H. S. KING, Secretary for Mines.

Department of Mines,
Perth, 28th December, 1907.

2000/06.

HIS Excellency the Governor in Executive Council, under the powers conferred upon him by Section 29 of "The Mining Development Act, 1902," has been pleased to cancel the Regulations gazetted on the 8th April, 1904, and in lieu thereof to make the following Regulations under which stone will be crushed and tailings purchased at the State Batteries.

H. GREGORY,
Minister for Mines.

(1.) All stone accepted for treatment at State Batteries shall be estimated at 22 cubic feet per ton, except where weighing machines are provided, when stone must pass over same to ascertain weight.

(2.) The manager of the Battery may refuse any stone considered too poor to pay crushing charges, unless a deposit is paid in advance.

(3.) The charge for crushing at each Battery, as determined from time to time by the Hon. the Minister for Mines, shall be posted up at each Battery and strictly adhered to while in force.

(4.) A minimum charge will be made for all parcels of less tonnage than will return five pounds on the rate charged per ton.

(5.) Payment for treatment shall be made to the Manager on completion of crushing, or sufficient gold will be retained to pay the amount due.

(6.) Where a cyanide plant has been erected at a battery, tailings consisting of sands and slimes resulting from stone crushed at that battery may be purchased, but the Manager may, in his discretion, refuse to purchase any tailings should he consider them unsuitable for treatment by cyanide.

(7.) The tailings produced from each parcel crushed may be purchased by the Department paying for 75 per cent. of the gold contents as shown by assay after deducting three pennyweights per ton to cover losses and cost of cyaniding.

Gold to be paid for at the rate of 80s. per ounce.

(8.) The number of tons of tailings to be paid for from each parcel shall be determined by the Manager whose decision shall be final, but the amount shall not be less than 80 per cent. or more than 90 per cent. of the tons crushed.

(9.) The Manager shall take samples of the tailings as they pass through the battery or from the vats into which the tailings may be deposited. The sample collected shall be thoroughly mixed and divided into four samples, one for assay by the manager, and one for the vendor; the other two shall be sealed, one being sent to the Perth office of the Mines Department, and the other kept by the Manager for reference or umpire if necessary.

(10.) Within three weeks of the completion of the crushing the vendor and manager shall compare assays, and if these differ by not more than six grains per ton the mean of the assays shall be accepted as correct. If there should be a greater difference than six grains between the assays, the umpire sample shall be sent by the Manager to the Government Assayer at Perth, whose assay shall be accepted as final by both parties. The cost of the umpire's assay (10s.) shall be borne by the party whose assay differs most from the umpire's result. The Manager's assay shall not be made known to the vendor until he has produced his assay certificate for comparison of assays or has agreed in writing to accept the manager's assay. If the vendor does not produce an assay certificate for comparison within 21 days of the completion of the crushing, the Manager's assay shall be final.

If the manager considers any sample shows an abnormal assay value for the grade of ore producing the tailings, he may refer the matter to the Minister, whose decision as to the values to be paid on shall be indisputable and final.

(11.) All tailings assaying less than three (3) pennyweights per ton shall become the property of the Government.

(12.) Where no cyanide plant has been erected at a Battery, any person desirous of claiming tailings, the proceeds of his crushing, may remove them to a site

clear of the settling area immediately the crushing is completed, and must notify the manager of his intention to do so previous to commencement of the crushing. All tailings not so removed shall be deemed abandoned, and may be dealt with as the Minister may direct.

(13.) All stone will be delivered and received for treatment absolutely at the owner's risk, and the Government shall not be responsible for any suspension of operations, delays in treatment, or for any loss or damage arising from any cause whatsoever.

(14.) Any customer or his deputy may be present during the crushing of his parcel, but shall take no part in the treatment except by the express permission and under the direction of the Manager.

(15.) At every Battery there shall be kept a book in which shall be recorded the number of tons in each parcel left for treatment, the name, locality, and number of the lease or holding from which it is obtained, and the name of the person for whom the stone is to be crushed.

(16.) A copy of the foregoing rules shall be inserted in the said book, and every person sending stone for treatment shall sign opposite the entry relating to the stone lodged by him, and such signature shall be sufficient evidence that he is cognisant of the foregoing rules and agrees to be bound by them.

PART IV.—THE SUPPLY AND DISTRIBUTION OF WATER.

Water may be cut off from unoccupied premises, etc.

49. The Water Board may turn or cut off the water supply—

- (1.) If the land to which water is supplied is unoccupied; or
- (2.) When any rates or moneys due for water supplied, or agreed to be supplied, or any rent or charges for any meter or other fittings remain unpaid for seven days after they become due; or
- (3.) If the occupier refuses to permit a meter to be attached to any pipe on his land; or
- (4.) If the occupier commits or permits any breach of any of the provisions of this Act or the By-laws thereunder.

Turning or cutting off the water shall be a cumulative remedy for enforcing payment of water rates or other moneys due, and shall not relieve the owner or occupier from liability in respect thereof.

Supply of Water not Compulsory.

50. It shall not be compulsory on the Water Board to supply or continue to supply water to any person; and the Water Board shall not be liable to any penalty or damages for not supplying or continuing to supply water.

PART V.—THE PROTECTION OF WORKS AND FITTINGS AND THE PREVENTION OF WASTE.

Duty to keep Fittings in Repair.

51. Every person supplied with water under this Act shall keep the service or communication pipe, and all prescribed fittings within or attached to his land, in good repair, so as to effectually prevent the water from running to waste.

Fittings not to be connected or disconnected without notice.

52. No person shall—

- (1.) Connect a meter, pipe, or other fitting through which water is or is intended to be supplied; or
- (2.) Disconnect a meter, pipe, or other fitting from any other meter, pipe, or other fitting through which water is or is intended to be supplied.

Power to enter and examine whether water is wasted, etc.

53. (1.) Any officer of the Water Board may, at all reasonable times, enter upon any land to which water is supplied under this Act, and may examine and ascertain—

What quantity of water has been consumed there;

Whether there has been or is any waste, misuse, fouling, or contamination of the water; and

Whether all fittings, with the materials and mode of arrangement thereof, used or intended to be used are in accordance with the By-laws, and in proper order and repair.

(2.) When a fitting is not in accordance with the By-laws, or is out of proper order and repair, the officer of the Water Board may repair or remove it, and, if necessary, substitute others in its stead, or may alter the mode of arrangement, as the case requires.

Any expense incurred by the Water Board in that behalf shall, on demand, be repaid by the owner or occupier of the land, and if not repaid on demand may be recovered by the Water Board in the same manner in which water rates may be recovered.

Protection of fittings.

54. No person shall remove, alter, repair, renew, or uncover any pipe or other fitting which is the property of the Water Board until the prescribed notice has been given to the Water Board, and the consent of the Water Board, in writing, obtained.

No such pipe or fitting shall be subject or liable to be seized or taken in execution by process of law under distress for rent.

Power to enter on land and fix fittings.

55. Any person authorised by the Water Board may at all reasonable times enter upon any land to which water is or is intended to be supplied under this Act, and may place and fix thereon and attach thereto, wherever the Water Board thinks proper, such fittings as the Water Board may think expedient, and may there do all other acts and execute all other works which the Water Board may think fit.

Any person so authorised may, at all reasonable times, enter upon such lands and examine, remove, repair, alter, or replace all or any of such fittings.

- (2.) Alters, misuses, injures, or removes any authorised fitting, except for the purpose of necessary repair,

he shall forfeit and pay to the Water Board a sum not exceeding Fifty pounds, and shall, in addition, be liable to pay to the Water Board any damages sustained by the Water Board in respect of any injury done to their property, and the value of any water wasted, misused, or unduly consumed.

Penalty for not repairing fittings.

57. If any person supplied with water by the Water Board causes or suffers any pipe, receptacle, fitting, or other apparatus used in connection with water supplied to him by the Water Board to be out of repair without repairing it within a reasonable time, or to be so used or contrived that the water supplied to him by the Water Authority is, or is likely to be wasted, misused, unduly consumed or contaminated, or so as to allow the return of foul air or any noisome or impure matter into a pipe belonging to the Water Board, or connected with any such pipe, he shall forfeit and pay to the Water Board a sum not exceeding Ten pounds.

Penalty for destroying Valves, etc.

58. If any person, not being authorised by the Water Board,—

he shall forfeit and pay to the Water Board a sum not exceeding Fifty pounds, and shall, in addition, be liable to pay to the Water Board any damage sustained in respect thereof, as well for the value of the water wasted as in repairing the fittings or other parts of the works, and the amount of such damage shall be ascertained, determined, and recovered in the same manner as such forfeited sum.

Penalty for taking, etc., Water in contravention of this Act.

59. If any person uses, or consumes or permits to be used or consumed, any water belonging to the Water Board, contrary to the provisions of this Act and the By-laws thereunder, he shall forfeit and pay to the Water Board a sum not exceeding Fifty pounds.

Fraudulent taking of Water.

60. Any person who fraudulently takes, or procures to be taken, any water belonging to the Water Board from a reservoir, main, or pipe belonging to the Water Board, or from any pipe leading to or from any such reservoir, main, or pipe, is guilty of a misdemeanour, and liable to imprisonment, with or without hard labour, for any term not exceeding two years.

Other consequences of contravening this Act or the By-laws.

61. If any person supplied with water by the Water Board—

- (1.) Does, or causes or permits to be done, anything in contravention of the provisions of this Act or of the By-laws; or
- (2.) Omits to do so, or prevents being done, anything which under any of those provisions ought to be done for the prevention of the waste, misuse, or undue consumption of the water of the Water Board,

the Water Board may (without prejudice to any other remedy against him) cut off any of the pipes by or through which water is supplied by the Water Board to him or for his use, and may discontinue the supply of water to him so long as the cause of injury remains or is not remedied; but such cutting off shall not affect or take away his liability to payment of rates.

PART VI.—WATER RATES AND PAYMENT FOR WATER.
THE RATE BOOK.

Recovery of Rates by Distress.

62. If any person liable to pay money due for rates or for water supplied by measure under the provisions of this Act fails to pay the same for the space of fourteen days after demand thereof made, in writing, by the clerk or secretary, or any authorised collector, the chairman may issue his warrant for levying the amount with costs, by distress and sale of the goods and chattels found on the land in respect of which the money is due in accordance with the law for the time being relating to distress for rent.

A warrant of distress may be in the form or to the effect of the Fifth Schedule.

The chairman may include in any one warrant any number of persons liable to pay rates.

The fees prescribed in the Sixth Schedule shall be payable on every distress.

Recovery by Action or Complaint.

63. Instead of proceeding by distress and sale, or in case no sufficient distress can be found on the premises, the Water Board may, fourteen days after demand thereof, in writing, by the clerk or secretary or any authorised collector, and notwithstanding any change of occupation or ownership, recover any money due for rates or for water supplied by measure from the occupier or owner for the time being of the land in respect of which the money is due, by complaint before two Justices of the Peace, or by action in any court of competent jurisdiction.

Recovery of Rates paid by Owner from Occupier.

64. (1.) When the owner of any land has paid any money due for rates or water supplied, which, as between the owner and occupier, should have been paid by the occupier, the owner may recover the sum so paid, on demand, from the occupier as arrears of rent could be recovered from the occupier by the owner.

Recovery of Rates paid by Occupier from Owner.

(2.) When the occupier of land has paid any money due for rates or water supplied, which, as between such occupier and the owner should have been paid by the owner, the occupier may deduct the amount paid from any rent due or to become due to the owner, or may recover the amount from the owner in any Court of competent jurisdiction.

Apportionment of Rates between successive Owners or Occupiers.

65. When an occupier or owner ceases to be the occupier or owner of the land in respect of which a rate is made, before the end of the period in respect of which such rate was made, such occupier or owner shall, as between himself and the succeeding occupier or owner, be liable to pay a portion only of the rate payable for the whole of such period proportionate to the time during which he continued to be the occupier or owner.

Any person who is the occupier or owner of the land during the remainder of the period shall, as between himself and the preceding occupier or owner, be liable to pay a portion of such rate in proportion to the time during which he is such occupier or owner.

But any rate made in respect of such property, and any money due for water supplied, shall continue in force, and may be recovered by the Water Board from the owner or occupier for the time being, without regard to any change in the occupation or ownership.

Notices and demands, how served.

66. (1.) Any notice or demand required by this Act to be given to or made upon any person may be served:—

- (a.) By delivering the same to such person;
- (b.) By leaving the same at his usual or last known place of abode;
- (c.) By forwarding the same by post in a prepaid letter addressed to such person at his usual or last known place of abode.

When deemed to have been given.

(2.) A notice or demand forwarded by post shall be deemed to have been given or made and to have been received at the time when, by ordinary course of post, the letter would be delivered.

When name of owner or occupier unknown.

(3.) When a notice or demand under this Act is required to be given or made to any owner or occupier whose name or address is unknown to the Water Board, it shall not be necessary to name such owner or occupier, and such notice or demand may be served by placing it on some conspicuous part of the land of such owner or occupier, and by publishing it three times, at intervals of not less than a week between any two publications, in a newspaper usually circulating in the district.

Service on corporations.

(4.) A notice or demand may be served on a corporation, or incorporated company, or the members of a partnership, by being delivered, left, or posted in a prepaid letter; the notice or demand being addressed in each case to the corporation, company, or partnership at the principal office or place of business thereof in the State.

Recovery of value of water misused, etc.

67. When any water supplied under this Act has been wasted, misused, or unduly consumed, the Water Board may recover the value thereof as a debt due to them by the person who wasted, misused, or unduly consumed the same, and the remedy given by this section shall be additional

to any other remedy which the Water Board may possess, and to the liability to any penalty which such person has incurred.

Obstructing Water Board or Officers in performance of duty.

68. Every person who obstructs the Water Board or any member thereof, or any person employed by the Water Board, in the performance of any act or thing which they are respectively authorised or required to do in the execution of this Act or any by-law made thereunder, shall be liable to a penalty not exceeding Twenty pounds.

GOVERNMENT ASSAYS.

ASSAYS, Analyses, and Determinations of any Western Australian Ore or Rock will be made by the Assayer to the Geological Survey, when not unduly interfering with official work, subject to the following conditions:—

1. Each sample must weigh at least 6oz., but not more than 2lbs.
2. Each sample must be enclosed in a separate canvas bag or strong paper wrapper, with a slip of paper bearing the name and address of the sender, together with a private mark by which it may be readily identified.
3. The parcel must be forwarded prepaid to:—

Geological Survey Office,
Perth.

4. A letter must be sent at the same time to the same address, stating for what metals the samples are to be assayed, or containing other instructions, as the case may be.

(N.B.—It is always advisable to keep duplicate samples of those submitted.)

5. Before any assay is made the prescribed fee must be paid to the Mineralogist and Assayer, or sufficient reasons, in accordance with Section 7 below, be furnished for having the samples treated free of cost.

6. The following fees will be charged:—

A reduction of 20 per cent. on the above amounts will be made in favour of any person submitting in one parcel five or more samples for identical treatment.

7. With the object of encouraging *bonâ fide* prospecting free assays will be made under the following circumstances:—

- (a.) The sample must have been obtained from land within the State not held under lease for mining purposes.
- (b.) The exact locality where the sample was found must be disclosed.
- (c.) The sample must be of sufficient promise to warrant an assay being made at the expense of the State.
- (d.) Free assays will not be made of samples showing free gold, or of tailings or other metallurgical products, or of umpire samples.

8. The Department reserves to itself the right of refusing to make any particular assay, and also the right of publishing at any time the results of an assay made at the public expense.
