NOTICE is hereby given that the undermentioned Applications for the Grant of Letters Patent, and the complete Specifications annexed thereto, have been accepted, and are now open to public inspection at this Office.

Any person or persons intending to oppose such applications must, leave particulars, in writing, in duplicate (on Form D), of his or their objections thereto, within two calendar months from the date of this Gazette. A fee of Ten shillings (10s.) is payable with such notice.

Application No. 4701.—FRANZ JURSCHINA, of Birgerjarlgaten, Stockholm, in the Kingdom of Sweden, sculptor, "*Improvements in and relating to the manufacture of Artificial Stone*"—Dated 17th November, 1903.

Claims:—

1. A process of manufacture of artificial stone for ornaments, figures and the like from sand or powdered stone, silicate of soda (soluble glass) and a substance of the nature of clay, the main feature of such process being that an adequate quantity of cement is added to the mixture, the resulting substance being packed into elastic moulds, and being, after solidifying to a rigid mass, dried and fired substantially as described.

2. A modified form of the process referred to in Claim 1, whereof the main feature is that the clay is diluted in a soluble glass solution and thoroughly mixed and kneaded together with a mixture of sand and cement, a small proportion of such mixture being moreover mixed with a larger quantity of silicate solution so that there is obtained a thick liquid which first of all is cast into the mould, after which (but not before) the moulding material proper is packed into such mould: the object being accurately to fill up all the recessed parts of the casting mould substantially as described.

Specification, 4s. 6d.
