His Excellency the Governor in Executive Council has been pleased to make the following Regulations under "The Agricultural Lands Purchase Act, 1896," in lieu of all others previously published in the *Government Gazette*, which are hereby repealed.

R. CECIL CLIFTON,
Under Secretary for Lands.

2. Every application shall be for a lot or lots as surveyed on the ground, and shall be in the Form A in the Schedule, and shall be deemed to have been received on the last day of the period during which applications may be made. All applications received after that date shall take priority according to the order of their being received at the place or places mentioned in the notice.

3. Every applicant shall make a statutory declaration in the Form B in the Schedule, with such alterations as the Minister may approve. Such declaration shall be made before a Justice of the Peace, the Under Secretary for Lands, or an Agent duly appointed by the Minister for Lands.

4. A deposit, at the rate of £7 12s. 10d. for each one hundred pounds of the selling price of the lot, as fixed by the Governor, shall be made with the application.

5. The Minister may reject the application of any person who, in the opinion of the Minister, is not qualified to be an applicant, or is disqualified, or is not a *bona fide* intending settler on the lot applied for.

6. Should there be only one application for any lot, the Minister may, in his discretion, approve or reject the application, and notice thereof shall be posted to the applicant.

7. Should any such application be refused, the lot applied for shall be again notified open to selection.

8. If there are two or more applications for the same lot, the Minister may appoint such persons as he may think fit as a board to hold an inquiry to select the person to whom the land shall be granted.

9. The deposit paid by every applicant, whose application is not approved, will be returned to him.

10. On the approval of an application, a lease shall, as soon as practicable, be granted to the applicant in the Form C in the Schedule, or to the effect thereof, for the term of twenty years, commencing on the first day of the quarter next preceding the date of the approval of the application.

11. The price of the lot, as fixed by the Governor, shall be payable as an annual rent extending over the term of the lease, and as prescribed by the Agricultural Lands Purchase Acts and Section 136 of "The Land Act, 1898."

12. The deposit paid with the application shall be applied in payment of the rent payable for the first year of the term granted by the lease.

THE CLIMATE OF WESTERN AUSTRALIA DURING JANUARY, 1905.

From Telegraphic Reports.

Main climate data table with columns: Locality, Lat. South, Long. East, Barometer (corrected and reduced to sea level.), Shade Temperatures (January 1905, Average for previous Years), Rainfall (Points 100 to inch in month, Wet Days, Total Points since Jan. 1).

INTERSTATE.

Interstate climate data table with columns: Locality, Lat. South, Long. East, Barometer, Shade Temperatures, Rainfall.

JANUARY, 1905.

This month was exceptionally cool in South-West districts, the mean maximum for Perth being one of the lowest on record. This summer will probably be gratefully remembered here on account of the remarkably long period of uninterrupted cool weather, extending from December 21st to January 16th, during the whole of which time the thermometer at the Observatory only once reached 0° (82·6 on December 26th). This is the longest cool spell that has ever been recorded here. The present summer will probably be remembered in the Eastern States on account of the excessive heat waves, and it is probable that the same cause produced both our cool and their hot weather, for a succession of moderate "lows" travelled through Australia from our North-West coast in a more or less South-westerly direction, and these brought severe heat throughout our inland and especially North-West districts, and later in Eastern States, whilst the South-West corner of Australia was enjoying the cool breezes blowing from the higher pressure off the South-West coast towards the "lows" inland.

THE CLIMATE OF WESTERN AUSTRALIA—*continued.*

The effect of the sea breezes in modifying the temperature is again well shown in the mean daily maximum along an approximately East and West line. Thus, between Rottnest and Southern Cross we find—

Rottnest	74.3
Fremantle	76.7
Perth Observatory	80.2
Perth Gardens	83.3
Guildford	85.0
York	88.2
Southern Cross	94.5

The value of Rottnest as a summer holiday resort is strikingly shown by the fact that the maximum temperature for the month was 83.2, whilst at the Observatory it was 97.1 and Guildford 102.1. On the other hand it was even lower on the South coast. The mean maximum for the month at Cape Leeuwin was 73.1 and at Breaksea 68.6, and the absolute maximum at those places 79.5 and 75.0 respectively. The hottest place in the State from which records were sent is Marble Bar, in the North-West interior, where the mean maximum was 108.9 and the absolute maximum 120.5. The coolest nights were, as usual, experienced at Bridgetown, where the mean minimum was 49.8 and the absolute lowest 35.2. Rainfall was considerably below the average in the tropics, whilst elsewhere it was very light. In fact, with the exception of a few coastal showers and scattered thunderstorms, no rain has fallen since the break-up of the heat inland at the end of December.

The Observatory, Perth, 8th February, 1905.
