Note.—Between stations in the Metropolitan-Suburban Area and stations in the Extended Suburban Area, the fares must be calculated as follows:—

Example 4.

	Excursion.	
	1st Class.	2nd Class.
Perth to Darlington (15 miles)—	s. d.	s. d.
Metropolitan Suburban Area—Perth to Bellevue, 12 miles ..	1 7	1 1
Extended Suburban Area—Bellevue to Darlington, 3 miles ..	0 9	0 6

Example 5.

Perth to Gosnells (13 miles)—	s. d.	s. d.
Metropolitan-Suburban Area—Perth to Maddington, 11 miles ..	1 6	1 0
Extended Suburban Area—Maddington to Gosnells, 2 miles* ..	0 7	0 5
	2 1	1 5

When the stations are near to the boundaries of the respective areas, and it is cheaper to charge the throughout mileage at the Extended Suburban rates, or at Country rates, this is to be done.

For example—

	1st Class.	2nd Class.
Midland Junction to Greenmount (3 miles)—	s. d.	s. d.
Suburban Excursion Fare ..	0 9	0 6
which is less than the fare computed on the separate charges for the respective Areas.		

The same principle to apply to the ordinary Single and Return fares.

COUNTRY FARES.

For fares between stations outside the Metropolitan, Kalgoorlie, and Extended Suburban Areas, see pages 25 to 41.

Fares between stations within the Metropolitan, Kalgoorlie, and Extended Suburban Areas and stations outside the Suburban Areas are to be computed by charging the mileage in each area in accordance with tables shown on previous pages.

* Ordinary return fares being less than minimum excursion fare.

The minimum fares shown, both inside and outside the Suburban Areas, are intended to apply when the passenger journey consists of one mile only. When the journey represents two miles or more, one mile only of which is either inside or outside the Suburban Area, the charge for that mile must be:—

1st single, 2d ; 1st Return and 1st Excursion, 3d. 2nd single, 1d. ; 2nd Return and 2nd Excursion, 2d.

	1st Single. s. d.	2nd Single. s. d.	1st Return. s. d.	2nd Return. s. d.
For instance: East Guildford to Gingin, East Guildford to Midland Junction (one mile)	0 2	0 1	0 3	0 2
Midland Junction to Gingin (<i>vide</i> special table) ..	6 9	5 0	10 0	7 6
	<hr/>	<hr/>	<hr/>	<hr/>
	6 11	5 1	10 3	7 8

Holders of Perth-Belmont tickets may travel to Burswood.

Tickets for adjoining Stations.—In cases where the same mileage applies to adjoining stations, such as Perth to West Midland and Midland Junction, seasons, workmen's weekly, and ordinary tickets will be available to or from either station—that is, such tickets issued at Perth to West Midland will be available to or from Midland Junction if necessary.

In working out the mileages between stations on the deviation (*viz.*, Swan View and Parkerville), and stations east of Lion Mill, 10 miles in the case of Swan View and five in the case of Parkerville must be added to the mileage east of Lion Mill. For instance, the distance between Swan View and Chidlow's Well is 14 miles, and is arrived at thus:—

Swan View and Lion Mill	10 miles
Lion Mill and Chidlow's Well	4 „

Passengers travelling from and to the South-West lines, to and from stations east of East Perth, must be charged the mileage in and out of Perth. Passengers travelling to and from stations on the Northampton line, from and to stations beyond Geraldton, are to be charged the mileage *via* Geraldton. All other mileages from one line to another are to be charged *via* the Junction stations.

Passengers desiring to travel between a station on the Boulder line and a station on the Brown Hill line, or between any station on either line and Kalgoorlie or Hannan Street, will be permitted to travel to destination by any train on payment of the fare for the shortest mileage. For example: A passenger desiring to travel between Hill End and Kalgoorlie or between Cræsus and Kallaroo will be charged the shortest mileage rate, but will be permitted to travel *via* Kamballie if the train service is more convenient.

Passengers booked from stations south of Narngulu to stations east thereof, or *vice versa*, may travel between Narngulu and Geraldton on the forward or return journey without extra payment.

Through passengers from and to stations distant more than 20 miles from Wonnerup, and stations on the Nannup line, may travel into Busselton without extra charge.

Passengers travelling from Mt. Barker and stations north thereof to any point on the Denmark Railway are to be permitted to travel from Torbay Junction to Albany and return free of charge, likewise passengers from Denmark line to Mt. Barker and stations north thereof are to be allowed the same privilege.

In computing the fares from West Midland to stations on the Midland Railway and *vice versa*, rate for one mile is to be added to Midland Railway Company's fares.

In the case of the Midland Railway, the fares must be charged as per tables published by the Company.

Holiday Excursion Fares are arrived at as follows:—

Where Midland line is affected the Midland single fare (as per special table, pages 42 and 43) with 25 per cent. added must be taken. (See example 1.)

Between country stations, *i.e.*, stations outside suburban areas, holiday excursion fares as per pages 25 to 41.

Between stations within Metropolitan and Extended Suburban Areas and country stations not more than 8 miles from Chidlow's Well or Armadale, and between stations within Kalgoorlie Suburban Area and Country Stations not more than 8 miles from Kalgoorlie, single fare plus 25 per cent. plus 3d. 1st class and 2d. 2nd class.

In all other cases ordinary suburban return fares added to amended holiday excursion fares. (See examples 2 and 3.)

JOHN T. SHORT,
Commissioner of Railways.

Perth, 1st November, 1916.

MILEAGE RATES.

W.A.G.R.

IT is hereby notified, for general information, that the following alterations to the Goods Rates Book, 1914, have been made and will come into operation on the 6th November, 1916.

Pages 46 and 58 are hereby cancelled, and the following substituted therefor:—

Calculated Rates.

*NOTE.—The Rates shown under Special Classes—Miscellaneous, Grain, A, B, and C—do not include the loading and unloading of the goods, or the use of sheets, ropes, or chains, for the protection of such goods.

When the loading or unloading is done by the Department, 1s. per ton for each service is to be added to the rate.

The charges for use of chains, ropes, or sheets are as follow:—

Chains or ropes	2d. each
Sheets or nets	6d. "

added to the rate per ton for the goods. For truck loads only, from one consignor to one consignee, the charges are:—

		Not exceeding	Exceeding
		25 miles	25 miles
Chains or ropes	4d.	6d.
Sheets or nets	9d.	1s. 6d.

The above charges and conditions apply also to S. to S. goods as specified in Classification.

[See Regulations 30 page 12, 33 page 13, and 36 page 14.]
