such method as the Manager shall decide, and three samples shall be drawn—one for assay at the Works; one for the vendor, and the third as an umpire sample. The umpire sample shall be sealed in the presence of the vendor or his representative, and retained at the Works.

6. In the event of the vendor not agreeing with the assay of the Works, he may demand that the umpire sample be sent to the Government Assayer, in Perth, whose analysis shall be accepted as final by both parties. The cost of the umpire assay shall be borne by the party whose assay differs most from the umpire's result.

7. In computing the value of the ore, fractions of one per cent. of copper, of one pennyweight of gold, and of one ounce of silver in the assay results will not be taken into account.

8. No charge will be made for sampling and assay of any accepted parcel of ore exceeding five tons (5 tons) net weight, but any smaller parcel shall be charged with a fee of One guinea (£1 1s.), except in the case of a *bonâ fide* first trial parcel from a new working.

9. All parcels of ore which, after sampling, are found unsuitable for purchase by the Works shall be charged with a fee for sampling and assay of One guinea (£1 1s.) for each five tons or fraction of five tons net weight contained in it.

10. Assays for copper shall be made by such wet process as the Manager shall determine, and assays for gold and silver by fire methods, or by any combination of wet and fire methods that may appear to him most suitable.

11. After agreement of assays, the following deductions shall be made from the agreed assay values, in order to arrive at the amounts of the metals for which payment will be made:—

*Copper.*—From assays under ten per cent. of copper, two and a-half units will be deducted. From assays over ten per cent. of copper, three units will be deducted.

*Gold.*—From all assays up to one and a-half ounces per ton, three pennyweights will be deducted. From all assays over one and a-half ounces per ton, five per cent. of the total assay will be deducted.

*Silver.*—No silver will be paid for unless more than five ounces to the ton are present. From all assays of more than five ounces to the ton, ten per cent. will be deducted, together with the fixed amount of five ounces.

12. A smelting charge of Three pounds per ton (net weight) will be made in all cases.

13. Payment will be made for copper, gold, and silver in the ore, less the above deductions and charges, immediately on agreement of assays, at the following rates:—

*Copper.*—At the rate of Fifty pounds per ton.

*Gold.*—At the rate of Four pounds per ounce fine, less ten per cent.

*Silver.*—At the rate of One shilling and ninepence per ounce fine.

After realisation of the ore, whether by smelting on the spot or sale elsewhere, any balance over and above the above payments that may accrue from the realisation will be paid to the vendor, less interest at the rate of five per cent. per annum on the amount of the first payment.

14. The State shall have the right to dispose of any ore on which a first payment has been made, either by smelting or sale, as the Minister of Mines may decide, and the vendors shall have no claim to any compensation on the ground that the ore might have given them a higher return if disposed of in some manner other than that adopted.

15. All accounts against the State for payments due on account of ore sold to the Works shall be rendered on the usual forms of accounts against His Majesty's Government, and shall be certified as correct by the Manager of the Works before being forwarded to the Under Secretary for Mines, Perth, for payment.

## SCHEDULE 14.

## NOTICE OF INTENTION TO RESUME AUTHORISED HOLDINGS ON BEHALF OF HIS MAJESTY.

To the registered Shareholders in the holdings mentioned hereunder, and situate within the boundaries of the Marble Bar District of the Pilbarra Goldfield, which are liable to be forfeited or determined.

**TAKE NOTICE** that it is my intention, on Thursday, the sixth day of August, 1903, to issue out of the Warden's Court at Marble Bar an order authorising the resumption of possession for and on behalf of His Majesty, in accordance with Regulation 107 of the Regulations under the Goldfields Acts, of all the pieces of land in the holdings mentioned hereunder, registered in the Registers in my Office, and described as hereunder, and of which you are registered as the holders, as set out opposite your respective names.

The order may issue in your absence, but should you desire to object to such issue you must, within twenty-one days from the publication of this notice, lodge at my Office an objection in the form of Schedule 11 under the Goldfields Regulations, containing the grounds of such objection, and on the date above-mentioned I shall proceed to hear and determine the same in accordance with the evidence then submitted to me.

Given under my hand this 27th day of June, 1903.

Perth, 2nd July, 1903.

## BY-LAWS.

1. Every rate-paying consumer will be entitled to a supply of water at the rate of 8s. per thousand gallons in return for the amount of rates paid by him. Provided that such water shall be taken during the period for which the rate is struck, and that the maximum quantity to be taken in consideration of the rate, during any one quarter of a year, shall not exceed one-fourth of the supply to which the consumer is entitled in respect of an annual rate, or one-half of the supply to which he is entitled in respect of a half-yearly rate.

Any consumer taking water in excess of the quantity to which he is entitled in respect of a rate will be charged 8s. per thousand gallons for so much as is taken in respect of the rate, and 7s. 6d. per thousand gallons for the excess up to a total consumption of eight thousand gallons per quarter, and 7s. per thousand gallons for any excess beyond a total consumption of eight thousand gallons per quarter.

Every quarter shall end 31st March, or 30th June, or 30th September, or 31st December in every year.

2. The Minister may, by notice to a consumer from time to time, restrict the quantity of water that may be supplied to him in any one week.

3. During the time any meter is undergoing repairs, or should it cease to properly register the consumption of water, the Minister may, at his option, estimate the quantity of water consumed by taking an average of the quantity used during the previous month or quarter, or during the corresponding period of the previous year, and shall charge for the consumption so ascertained.

4. Application for services shall be made on the printed form procurable at the local Water Supply Office, and shall be lodged not less than three days before the service is required.

Applications will not be entertained unless full information as indicated on the printed form is supplied, and the full amount of rates, due on the premises to which a service is required, is paid.

In respect of all metered services the amount of meter rent up to the close of the half-year current at time of application shall accompany the application.

5. It shall be at the discretion of the local officer as to whether or not a meter shall be affixed to any service, and such officer will also determine the size and class of meter in each case.

6. Meters will be supplied by the Water Supply Administration, and rent for same shall be payable half-yearly in advance on the following scale:—

Size of meter.	Annual rent.
$\frac{3}{4}$ in. ... ..	10s.
$\frac{1}{2}$ in. ... ..	12s. 6d.
$\frac{1}{4}$ in. ... ..	15s.
$\frac{3}{8}$ in. ... ..	20s.
1 in. ... ..	25s.

Larger sizes by arrangement.

7. The water rate shall be at the rate of 1s. 6d. in the pound per annum upon the net annual value of all ratable land. The minimum sum payable as rate shall be One pound per annum. Rates shall become due and payable half-yearly in advance, in the first week in January and the first week in July.

8. No person to whom water is supplied by the Minister shall, without written permission, sell or supply water to any other person other than any person who may reside on the premises of which he is the occupier.

9. The occupier of any premises to which the water has been laid on, or, in the event of there being no occupier, the owner, shall cause proper means to be taken, by locks or otherwise, subject to the approval of the local officer, to prevent the use of the water from the main by persons not connected with the premises supplied.

10. The owner or occupier of any allotment of land within the water area who shall erect or make, or cause to be erected or made, any building or addition to an existing building on such land, shall, within one calendar month thereafter, give notice in writing thereof to the Minister.

\* Averages for three years only.

The rain that set in on the West and South-West coast at the end of last month extended throughout the State South of the tropics, and during the month of June good rains were experienced, the fall being considerably above the average throughout the district between Onslow and Geraldton, and about the average, or slightly above, over the Goldfields and throughout the South-West and South. North of Onslow little fell, and nil in the Kimberley district.

The rain was particularly heavy on the 28th in the Geraldton district, over four inches being recorded at several places in the 24 hours.

The atmospheric pressure was above the average, particularly inland over the Goldfields.

The day temperatures were about normal, but the night were slightly above the average for previous years; frosts were, however, experienced at many places inland.

The following table gives the mean and lowest on the surface of the ground during the month:—

We certify to having examined the books, vouchers, etc., of the Collie Road Board, and this is a true statement of the same. In affixing our signatures to this interim receipt and expenditure sheet, we desire to call attention to the expenditure of £38 10s. on a banquet to the Minister of Lands. A portion of this amount is covered by subscriptions amounting to £19 6s. 6d., but the balance still outstanding, viz., £19 3s. 6d., is very much in excess of the amount that was legally applicable to this purpose at the time, or even the amount that may be available when the arrears of rates and the Government subsidy have been received. At the present time a sum of £16 3s. 6d. is due from the members of the Board who sanctioned this expenditure.
