Complete Specifications.

Patent Office, Perth,
4th March, 1904.

NOTICE is hereby given that the undermentioned Applications for the Grant of Letters Patent, and the complete Specifications annexed thereto, have been accepted, and are now open to public inspection at this Office.

Any person or persons intending to oppose such applications must leave particulars, in writing, in duplicate (on Form D), of his or their objections thereto, within two calendar months from the date of this Gazette. A fee of Ten shillings (10s.) is payable with such notice.

Application No. 4807.—GEORGE HILL and GEORGE PERRY, of 114 King Street, Perth, Plumbers, "*Improved Exhaust Ventilator.*"—Dated 16th February, 1904.

Claims:—

1. The shape of this ventilator as shown in drawings.
2. The disc C on drawings put in to catch drift rain water. The tube B to carry water out through half-inch hole A in cone.

Specifications, 1s. Drawings on application.

Application No. 4810.—DE BEAUVIOR DE LISLE, of Wainmate Valley, Gisborn, Sheep Farmer, and EDWIN VALENTINE LUTTRELL, Veterinary Surgeon, Gisborn, New Zealand, "*An improved Branding Composition.*"—Dated 19th February, 1904.

Claims:—

1. The herein described composition of matter, consisting of coal tar and antimony (tartar emetic) substantially as described, and for the purpose specified.

Specifications, 2s.

Application No. 4812.—ROBERT LIVINGSTONE LOCKERBIE, of Mary Street, East Invercargill, New Zealand, Carpenter, "*Improvements in means for hanging sashes, doors, and the like.*"—Dated 23rd February, 1904.

Claims:—

1. The general construction arrangement and combination of parts composing my improved means for hanging sashes doors and the like all substantially as and for the purposes set forth.

2. A continuous cord extending from one end of a spring actuated roller to the other end thereof running round pulleys mounted at or near each end of the top rail of a sash—said cord being secured to said roller so as to be wound up thereby substantially as and for the purposes set forth.

3. A telescoping roller consisting of a hollow spindle, a supporting bearing for one end thereof, two circular flanges thereon forming a drum near said bearing a spring surrounding said hollow spindle and secured by one end thereto and by its other end to a case covering said hollow spindle, a locking bolt on said case adapted to enter a hole in one of said flanges, a loose spindle with one end adapted to enter said hollow spindle and with its other end to enter a sheath, a supporting bearing for one end of said sheath, two circular flanges on said sheath forming a drum and a set screw to clamp said loose spindle to said sheath at a desired length substantially as and for the purposes set forth.

Specifications, 5s. 6d. Drawings on application.

Application No. 4813.—EDWIN PHILLIPS, of 533 Collins Street, Melbourne, in the State of Victoria, Commonwealth of Australia, Certified Patent Agent and Engineer (*Olho Cromwell Duryea and Morris Columbus White*), "*High Compression Gas or Vapour Engine.*"—Dated 23rd February, 1904.

Claims:—

1. In a free piston engine arranging and forming the pistons and cylinders so that the former are capable of entirely filling up the ends of the latter whereby an extremely high compression of the interposed charge can be obtained on the return movement of the pistons.

2. In a free piston engine an automatic ignition of the charge by means of the high compression of the same, substantially as described.

3. In a free piston engine continuing the compression of the charge after the self-ignition of the same, substantially as and for the purpose described.

4. In a free piston engine forming a deflector on the back end of the piston and a recess in the cylinder for this deflector to enter on its return stroke, substantially as and for the purpose described.

5. A free piston engine with inter-connected self-balanced free pistons, the various parts of which engine are arranged and co-act substantially as set forth and shown in the accompanying drawings.

Specifications, 22s. Drawings on application.

Application No. 4814.—LUTHER PETER FRIESTEDT, Contracting Engineer, of No. 1200 Tribune Building, Chicago, County of Cook, State of Illinois, United States of America, "*Metal Sheet Piling.*"—Dated 23rd February, 1904.

Claims:—

1. A metal sheet-piling, composed of beam-sections assembled together and presenting a single wall at all points, and means for locking said beam-sections in their interlocked engagement.

2. A metal sheet-piling, comprising beam-sections having interlocking edges and joined together in the relative alternate position shown, and in presenting a single wall at all points.

3. A metal sheet-piling, composed of channel-beams joined edgewise and having the back and channel sides thereof positioned alternately with reference to each other when assembled in a wall structure.

4. In metal sheet-piling, the combination with piling beam-sections interlocked along their flanged edges in continuous order of succession, of the angle z-bars secured to and preventing the displacement of the sections when assembled together.

5. In metal sheet-piling, a corner section composed of companion L-beams positioned at right angles with reference to each other, of an angle-iron rigidly joining the L-beams and the companion z-bars secured thereto.

Specifications, 6s. Drawings on application.

R. G. FERGUSON,

Registrar of Patents.

Renewal Fee paid on Patent registered from the 20th to 27th February, 1904.

Fee payable before the end of the seventh year in respect of the seven following years:—

No. 1657.—Blanton Patents Syndicate, Ltd.

Trade Marks

*Patent Office, Trade Marks Branch,
Perth, 4th March, 1904.*

IT is hereby notified that I have received the under-mentioned Applications for the Registration of Trade Marks.

Any person or persons intending to oppose such applications must leave particulars, in writing, in duplicate (on Form F), of his or their objections thereto, within two calendar months from the date of this *Gazette*.

A fee of £1 is payable with such notice.

In the case of an Application in which have been inserted a statement and disclaimer (or a disclaimer only), a copy of the same is printed in *italics* in connection with the advertisement.

R. G. FERGUSON,
Registrar of Designs and Trade Marks.

Application No. 3013, dated 14th January, 1904.—PHILIP P. CHEESE, of Perth, in the State of Western Australia, Merchant, to register in Class 42, in respect of Tea, Coffee, and Cocoa, a Trade Mark, of which the following is a representation:—

The essential particulars of the above Mark consist of the distinctive label.

Application No. 3036, dated 8th February, 1904.—D. & W. MURRAY, LIMITED, of Gawler Place, Adelaide, South Australia, and trading also in Melbourne, Brisbane,

Launceston, and Perth, Importers and Warehousemen, to register in Class 38, in respect of Articles of Clothing (except shirts), a Trade Mark, of which the following is a representation:—

THE CLINKER BRAND.

The essential particular is the word "Clinker"; and the applicants disclaim the exclusive right to the use of the added matter.

Application No. 3042, dated 13th February, 1904.—THOMAS DAVID TURNER, of 20 and 22 Mouatt Street, Fremantle, Wine and Spirit Merchant, to register in Class 43, in respect of Whisky, a Trade Mark, of which the following is a representation:—

The essential particulars of the Mark consist of the device and the word "Fidra"; and applicant disclaims any right to the exclusive use of the added matter, save and except the name and address, Roy, MacGregor & Co., Glasgow.

Application No. 3045, dated 16th February, 1904.—THE SYDNEY SOAP AND CANDLE COMPANY, LIMITED, of 337 Kent Street, Sydney, in the State of New South Wales and Commonwealth of Australia, and elsewhere, Manufacturers, to register in Class 47, in respect of Candles, Common Soap, Detergents, Illuminating, Heating, or Lubricating Oils, Matches, and Starch, Blue, and other preparations for laundry purposes, a Trade Mark, of which the following is a representation:—

The essential particulars of the Trade Mark are the distinctive device and the word "Neptune."

Application No. 3047, dated 18th February, 1904.—HORLICK'S FOOD COMPANY, of Racine, Wisconsin, United States of America, and 34 Farringdon Road, London, England, to register in Class 42, in respect of Malted Milk and similar foods, a Trade Mark, of which the following is a representation :—

The essential particular of this Trade Mark is the distinctive label.

Application No. 3052, dated 23rd February, 1904.—GOODLASS, WALL, AND COMPANY, LIMITED, of 42 and 44 Seel Street, Liverpool, in the County of Lancaster, England, Paint, Colour, and Varnish Manufacturers, to register in Class 1, in respect of Paints, Pigments, Colours, Varnishes, and Mineral Dyes, included in Class 1, a Trade Mark, of which the following is a representation :—

The said Trade Mark having been used by us (and our predecessors in business) in respect of the goods mentioned, for 21 years before the 1st January, 1885.

Class 4, in respect of Oils used in Manufactures and not included in other classes, Turpentine, Resins, and Dyes, not included in other classes, a Trade Mark, of which the following is a representation :—

The said Trade Mark having been used by us (and our predecessors in business) in respect of the goods mentioned for 21 years before the 1st January, 1885.

Application No. 3053, dated 23rd February, 1904.—GOODLASS, WALL, & COMPANY, LIMITED, of 42 and 44 Seel Street, Liverpool, in the County of Lancaster, England, Paint, Colour, and Varnish Manufacturers, to register in

Application No. 3054, dated 23rd February, 1904.—GOODLASS, WALL, AND COMPANY, Limited, of 42 and 44 Seel Street, Liverpool, in the County of Lancaster, Eng-

land, Paint, Colour, and Varnish Manufacturers, to register in Class 1, in respect of Paints, Pigments, Colours, Varnishes, and Mineral Dyes included in Class 1, a Trade Mark, of which the following is a representation:—

EMPIRE

Application No. 3055, dated 23rd February, 1904.—GOODLASS, WALL, & COMPANY, LIMITED, of 42 and 44 Seel Street, Liverpool, in the County of Lancaster, England, Paint, Colour, and Varnish Manufacturers, to register in Class 4, in respect of Oils used in Manufactures, and not included in other classes, Turpentine, Resins, and Dyes not included in other classes, a Trade Mark, of which the following is a representation:—

EMPIRE

Application No. 3056, dated 23rd February, 1904.—DUNLOP PNEUMATIC TYRE COMPANY OF AUSTRALASIA, LIMITED, of No. 108 Flinders Street, Melbourne, in the State of Vic-

toria, to register in Class 40, in respect of Pneumatic Tyres and other goods manufactured from India-rubber, a Trade Mark, of which the following is a representation:—

REGENT.

Application No. 3058, dated 24th February, 1904.—Howison & Co., of 4 Snow Hill, London, England, Merchants, to register in Class 40, in respect of Goods manufactured from India-rubber and Gutta Percha, not included in other classes, a Trade Mark, of which the following is a representation:—

PENNA

Trade Mark Application withdrawn.

20TH TO 27TH FEBRUARY, 1904.

No. 2824, dated 27th May, 1903.—The persons trading under the firm-name or style of "TILLOCK & Co.," at Kent and Liverpool Streets, Sydney, in the State of New South Wales, and Commonwealth of Australia, Merchants and Manufacturers, to register in Class 42, in respect of substances used as food or as ingredients in food.
