PUBLIC SERVICE EXAMINATIONS.

A COMPETITIVE Entrance Examination to the Clerical Division under the Public Service Act will be held in the hall of the James Street Girls' School, Perth, on January 16th, 17th, and 18th, beginning at 9 a.m.

It is estimated that during the year 1906 there will be twelve vacancies in Class G, 4th Grade, of the Clerical Division.

This being the first examination held under the Public Service Act, message boys already in the service are notified that the terms of their employment are governed by Regulation 284, and that if they are to remain in the service after they have attained the age of 18 years they must obtain a position in the Clerical Division by competitive examination.

Juniors already in Class G of the Clerical Division, namely, those who are in receipt of a salary of £100 per annum or under, should present themselves for examination, as unless they pass this examination now they will be required to pass it before promotion to Class F; and as promotion to this class will also be governed by an examination in connection with clerical duties and attainments, it would be wise to get through the educational test examination without delay.

Candidates must notify the Public Service Commissioner, in writing, on or before the first day of December, 1905, of their intention to present themselves for examination.

The standard required in the subjects prescribed will be about equivalent to that required in the Ex-Seventh Standard of the State schools, and in the Junior Examination of the Adelaide University.

If necessary, examinations will be arranged in other Centres.

M. E. JULL,
Public Service Commissioner,
9th November, 1905.

Matriculation of any University.

Senior and Junior of the Adelaide University.

Ex-Seventh of the State School.

The above does not apply to Messengers already in the Service, nor to applicants from outside the Service. These must obtain positions in the Clerical Division by competitive examination.

THE MINING ACT, 1904.

AMENDMENT OF REGULATIONS.

*Department of Mines,**Perth, 29th November, 1905.*

¹⁸³⁶
¹⁹⁰⁵
HIS Excellency the Governor in Council has been pleased to make the following Amendments and Additions to the Regulations under "The Mining Act, 1904," to come into force throughout the State on the 1st day of December, 1905.

H. GREGORY,

Minister for Mines.

AMENDMENTS AND ADDITIONS.

1. In Regulation 41, the word "five" is struck out and the word "six" is inserted in place thereof; and after Subclause (e) a Subclause is inserted, as follows:—

- (f.) A Race or Pipe Track Water Right shall mean the right to occupy, for the purpose of cutting a race or for laying a water-pipe on or underneath the surface of Crown land, such area as may be fixed by the Warden on the granting of the right.

A Race Water Right shall entitle the holder to cut, construct, and maintain a water race or use as a water race any natural channel on such land as may be fixed by the Warden on the granting of a right.

When a Race Water Right has been granted for the purpose of a tail-race it shall, during its currency, entitle the holder to cut, construct, maintain, and use the race in order to carry off water, tailings, sludge, and other refuse from mining operations, or to serve as a ground-sludge or race for saving gold or minerals, provided that the holder shall not be entitled to treat any portion of such tail-race as a ground-sludge or race for saving gold or minerals excepting such portion as may be approved by the Warden on the granting of the application.

Such area shall not be fenced except with the approval of the Warden first obtained.

The course of any Race or Pipe Track Water Right may at any time be deviated, and the Warden may make an order for such deviation should he consider the same necessary in the public interest.

2. After Regulation 62 a regulation is inserted, as follows:—

RACE OR PIPE TRACK WATER RIGHTS.

Method of taking possession.

62A. Before making application for a Race or Pipe Track Water Right the applicant, or some person authorised on his behalf, shall erect a substantial post or cairn of stones projecting not less than three feet above the surface at each end of the proposed race or pipe track, and on each of such posts or cairns there shall be affixed a notice, signed by the applicant or his agent, setting forth the date and hour at which such land was taken possession of, the approximate length of the proposed race or water-pipe, and the course thereof.

Before granting any Water Race or Pipe Track Water Right which passes over any public road, the Warden shall require from the applicant sufficient proof that the local authority consents thereto, and it shall be a condition precedent to the granting of any Water Race or Pipe Track Water Right that wherever the race or water-pipe crosses any mining tenement it shall be constructed in such a manner as not to interfere with the working, use, or enjoyment of such tenement, and wherever any such race or water-pipe crosses any road or footway used by the public, there shall be constructed and kept in repair a good and substantial bridge over the same. Every such bridge shall, when crossing a road, be not less than 12 feet in width, and when crossing a footway, not less than 6 feet in width. The holder of any Water Race or Pipe Track Water Right shall be entitled to a width of 10 feet of land on each side of the race or water-pipe for the protection thereof.

Provided that when it is proved to the satisfaction of the Warden that a greater width than 10 feet on each side of a race is necessary he may, in his discretion, grant the same. Provided further, that any such land may be mined upon on compensation to the holder, or upon providing an equally good and convenient race or water-pipe, to the satisfaction of the Warden, in lieu thereof.

It shall be lawful for the Warden from time to time, by order in writing, to authorise any person or persons lawfully engaged in mining operations to use or enlarge, for the purpose of such operations, any tail-race held by any other person (excepting such portion thereof as may lawfully be used as a ground-sludge for saving gold or other minerals), subject to the conditions following:—

- (a.) That the persons in whose favour the order is made pay to the holder of the tail-race a proportionate share of the original cost of the construction of such tail-race, or a periodical payment in advance as a rent for the use thereof; and also,
- (b.) That if it is proposed to enlarge such tail-race, such enlargement shall be at the sole expense of the persons in whose favour the order is made, and shall be so carried out as not to unduly interfere with the mining operations of the holder of the tail-race; and also,
- (c.) Such other conditions as the Warden thinks equitable.

Where an order pursuant to the foregoing regulation has been made, the persons in whose favour it is made shall at all times, on receiving notice in writing from the holder of the tail-race, forthwith assist in clearing the race whenever it is reasonably necessary so to do, and if any such person makes default in so assisting it shall be competent for the holder of the race to clear the same and to recover from the person in default his proportionate share of the cost thereof.

The proportionate share of the cost of construction, the amount of the rent, and any dispute between the parties in respect of the premises shall, if not settled by the parties, be determined by the Warden.

All gold or minerals discharged into such tail-race shall belong to the parties, in shares to be settled by them, or in case of dispute, to be determined by the Warden.

A Water Race or Pipe Track Water Right shall be deemed to be forfeitable when from any cause the race or water-pipe be not used for the space of three consecutive months, provided always that water be available to be run through the same, or that exemption from the use of such race or water-pipe has not been granted by the Warden and registered, or for non-compliance by the holder with any of the conditions upon which the same may have been granted.

3. The following words are added to Regulation 145:—
"In the event of an application being refused, the applicant shall be entitled to a refund of the fees paid by him on lodging his application, less a recording fee of 2s. 6d."

4. The following words are added to Regulation 192:—

At the end of Subclause (2):—"Exclusive of their own wages."

At the end of the said Regulation:—"Provided that in any case in which the Warden may refuse registration he shall, if requested, forward to the Secretary for Mines, for submission to the Minister, a report giving his reasons for such refusal, together with a copy of the agreement, and the Minister may, if he think fit, order registration."

5. In Form No. 59, "Rents and Royalties," the words "Water right, water race, or pipe track, per annum, £1" are inserted before the words "royalty per ounce."

6. In Form 59, "Survey Fees," the words "Water right, water race, or pipe track, such special fee as may be arranged with the approval of the Warden or Inspecting Surveyor" are added at the end thereof.

THE MINING ACT, 1904.

Each order may issue in the absence of the registered holder, but should he desire to object to such issue, he must, before the date mentioned, lodge at the Warden's Office an objection, containing the grounds of such objection, and on the date mentioned the Warden will proceed to hear and determine the same in accordance with the evidence then submitted.

* Estimated

On the assumption that the mean population for the year 1906 will be 265,000, and that the apparent requirements of wheat for food per head of population will be 7.9 bushels, the total amount required for food during 1906 will be 2,093,500 bushels.

To this must be added the quantity of seed to be sown for grain and hay during the season, which, on the basis of the experience of recent years, may be roughly estimated at 340,000 bushels.

The total amount of wheat required by this State during 1906 will thus be 2,433,500 bushels. According to the preliminary wheat returns for the present season, it appears that the aggregate wheat yield for the whole State is approximately 2,095,426 bushels, thus leaving only 338,074 bushels of wheat, or its equivalent in flour, that it will be necessary to obtain from outside sources. This may be summarised as follows:—

ESTIMATES FOR 1906.

Mean population	265,000
Consumption per head of wheat for food	7.9 bushels
Total food requirements	2,093,500
Seed requirements	340,000
Gross requirements for food and seed	2,433,500
Preliminary returns of wheat production for season ended February, 1906	2,095,426
Estimated requirements from outside sources	338,074
